'This book is an essential starting point for practitioners who are new to Circle Time as it includes activities specifically for adults, helping to familiarise themselves with the process' - Early Years Update 'This is an excellent book full of practical circle time activities and experiences....The benefits of the potential life skills acquired through the use of this resource are immeasurable because it will help communication and problem solving skills, show participants how to be flexible, to get along with others, deal with conflict, take sensible measured risks and make wise decisions' - Early Years Educator 'Working as a supportive reference, resource manual and catalyst, the text affirms the partnership between school, family and community...[It] will boost the effectiveness of Circle Time - as a respected program in social / emotional learning, and tool for empowering youth' - Bendigo Weekly 'The beauty of this book lies in the simplicity of the activities. Anyone can follow the instructions and get amazing results. Individuals who have developed walls around themselves as a defence to cover up their low self esteem also react with wonder and bewilderment during these activities. A good self affirming experience during Circle Time goes a long way in helping us manage the darkest moments of our lives. Even the most reticent people open up during Circle Time' - Aroona Sharma, Ex-Head PSHE The British School, New Delhi, Counsellor, Psychotherapist Murray White was the first British author to publish a book on Circle Time and his classic Magic Circles helped to raise the profile and popularity of Circle Time during the 90s. This new and revised edition provides both the theoretical underpinnings and practical advice you need to help raise self-esteem through Circle Time. The resource also includes a 60 minute audio CD to introduce guided imagery to help build self-esteem. It takes the listener through a number of journeys, helping to develop imagination, improve concentration and increase self - confidence. The book provides a range of exciting activities to use in Circle Time to develop a sense of: · security · identity · belonging · purpose · competence · well-being The benefits of participation in this process both for individuals and society are clearly explained. The ability to communicate well, take sensible risks, make wise decisions, be flexible, deal with conflict and stress, solve problems and get along with others are all enhanced by this experience. To take account of the

popularity of the first edition among adults, circle activities are now included especially for their use. Everyone will benefit from the Circle Times in this book. Murray White represents the U.K. on the International Council for Self Esteem and emerges as the earliest and most significant influence on the establishment of Circle Time in the UK.

The design of school curriculums involves deep thought about the nature of knowledge and its value to learners and society. It is a serious responsibility that raises a number of questions. What is knowledge for? What knowledge is important for children to learn? How do we decide what knowledge matters in each school subject? And how far should the knowledge we teach in school be related to academic disciplinary knowledge? These and many other questions are taken up in *What Should Schools Teach?* The blurring of distinctions between pedagogy and curriculum, and between experience and knowledge, has served up a confusing message for teachers about the part that each plays in the education of children. Schools teach through subjects, but there is little consensus about what constitutes a subject and what they are for. This book aims to dispel confusion through a robust rationale for what schools should teach that offers key understanding to teachers of the relationship between knowledge (what to teach) and their own pedagogy (how to teach), and how both need to be informed by values of intellectual freedom and autonomy. This second edition includes new chapters on Chemistry, Drama, Music and Religious Education, and an updated chapter on Biology. A revised introduction reflects on emerging discourse around decolonizing the curriculum, and on the relationship between the knowledge that children encounter at school and in their homes.

'Education, Equality and Human Rights' addresses the issue of human rights and its relationship to education in the 21st century. Each of the five equality issues of gender, race, sexuality, disability and

social class are covered as areas in their own right, and in relation to education. [Supporting Young Learners 3](#) "O'Reilly Media, Inc."

This brand new resource provides much needed support for every primary school in the delivery of the objectives outlined in the Equality Act 2010; and in the provision of personal, social, health and economic education (PSHE) for every child. This resource provides teachers with a curriculum that promotes equality for all sections of the community. But more than that, the resource aims to bring children and parents on board from the start so that children leave primary school happy and excited about living in a community full of difference and diversity, whether that difference is through ethnicity, gender, ability, sexual orientation, gender identity, age or religion. The resource includes 5 lesson plans for every primary school year group (EYFS- Y6) based upon a selection of 35 picture books. Issues addressed include: gender and gender identity, religion, sexual orientation, disability and age. There is an introductory chapter explaining the legal framework behind the resource, quoting Ofsted and

the DfE. A second chapter focuses on creating the whole school ethos through assemblies, school displays and after school clubs. A third chapter focuses on engaging parents. Age 7+ Format 96pp, paperback (245 x 171mm) Andrew has been a full time teacher for 20 years and is currently the Assistant Head Teacher in a large primary school in inner city Birmingham.

Sex education is rarely out of the news. Despite this, there exist surprisingly few studies of the principles, policies and practice of sex education. This book provides such an examination, focusing on the values to which children are exposed in sex education. Sex education inevitably involves the transmission of values, regardless of whether this is intended by teachers. Throughout the book, academic and professional literature on both values and sex education is reviewed and discussed. The authors look at the implicit liberal values, which underpin programmes of sex education, and at the challenges presented by the diversity of values in contemporary society. The book also considers: \* Why values are central to sex education \* Children's voices and children's values \* Religious and family values \* Achievable aims for school sex education \* How to help young people to reflect critically on the influences to which they are exposed and on their own developing sexual values \* How to build values into practical approaches to sex education at both primary and secondary levels. This timely book will help all those involved in sex education to steer a path between controversial and often opposing views and will be essential reading for students on PGCE and BEd courses. It will also be a valuable resource for teachers and professionals involved in teaching sex education such as teachers of personal and social education, form tutors, heads of year, school nurses, health workers and academics.

"Up-to-date and accessible, this book manages to be both theoretically subtle and attuned to the realities of classroom practice." Dr Rachel Thomson, The Open University "[This] book is a great success and provides a wealth of insights into the realities of teaching and being taught about sex and relationships." Michael Reiss, Institute of Education What are the different values and perspectives on sex and relationship education within a single secondary school? How do young people think sex education should be taught?

What are the challenges facing the provision of good sex and relationship education at the classroom level and at the political level? Young people often receive mixed messages about gender and sexual relationships. When providing sex education lessons, schools should take into account different ideas and values, including the general British embarrassment over intimate matters and differing political and personal views about sex education. This book combines young people's views of sex education, schooling and parenthood, with those of teachers, school nurses and head-teachers. It brings together these varied perspectives and considers how they reveal different values, aims and agendas. The authors highlight the potential conflict between approaches to education and health, and reveal the complexity of dealing with sexuality and gender in real-life situations. Focusing on young people's identities in the classroom, contemporary theoretical approaches in the social sciences are employed to explore how gender is enacted and experienced by individuals, and how social pressures and government agendas operate at the level of the individual. This book contains original, first-hand empirical material from a detailed study of all the schools in one English city, and offers a critical analysis of broader political and cultural ideas and values. Get Real About Sex is key reading for students and professionals in education, health and the sociology of gender and sexuality.

Teaching and Learning about HIV highlights the role that schools can play in providing education and support about HIV. It provides teachers and others working in schools with a rationale for teaching about HIV, including: legislation and guidance; guidance on ensuring effective policy development; background information about HIV and AIDS; and activities for use with children and young people, from Key Stage 1 to 4. The activities in Teaching and Learning about HIV have been tried and tested, and include those for young people with special educational need. The resource also includes ideas for addressing HIV in different areas of the curriculum, such as Circle Time and Citizenship.

Both parents and schools have a vital role in sex and relationships education (SRE). The majority of parents and carers want schools to provide SRE, yet schools are often unsure about how to discuss the subject with them. 'Let's work together' is a practical guide for schools to involve parents and carers in SRE. It includes 7 activities that can be used in workshops with parents or as the basis for a school survey. The toolkit comes complete with: seven activities to use with parents including photocopiable handouts homework ideas that involve parents in SRE from Year 1-13 real life examples of how schools are working with parents and carers on SRE photocopiable leaflets (one for primary and one for secondary) that schools can give to parents explaining the basics of SRE summary of the evidence that parents want to be involved in SRE and that children benefit when they are The benefits of schools working closely with parents and carers have been recognised in the Ofsted Inspection Framework for Schools. This practical publication will help schools, curriculum leaders and local authority advisers to communicate confidently and effectively with parents and carers and ultimately to improve the quality of SRE their children receive.

There is a tendency in much educational thinking to view pupils in passive terms, as the material on which schools operate. This damaging view is challenged here. Significant recent research shows the effects of changing educational conditions on the experience of teaching and learning in schools. By redressing the balance and acknowledging the affective side of pupils and their learning, this book shows that improved understanding leads to improved teaching. In this terrifying and provocative novel by the bestselling and award-winning author of *Deadline* and *Staying Fat* for Sarah Byrnes, a teenage boy tries to uncover what happened to a girl who has vanished from his high school. Was she abducted, or did she run for her life? Paul "The Bomb"

Baum tells the truth. No matter what. It was something he learned at Sunday school. But telling the truth can cause problems, and not just minor ones. And as Paulie discovers, finding the truth can be even more problematic. Period 8 is supposed to be that one period in high school where the truth can shine, a safe haven. Only what Paulie and Hannah (his ex-girlfriend, unfortunately) and his other classmates don't know is that the ultimate liar is in their midst. Terrifying, thought-provoking, and original, this novel combines all the qualities of a great psychological thriller with the controversy, ethics, athletics, humor, and raw emotion of a classic Crutcher story.

Based on observation of sex education programmes and in-depth interviews with young people, the authors aim to understand more about adolescent's attitudes to sexuality and their sexual behaviour in order to develop policies which will meet their needs more appropriately and effectively. Issues

covered in this interesting and accessible book include the ways adolescent informal culture affects sex education programmes and practice; the impact of gender inequality on sex education and safer sex behaviours; legislation and policy frameworks which effect sex education policies; the way young people see legislation and evaluate sex education programmes; and the impact health professionals can have in school sex education. The authors contend that the insights into the values and views that young people bring to bear on the sex education they receive should have an important role to play in the development of policy and practice of those involved in sex education work.
