Oxford  
Jaishankar Prasad's epic  
poem Kamayani (1936) is  
a feast for intellectuals. It  
operates at three different  
levels: the gross or  
mythological, the

emotional and the  
spiritual. Prasad infused  
the vision of a rishi, a  
sage, into this work. The  
reader experiences poetic  
currents of human  
emotions - anxiety, hope,  
desire, love, shyness,  
sorrow, conflict - and  
finally emerges at an  
elevated level of  
consciousness.

APC Understanding ISC Mathematics - Class 11 - Avichal Publishing Company Arihant Publications India limited "Set in Aligarh in the early 1960s, after the dust of

Partition has ostensibly settled, Topi Shukla is a story of two friends - one Hindu and the other Muslim." "Through the characters of people like Topi and Iffan, the novel looks at the lives of ordinary people trying to survive in a society that insists on a brutal conformity of behaviour. It is about individuals whose spirits are paralysed because they cannot conform, and about history's inability to teach mankind any worthwhile lessons." "Language plays an important part in this

narrative, operating almost as a character in its own right. Topi, as a Hindi bull in the Urdu china shop, invokes the historical stand-off between the two languages. The novel also explores the culture and psyche of Uttar Pradesh with its very Muslim Aligarh, its very Hindu Benares, and their exotic confluence in Lucknow."--BOOK JACKET.

*New Mathematics Today Class 6* Penguin UK  
Gaban, first published in 1931, five years before Premchand's death, gives us a fascinating glimpse of north Indian society, and especially of the author's own Kayasth community. But this novel also serves to put forth his own deeply-held views of the ills of that society - the insatiable love of its women for personal adornment, its failure to create fulfilling marriage relationships, and its moral corruption. This is a

felicitous translation by Christopher R. King and will enable many readers to appreciate Premchand's important novel, available for the first time in English  
*Magadh* Invincible Publishers  
His real name was Dhanpat Rai but he is better known by his pen name Munshi Premchand. He has been read and studied both in India and abroad as one of the greatest writers of the century. Premchand's literary career started as a freelancer in Urdu. In his

initial short stories he has depicted the patriotic upsurge that was sweeping the country in the first decade of the 19th century. In 1914, Premchand started writing in Hindi. Premchand was the first Hindi author to introduce realism in his writings. He pioneered the new art form of fiction with a social purpose. He wrote of the life around him and made his readers aware of the problems of the urban middle-class and the country's villages. Besides being a great novelist, Premchand was

also a social reformer and thinker. Pratigya is the story about a young idealist who takes on himself the task of social upliftment and progress. It gives a vivid description of the society during that era and the obstructions that were faced by the few who believed in a new and better country by the removal of social evils prevalent during those times.

 You have to write! It's a class assignment. But you have nothing to write about. All the other kids seem to have something to tell because they start in right away. What can you do? Stop and think. No one else can tell your stories -- about your family, your dog or cat. No one else can tell how it was when your library book got soaked in the rain. But what if you don't like what you write? There are all sorts of ways to change it, to make it better. Keep on playing

with your words, putting them together in different ways. You want whatever you write to be good. It will get better and better as you work on it. This is an encouraging book, sympathetically illustrated by Teresa Flavin's charming pictures, for all young readers who worry when they're told to write something.

Understanding ISC Mathematics, for class 11 - sections A, B & C, has been written by Mr. M.L. Aggarwal (Former Head of P.G. Department of Mathematics, D.A.V. College, Jalandhar) strictly according to the new syllabus prescribed by the Council for the Indian School Certificate Examinations, New Delhi

in the year 2015 and onwards for students of class 11. A new feature - Typical Illustrative Examples and Typical Problems, has been added in some chapters for those students who want to attempt some more challenging problems. The entire matter in the book is given in a logical sequence so as to develop and strengthen the concepts of the students. *The Bijak of Kabir; Translated Into English* Otto Harrassowitz Verlag  
Story of Hori, a poor peasant who yearns to

own a cow and to make the pious Hindu's traditional gift to a Brahmin when he dies. Through Premchand's vivid character portrayals we witness the efforts of Hori's family to survive the conflicts of village politics and the webs spun by colonial landownership patterns. Counterposed to the culture of rural connectedness but also constriction is the isolation but also freedom of the city. Here the rigors of industrialization and empty materialism only can be offset by the

promise of Gandhian idealism.
