Los Angeles Detective Harry Bosch tackles a cold case unlike any he's ever worked, in the new legal thriller from the bestselling author of THE LINCOLN LAWYER and THE BLACK ECHO, Michael Connelly. In the LA Police's Open-Unsolved Unit, not many murder victims die almost a decade after the crime. So when a man succumbs to complications from being shot by a stray bullet ten years earlier, Bosch catches a case in which the body is still fresh, but any other evidence is virtually non-existent. Now Bosch and his new partner, rookie Detective Lucia Soto, are tasked with solving what turns out to be a highly charged, politically sensitive case. Starting with the bullet that's been lodged for years in the victim's spine, they must pull new leads from years-old information, which soon reveals that this shooting may have been anything but random in this gripping police procedural.

On January 22, 1959, Old Main Dormitory at Mississippi State University was home to 1,100 college students. But early on Friday morning, January 23rd, the students were homeless. Old Main was ablaze and the ruins of the largest student housing facility in the United States would later produce the charred body of one of its own. Extremely cold weather, final exams, and students gone home for semester break contributed to the very difficult task and seemingly endless confusion of trying to confirm that all residents of Old Main had escaped the devastating blaze. After three days of investigation, evidence pointed to the strong possibility that the fire had been deliberately set. Searchers found a human skull in the smoldering rubble. The crushed skull was not the result of the fire, a fall or failed escape. It appeared to be murder. Had the fire been deliberately set to cover up a murder? How in the world does college life lead to murder and arson? The investigation leads to the upscale social circles of the Deep South, influenced by big city visitors and money. Beneath the surface of this seemingly slow-paced, innocent college life lies the true story of Old Main Burning.

From New York Times bestselling author Jeffery Deaver—Lincoln Rhyme is back, and on the trail of a killer whose weapon of choice cripples New York City with fear. Now a major television series starring Russel Hornsby, Arielle Kebbel, and Michael Imperioli. The weapon is invisible and omnipresent. Without it, modern society grinds to a halt. It is electricity. The killer harnesses and steers huge arc flashes with voltage so high and heat so searing that steel melts and his victims are set afire. Rhyme, a world-class forensic criminologist known for his successful apprehension of the most devious criminals, is immediately tapped for the investigation. As the attacks continue across the city at a sickening pace, and terrifying demand letters begin appearing, the team works desperately against time and with maddeningly little forensic evidence to try to find the killer. Or is it killers...? Meanwhile, Rhyme is consulting on another high-profile investigation in Mexico with a most coveted quarry in his crosshairs: the hired killer known as the Watchmaker, one of the few criminals to have eluded Rhyme's net. Juggling two massive investigations against a cruel ticking clock takes a toll on Rhyme's health. Soon Rhyme is fighting on yet another front—and his determination to work despite his physical limitations threatens to drive away his closest allies when he needs them most...

The definitive account of one of the deadliest wildfires in U.S. history, which killed nineteen elite firefighters of the Granite Mountain Hotshots and also inspired the major motion picture Only the Brave. "A tear-jerking classic." —Outside • Named One of the Best Books of the Year by Men's Journal On June 28, 2013, a single bolt of lightning sparked an inferno that devoured more than eight thousand acres in northern Arizona. Twenty elite firefighters—the Granite Mountain Hotshots—walked together into the Yarnell Hill Fire, tools in their hands and emergency fire shelters on their hips. Only one of them walked out. An award-winning journalist and former wildland firefighter, Kyle Dickman brings to the story a professional's understanding of how wildfires ignite, how they spread, and how they are fought. He understands hotshots and their culture: the pain and glory of a rough and vital job, the brotherly bonds born of dangerous work. Drawing on dozens of

interviews with officials, families of the fallen, and the lone survivor, he describes in vivid detail what it's like to stand inside a raging fire—and shows how the increased population and decreased water supply of the American West guarantee that many more young men will step into harm's way in the coming years. Praise for *On the Burning Edge* "Dickman weaves a century of fire-management history into the fully realized stories of the men's lives—the sweat, the adrenaline, the orange glow of fire within their aluminum shelters, and the chewing gum that hotshot Scott Norris left in the shower before telling his girlfriend, Heather, 'I'll take care of it later. I promise.'"—*Outside* "Dickman offers a riveting account of a dangerous occupation and acts of nature most violent—and those who face both down."—*Library Journal*

THREE BODIES BURNING Serpent's Tail

The director of the famed Bodleian Libraries at Oxford narrates the global history of the willful destruction—and surprising survival—of recorded knowledge over the past three millennia. Libraries and archives have been attacked since ancient times but have been especially threatened in the modern era. Today the knowledge they safeguard faces purposeful destruction and willful neglect; deprived of funding, libraries are fighting for their very existence. *Burning the Books* recounts the history that brought us to this point. Richard Ovenden describes the deliberate destruction of knowledge held in libraries and archives from ancient Alexandria to contemporary Sarajevo, from smashed Assyrian tablets in Iraq to the destroyed immigration documents of the UK Windrush generation. He examines both the motivations for these acts—political, religious, and cultural—and the broader themes that shape this history. He also looks at attempts to prevent and mitigate attacks on knowledge, exploring the efforts of librarians and archivists to preserve information, often risking their own lives in the process. More than simply repositories for knowledge, libraries and archives inspire and inform citizens. In preserving notions of statehood recorded in such historical documents as the Declaration of Independence, libraries support the state itself. By preserving records of citizenship and records of the rights of citizens as enshrined in legal documents such as the Magna Carta and the decisions of the US Supreme Court, they support the rule of law. In *Burning the Books*, Ovenden takes a polemical stance on the social and political importance of the conservation and protection of knowledge, challenging governments in particular, but also society as a whole, to improve public policy and funding for these essential institutions.
