Until the late 1940s, most Americans relied heavily upon radio, the only means of mass communication they knew, for information and entertainment. But with the 1950s came television sets and prosperity enabled more people to afford them. Radio began a decline. This work examines what could be called the final decade of AM network radio and the many factors that contributed to its decline. The first chapter is an overview of AM radio in the

1950s. The second chapter covers 1950 through 1953, when radio was still a popular medium but faced a need to make changes in its programming. Bill Paley and David Sarnoff strongly promoted radio in those years and the networks attempted to increase the ratings of their programs. Chapter three covers 1954 through 1956, three years in which radio experienced losses of its primary audience and some of its most popular shows (because of the pullout of advertisers), and an effort was made by the networks to keep their programs going and to convince audiences the medium was not on its way out. Chapter four, 1957 through 1960, chronicles the "end" of AM radio in homes, the cancellation of almost all remaining programs, network affiliates' going independent, and the rise in popularity of "drive time" radio. Chapter five covers 1961 to the present and summarizes the major changes that have taken place.

"Jennifer Keishin Armstrong's deft weave of social history and sharp entertainment reporting explains how [The Mary Tyler Moore Show] made the world safe for Lena Dunham" (Peter Biskind, author of Easy Riders, Raging Bulls)—the making of a classic and groundbreaking TV show, as experienced by its producers, writers, and cast. When writer-producers James L. Brooks and Allan Burns dreamed up an edgy show about a divorced woman with a career, the CBS executives they pitched replied: "American audiences won't tolerate divorce in a series' lead any more than they will tolerate Jews, people with mustaches, and people who live in New York." Forty years later, The Mary Tyler Moore Show is one of the most beloved and recognizable television shows of all time. It was an inspiration to a generation of women who wanted to have it all in an era when everything seemed

possible. Jennifer Keishin Armstrong's *Mary and Lou and Rhoda and Ted* tells the stories behind the making of this popular classic, introducing the groundbreaking female writers who lent real-life stories to their TV scripts; the men who created the indelible characters; the lone woman network executive who cast the legendary ensemble—and advocated for this provocative show—and the colorful cast of actors who made it all work. James L. Brooks, Grant Tinker, Allan Burns, Valerie Harper, Cloris Leachman, Betty White, Gavin MacLeod, Ed Asner, Ted Knight, Georgia Engel—they all came together to make a show that changed women's lives and television itself. *Mary and Lou and Rhoda and Ted* is the tale of how they did it.

**Family Assistance Act of 1970** Gale Cengage

The heart of this book is its fully annotated, critical editions of the surviving work of Richard Edwards, one of the most influential poets and dramatists writing in England before Shakespeare. Ros King's extensive introduction, identifying the holes in the documentary evidence that might accommodate this important but now little known writer, rewrites the history of pre-Shakespearean drama, illustrates new approaches to sixteenth-century prosody

and to the modernisation of dramatic poetry, and re-evaluates the public role of theatre and poetry during a particularly turbulent period in English history. While it will be essential reading for specialist scholars, it will also be of much wider interest. The introduction is highly accessible which makes it an appropriate text-book for students in a field where few textbooks are available. It will appeal to the current appetite among the reading public for biography, while the play, poems and songs are themselves very appealing.
