"Like its predecessors, the Seventh Edition of Trial Advocacy in a Nutshell breaks the "art of advocacy" into practical skills and strategies of courtroom persuasion. Part 1 focuses on strategies for turning courtroom stories into "argument-centered narratives" that emphasize the evidence that supports legal claims. Part 2 analyzes and illustrates strategies, techniques and rules for presenting argument-centered narratives effectively during all phases of trial, from opening statement to closing argument. Part 2 includes separate chapters devoted to strategies for expert witnesses, oral persuasion skills, and courtroom technology. The book includes two chapters that approach the Federal Rules of Evidence as guides for admissibility of evidence rather than as exclusionary obstacles. They explain and illustrate how to satisfy the foundational requirements for virtually all forms of oral and tangible evidence, including electronic exhibits and exhibits prepared by forensic graphics experts. The chapters also explain effective strategies for making and responding to objections. The book uses real and fictional trial settings from different eras and sources to add variety while analyzing rhetorical trial strategies and emphasizing their durability. For example, the chapter on closing argument compares arguments made in the murder trial of Euphiletus (Greece, circa 400 B.C.) with those made in the trial of OJ Simpson (1995). Other analyses are based on the trials of the Rosenbergs (the so-called "atomic spies," 1953) and the Menendez brothers (1991), while still other illustrative examples are based on the Hillmon case (1892), and the Triangle Shirtwaist Fire trial (1911). We also illustrate and analyze trial strategies in the context of classic courtroom films such as Anatomy of

a Murder, To Kill a Mockingbird, 12 Angry Men and My Cousin Vinny, and even children's stories such as Humpty Dumpty and Jack & Jill." -- Publisher.

After a brief introduction to the history of international criminal law (from its origins through Nuremberg to the ad hoc tribunals for the Former Yugoslavia and Rwanda), it summarizes basic principles of international accountability (such as the doctrine of "legality") and concepts of international criminal jurisdiction (including "universal" jurisdiction). Several chapters focus on the International Criminal Court, in particular its substantive jurisdiction (genocide, crimes against humanity, war crimes and aggression), modes of liability and available defenses. Additional chapters cover the purposes and procedures of extradition (and its alternatives, such as "rendition") and mutual legal assistance (obtaining evidence abroad for use in criminal cases). Attention is also given to the major "transnational crimes," including terrorism, corruption, trafficking and organized crime. The book is written so that readers will not require prior experience in the field of international law.

**Principles of Evidence** The Monacelli Press, LLC

The Nutshell Studies of Unexplained Death offers readers an extraordinary glimpse into the mind of a master criminal investigator. Frances Glessner Lee, a wealthy grandmother, founded the Department of Legal Medicine at Harvard in 1936 and was later appointed captain in the New Hampshire police. In the 1940s and 1950s she built dollhouse crime scenes based on real cases in order to train detectives to assess visual evidence. Still used in forensic training today, the eighteen Nutshell dioramas, on a scale of 1:12, display an astounding level of detail: pencils write, window shades move, whistles blow, and clues to the crimes are revealed to those who study the scenes carefully. Corinne May Botz's lush color photographs lure viewers into every crevice of Frances Lee's models and breathe life into these deadly miniatures, which present the dark side of domestic life, unveiling tales of prostitution, alcoholism, and adultery. The accompanying line drawings, specially prepared for this volume, highlight the noteworthy forensic evidence in each case. Botz's introductory essay, which draws on archival research and interviews with Lee's family and police colleagues, presents a captivating portrait of Lee.
