Department of Defense Authorization for Appropriations for Fiscal Year 2017 and the Future Years Defense Program

Humvee at War When it entered army service in 1985, AM General's high-mobility multipurpose wheeled vehicle-better known as the Humvee-quickly assumed the status the World War II jeep enjoyed among an

earlier generation of soldiers. Humvee at War showcases this iconic vehicle in the many roles and configurations it has taken on over the years-ambulance, troop transport, and armament carrier among them.U.S. Marine Corps School Of Infantry SOI Complete Training Materials "Warspeak," the language of the military, can be for many civilians and for members of differing services an unintelligible hodgepodge of acronyms, slang terms and field operation expressions.

Few laypersons may know that the Five F's is a derogatory expression, though Army, Navy, Marine, Air Force, Coast Guard and others know or can infer that "chairborn commandos" are administrative and support personnel. The more than 15,000 entries in this comprehensive dictionary provide an inside look at the United States military. Weapons systems, governmental agencies, electronic warfare, medical terms, military infrastructure, communications,

satellites and intelligence systems are among the topics covered in-depth. Also detailed are the acronyms and slang terms used by the soldiers in the field. The work provides numerous cross references for ease of use, along with a bibliography of over 2,200 sources.

The Army

The Commandant's Planning Guidance (CPG) provides the 38th Commandant's strategic direction for the Marine

Corps and mirrors the function of the Secretary of Defense's Defense Planning Guidance (DPG). It serves as the authoritative document for Service-level planning and provides a common direction to the Marine Corps Total Force. It also serves as a road map describing where the Marine Corps is going and why; what the Marine Corps force development priorities are and are not; and, in some instances, how and when prescribed actions will be implemented. This CPG

serves as my Commandant's Intent for the next four years. As Commandant Neller observed, "The Marine Corps is not organized, trained, equipped, or postured to meet the demands of the rapidly evolving future operating environment." I concur with his diagnosis. Significant change is required to ensure we are aligned with the 2018 National Defense Strategy (NDS) and DPG, and further, prepared to meet the demands of the Naval Fleet in executing current

and emerging operational naval concepts. Effecting that change will be my top priority as your 38th Commandant. This CPG outlines my five priority focus areas: force design, warfighting, education and training, core values, and command and leadership. I will use these focal areas as logical lines of effort to frame my thinking, planning, and decision-making at Headquarters Marine Corps (HQMC), as well as to communicate to our civilian leadership. This document explains how

we will translate those focus areas into action with measurable outcomes. The institutional changes that follow this CPG will be based on a long-term view and singular focus on where we want the Marine Corps to be in the next 5-15 years, well beyond the tenure of any one Commandant, Presidential administration, or Congress. We cannot afford to retain outdated policies, doctrine, organizations, or force development strategies. The coming decade will

be characterized by conflict, crisis, and rapid change - just as every decade preceding it. And despite our best efforts, history demonstrates that we will fail to accurately predict every conflict; will be surprised by an unforeseen crisis; and may be late to fully grasp the implications of rapid change around us. The Arab Spring, West African Ebola Outbreak, Scarborough Shoal standoff, Russian invasion of eastern Ukraine, and weaponization of social media are but a few

recent examples illustrating the point. While we must accept an environment characterized by uncertainty, we cannot ignore strong signals of change nor be complacent when it comes to designing and preparing the force for the future. What is abundantly clear is that the future operating environment will place heavy demands on our Nation's Naval Services. Context and direction is clearly articulated in the NDS and DPG as well as

testimony from our uniformed and civilian leadership. No further guidance is required; we are moving forward. The Marine Corps will be trained and equipped as a naval expeditionary force-in-readiness and prepared to operate inside actively contested maritime spaces in support of fleet operations. In crisis prevention and crisis response, the Fleet Marine Force - acting as an extension of the Fleet - will be first on the scene, first to help, first to contain a brewing crisis,

and first to fight if required to do so. The Marine Corps will be the "force of choice" for the President, Secretary, and Combatant Commander - "a certain force for an uncertain world" as noted by Commandant Krulak. No matter what the crisis, our civilian leaders should always have one shared thought - Send in the Marines.

Before the Committee on Armed Services, House of Representatives, One Hundred Third Congress, Second Session McFarland Training Circular (TC) 3-09.81, "Field Artillery Manual Cannon Gunnery," sets forth the doctrine pertaining to the employment of artillery fires. It explains all aspects of the manual cannon gunnery problem and presents a practical application of the science of ballistics. It includes step-by-step instructions for manually solving the gunnery problem which

can be applied within the framework of decisive action or unified land operations. It is applicable to any Army personnel at the battalion or battery responsible to delivered field artillery fires. The principal audience for ATP 3-09.42 is all members of the Profession of Arms. This includes field artillery Soldiers and combined arms chain of command field and company grade officers, middle-grade and senior noncommissioned officers (NCO), and battalion and squadron command groups and

staffs. This manual also provides guidance for division and corps leaders and staffs in training for and employment of the BCT in decisive action. This publication may also be used by other Army organizations to assist in their planning for support of battalions. This manual builds on the collective knowledge and experience gained through recent operations, numerous exercises, and the deliberate process of informed reasoning. It is rooted in time-tested

principles and fundamentals, while accommodating new technologies and diverse threats to national security.

The HMMWV, better known as the Humvee or Hummer, has set the world standard for army tactical vehicles since its introduction into the US Army in the 1980s. Designed to be the

successor to the jeep of World War II with a greater load-bearing capacity, the Humvee has proven to be adaptable to a wide range of roles, including weapons carrier, missile launcher, command vehicle and other specialized types.

This book traces the development and use of the Humvee and its variations, including the latest families of armored Humvees used in Iraq in 2003-05, and its adoption in a peacekeeping role the world over.

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States (1789-1824)*, the *Register of Debates in Congress (1824-1837)*,

and the Congressional Globe (1833-1873)
Commandant's Planning Guidance
 Over 1,400 pages covering the following primary topics: URBAN OPERATIONS BREACHING DEMOLITIONS ANTI-ARMOR WARFARE WEAPONS TRAINING, MAINTENANCE & MARKSMANSHIP MACHINE GUNS PATROLLING INFANTRY TACTICS AND TECHNIQUES NBC COMMUNICATIONS MORTARS ... and more
 Following Recruit Training, the School of Infantry is

the second stage of training for all Infantry Military Occupational Specialty (MOS) Enlisted Marines and marks the transition from entry-level Marines to combat-ready Marines. At SOI, Marines who have recently graduated from recruit training continue their education and training to become more proficient in the fundamentals of being a rifleman. Marines with a Military Occupational Specialty (MOS) of infantry are trained at the Infantry Training Battalion (ITB), while all non-

infantry Marines are trained at the Marine Combat Training Battalion (MCT). There are two Schools of Infantry: Camp Geiger located in North Carolina and Camp Pendleton in California. The primary role of the School of Infantry is to ensure, first and foremost, that "every Marine a rifleman." All Marine Corps assets exists to support the rifleman on the ground, and every Marine is prepared to do whatever it takes to ensure the safety of the Marines to their left and

right. Regardless of MOS, the ITB mission ensures every Marine has the capability to fulfill his or her duties while operating in a combat environment.

This manual provides guidance for the organization, planning, and conduct of the full range of military operations on urbanized terrain. This publication was prepared primarily for commanders, staffs, and subordinate leaders down to the squad and fire team level. It is written from a Marine air-ground task force perspective, with emphasis on the ground combat element as the most likely supported element in that environment. It provides

the level of detailed information that supports the complexities of planning, preparing for, and executing small-unit combat operations on urbanized terrain. It also provides historical and environmental information that supports planning and training for combat in built-up areas Department of Defense Authorization for Appropriations for Fiscal Year 2015 and the Future Years Defense Program: Seapower *Military Quality of Life and Veterans Affairs, and*
