In the fourteen years of NDTV's Walk The Talk Shekhar Gupta has interviewed more than 600 stellar guests—an outstanding feature for one of Indian TV news channel's most respected shows is the wide diversity of its guests. These range from heads of states to national, regional and international politicians and public figures, from Indian and global film stars to Nobel Laureates, scientists, economists, sports stars (not limited to cricket), spiritual gurus, business tycoons, philanthropists and, of course, activists. This book focuses exclusively on political leaders and public figures. Many of these conversations are path-breaking, and some extremely rare. For example, leaders like Sonia Gandhi and former prime minister P.V. Narasimha Rao have never before engaged in freewheeling, recorded conversations in such detail. Others have broken new ground since Narendra Modi, L.K. Advani, Pranab Mukherjee, Mayawati and even M. Karunanidhi. There are also global thought leaders and heads of state: David Cameron, Henry Kissinger, and Pushp Kamal Dahal 'Prachanda', among others. There is also the rarest of rare interviews with the former RSS chief K.S. Sudarshan. It was challenging to choose just twenty-five political personalities and voices to feature in this selection. And one criterion has been to try and pick those conversations that mark political shifts and change. Hopefully, these will help provide an understanding of recent political history, and how we have reached the point we are at today, in the words of these very significant and interesting people.

"The Wild Dead is a tightly plotted mind-thrill . . . This is the feminist dystopian mystery series you didn't know you needed." — Meg Elison, Philip K. Dick Award-winning author of The Road to Nowhere series Mysteries and murder abound in the sequel to the Philip K. Dick Award-winning Bannerless A century after environmental and economic collapse, the people of the Coast Road have rebuilt their own sort of civilization, striving not to make the mistakes their ancestors did. They strictly ration and manage resources, including the ability to have children. Enid of Haven is an investigator, who with her new partner, Teeg, is

called on to mediate a dispute over an old building in a far-flung settlement at the edge of Coast Road territory. The investigators' decision seems straightforward — and then the body of a young woman turns up in the nearby marshland. Almost more shocking than that, she's not from the Coast Road, but from one of the outsider camps belonging to the nomads and wild folk who live outside the Coast Road communities. Now one of them is dead, and Enid wants to find out who killed her, even as Teeg argues that the murder isn't their problem. In a dystopian future of isolated communities, can our moral sense survive the worst hard times? "An intriguing mystery made compelling by its post-apocalyptic setting . . . Another great read from Vaughn." — S. M. Stirling, New York Times best-selling author of The Sky-Blue Wolves and Dies the Fire A Mariner Original A John Joseph Adams Book

Phylloxera Om Books International

Most business owners go into business for themselves to increase their personal wealth, build an asset that they can either pass on to heirs or sell, and for greater flexibility or an enhanced quality of life. To do this, every business will eventually need employees. And this is the biggest hurdle a small business owner will face in growing the business. Common difficulties include finding a good fit for the growing enterprise; matching skill level with affordability; employee "management by abdication" issues; and the nightmare of compliance with regard to tax payment and reporting requirements. This book will provide a step-by-step guide to finding and keeping the right people. It provides suggestions on structuring the job, advertising and interviewing, creating job descriptions, and reviewing and rewarding team members. This book can help transition a one-man shop into a professional organization that will eventually be able to survive without the owner working at every task, thus building true business value.

History of the Khaljis, A.D. 1290-1320 Diversion Books

A historical investigation into the mysterious bug that wiped out the vineyards of, first, France and then Europe in the 1860s -- and how one young botanist, who had served an apprenticeship at Kew Gardens, eventually 'saved wine for the world'. Bordeaux, inexplicably began to wither and die. Panic seized France, and Jules-Emile Planchon, a botanist from Montpellier, was sent to investigate. Magnifying glass in hand, he discovered the roots of a

dying vine covered in microscopic yellow insects. The tiny aphid would be named Phylloxera vastatrix -- 'the dry leaf devastator'. Where it had come from was utterly mysterious, but it advanced with the speed of an invading army. As the noblest vineyards of France came under biological siege, the world's greatest wine industry tottered on the brink of ruin. The grand owners fought the aphid with expensive insecticide, while peasant vigneron simply abandoned their ruined plots in despair. Within a few years the plague had spread across Europe, from Portugal to the Crimea. the parasite had accidentally been imported from America. He believed that only the introduction of American vines, which appeared to have developed a resistance to the aphid, could save France's vineyards. His opponents maintained that this would merely assist the spread of the disease. Meanwhile, encouraged by the French government's offer of a prize of 300,000 gold francs for a remedy, increasingly bizarre suggestions flooded in, and many wine-growing regions came close to revolution as whole local economies were obliterated. Eventually Planchon and his supporters won the day, and phylloxera-resistant American vines were grafted onto European root-stock. Despite some setbacks -- the first fruits of transplanted American vines were universally pronounced undrinkable -- by 1914 all vines cultivated in France were hybrid Americans. of one of the earliest and most successful applications of science to an ecological disaster.

Premchand - Short Stories Ready

Rarely in a lifetime does a new spiritual classic appear that has the power to change people's lives and transform future generations. This is such a book. The Essence of the Bhagavad Gita Explained by Paramhansa Yogananda shares the profound insights of Paramhansa Yogananda, author of Autobiography of a Yogi, as remembered by one of his few remaining direct disciples, Swami Kriyananda. This revelation of India's best-loved scripture approaches it from an entirely fresh perspective, showing its deep allegorical meaning and also its down-to-earth practicality. The themes presented are universal: how to achieve victory in life in union with the divine; how to prepare for life's "final exam," death, and what happens afterward; how to triumph over all pain and suffering. This book is itself a triumph. Swami Kriyananda worked with Paramhansa Yogananda in 1950 while the Master completed his commentary. At that time Yogananda

commissioned him to disseminate his teachings world-wide. Kriyananda has in his lifetime lectured, taught, and written eighty-five books based on Yogananda's teachings. The Essence of the Bhagavad Gita, Kriyananda's eighty-sixth book, is the crowning achievement of his highly productive life. In this, his masterpiece, he declares, "Yogananda's insights into the Gita are the most amazing, thrilling, and helpful of any I have ever read." *Written by Salim-Javed* Motorbooks International

How many, in a Mumbai room full of Hermes ties and finance whizkids, are Dalit? What if Mahesh Bhatt's son, David Headley's friend, had been a Muslim? Why is Delhi getting better as a city and Mumbai going downhill? When did the Congress first start shrinking its prime minister? When did it become clear that Narendra Modi would take over his party? Who are the HMTs? And what does an angry Arvind Kejriwal say about us? Raising such questions is the hallmark of Shekhar Gupta's National Interest, the most eagerly awaited news and current affairs column in Indian journalism. Informed by three decades and more of formidable reporting and a credibility that gives Gupta unrivalled access to decision makers in government, politics and business, the best of these columns in Anticipating India explain and interpret, provoke and predict change for more than a billion people. A riveting first draft of modern Indian history, Anticipating India interprets everything from the successes and failings of Atal Bihari Vajpayee and Manmohan Singh to the ascent of Rahul Gandhi, Narendra Modi and Arvind Kejriwal, from the forces that have deepened Indian federalism and constitutionalism to the public mood that keeps a check on excesses in the use of political power. Each chapter in Anticipating India, in its questioning of power, its use and abuse, carries within it ideas of India that challenge conventional wisdom, shatter stereotypes and, in the end, question our long-held assumptions of who we are as a nation and a people.

Anticipating India Collins & Brown

Following in the footsteps of the previous two volumes, this third volume of the Alexander Discipline, focusing on unusual and difficult cases, demonstrates through the presentation of complete patient records how these principles can be used to achieve beautiful, functional, and stable results even in patients requiring creative treatment planning and treatment mechanics. In the situations presented in this book, there is no one right

answer to the problem, and the orthodontist must have the confidence and relevant knowledge to formulate the treatment plan most suitable for each patient. (EDITOR).

Most people's perception of comicbooks is one of superheroes like Spider-Man and Batman. But it belies an art form that is not unique to the UK and USA. Practically every country in the world has its own thriving comicbook industry. In some countries like France, they are a highly regarded form of expression - The Ninth Art. While in Japan, comics are so integral to its culture and society that it would be impossible to imagine the country without

them. The cultural impact of comics cannot be underestimated. Did you know that sales of Mexico's leading comic outstrip those of the country's bestselling daily newspaper by six to one? Or that comicbooks are often used to convey a very serious message (only recently a comic featuring Superman was distributed to 500,000 children in Kosovo to teach them how to spot and avoid land mines)? Arranged geographically, this book assesses the medium in every major area of the world, discussing the history of the genre, the comics and characters, the publishers, creators and artists. Regions covered include the UK and United States, central Europe (France, Belgium, Germany, Spain, Italy), Eastern Europe, Scandinavia, Japan and Asia, Africa, India, Central and South America, and Australasia. Including key feature spreads and a wealth of colour images - many of them unseen - this book is the first of its kind to provide a global picture of an often-underrated art form.

Ling 1995 Thomas Nelson

The beloved New York Times bestselling author reflects on home, family, friendships and writing in this deeply personal collection of essays. "The elegance of Patchett's prose is seductive and inviting: with Patchett as a guide, readers will really get to grips with the power of struggles, failures, and triumphs alike." —Publisher's Weekly "Any story that starts will also end." As a writer, Ann Patchett knows what the outcome of her fiction will be. Life, however, often takes turns we do not see coming. Patchett ponders this truth in these wise essays that afford a fresh and intimate look into her mind and heart. At the center of These Precious Days is the title essay, a surprising and moving meditation on an unexpected friendship that explores "what it means to be seen, to find someone with whom you can be your best and most complete self." When Patchett chose an early galley of actor and producer Tom Hanks' short story collection to read one night before bed, she had no idea that this single choice would be life changing. It would introduce her to a remarkable woman—Tom's brilliant assistant Sooki—with whom she would form a profound bond that held monumental consequences for them both. A literary alchemist, Patchett plumbs the depths of her experiences to create gold: engaging and moving pieces that are both self-portrait and landscape, each vibrant with emotion and rich in insight. Turning her writer's eye on her own experiences, she transforms the private into the universal, providing us all a

way to look at our own worlds anew, and reminds how fleeting and enigmatic life can be. From the enchantments of Kate DiCamillo's children's books (author of *The Beatryce Prophecy*) to youthful memories of Paris; the cherished life gifts given by her three fathers to the unexpected influence of Charles Schultz's Snoopy; the expansive vision of Eudora Welty to the importance of knitting, Patchett connects life and art as she illuminates what matters most. Infused with the author's grace, wit, and warmth, the pieces in *These Precious Days* resonate deep in the soul, leaving an indelible mark—and demonstrate why Ann Patchett is one of the most celebrated writers of our time.

The dramatic, entertaining story of the dream team that pioneered the Bollywood blockbuster Salim Khan and Javed Akhtar reinvented the Bollywood formula with an extraordinary lineup of superhits, becoming game changers at a time when screenwriting was dismissed as a back-room job. From *Zanjeer* to *Deewaar* and *Sholay* to *Shakti*, their creative output changed the

destinies of several actors and filmmakers and even made a cultural phenomenon of the Angry Young Man. Even after they decided to part ways, success continued to court them—a testament not only to their impeccable talent and professional ethos, but also their enterprising showmanship and business acumen. Fizzing with energy and brimming over with enough trivia to delight a cinephile's heart, *Written by Salim-Javed* tells the story of a dynamic partnership that transformed Hindi cinema forever.

Testimonial: Mala and her youthful energy, even though she is a grandmother, is proof that she practices the thoughtful and knowledgeable insights that she has given in her book "Grow Younger". The book has valuable wisdom and I believe in most of the guidance shared by her. In fact I practice them myself. I think this book is a useful read for everyone, not just those who think they are getting older. - MILKHA SINGH About the book "Age is just a number." "Sixty is the new forty." "You are as young as you think." Everyone has heard these catch-phrases sometime or the other. People utter them to sound cool, and perhaps, younger. But when people say such things, do they know what they really mean? *Grow Younger* tells the story of one woman who lived and still lives a youthful life. However, this book is not only about her life. It is also about your life; why you should and how you can live

a youthful life. Written with an infectious conviction, the book is peppered with practical, sensible and common-sensical advice on how to think, act, feel and be younger. It shows you that counting your blessings matters more than counting the number of candles on your birthday cake.

Grow Younger McGraw Hill Professional

Illustrations used for story-telling and mirth-making have enlivened Asian walls, scrolls, books, public and private places, and artifacts for millennia. Often playful and humorous, Asian pictorial stories lent conspicuous elements to contemporary comic art, particularly with their use of narrative nuance, humor, satire, and dialogue. *Illustrating Asia* is a fascinating book on a subject that is of wide and topical interest. All of the articles consider cartoon and/or comic art in the historical and social setting of seven South, Southeast, and East Asian countries: India, Taiwan, Malaysia, Indonesia, Sri Lanka, China, and Japan. The contributors treat comic and narrative art—including comic books, comic strips, picture books, and humor and fan magazines—in both historical and socio-cultural perspectives, as well as portrayals of ancient Chinese philosophy, gender, and the enemy in cartoons and comics. Contributors: Laine Berman, John A. Lent, Fusami Ogi, Rei Okamoto, Ronald Provencher, Aruna Rao, Kuiyi Shen, Shimizu Isao, Shu-chu Wei, Yingjin Zhang.
