CRANE MELODY

Guinness World Records 2008 Oxford University Press

L'autobiographie haut perchée de l'un des meilleurs athlètes français de l'histoire. " Plus vite, plus haut, plus fort. " Telle est la devise olympique qui nous renvoie tous à ce vieux rêve de l'humanité d'atteindre les sommets. Ce rêve, Renaud Lavillenie se l'est offert, devenant non seulement le douzième et dernier en date (2012) champion olympique d'athlétisme français de l'histoire mais aussi le recordman du monde de saut à la perche (6,16 m en 2014), détrônant le mythique Sergeï Bubka qui détenait le record depuis plus de vingt ans. S'il a été battu, depuis, par le prodige Suédois Armand Deplantis, dont Lavillenie est le héros d'enfance et maître en matière de technique, l'histoire de Lavillenie, incroyable de longévité au sommet, est exemplaire à plus d'un titre. S'il s'est exercé enfant à la voltige dans le centre équestre où enseignait son père, il débute l'athlétisme tard, à quinze ans, et n'atteindra un niveau international qu'après 22 ans. Léger pour un perchiste à l'époque, rapide (il s'aligne alors parfois sur 100 m), il révolutionne la technique, notamment de course, pour arriver à plier des perches raides et monter toujours plus haut. Durant plus de vingt ans de carrière, Lavillenie va faire preuve d'une régularité inouïe jusque là dans une discipline aussi aléatoire, collectionnant les titres européens et mondiaux. Dans cette autobiographie sans fard, il se dévoile pour la première fois et raconte comment la perche lui a permis de s'élever, dans les airs, mais aussi intellectuellement et socialement. Il n'élué rien de ses doutes, qu'il a toujours cherché à masquer durant les compétitions, ou de son besoin de débrancher avec la moto ou la compétition automobile, quitte à créer une certaine incompréhension avec son public. Un témoignage rare d'un champion hors du commun sur l'une des disciplines phare du sport mondial.

"Jim Stevens is the principal of a successful tourist industry consulting business in New Zealand. He has worked hard and built success; that has left him as a single man in his mid-thirties, outwardly happy with his life. But, to date, he hasn't seriously considered his future. Short and unfulfilling romances were filling the gaps in his life that he hadn't realised existed until the business trip that was to change everything. Without warning, without premeditation, he stumbles into a life changing experience and a baffling mystery. The Painter is a story of lost and found, of the incredible yet credible, of sadness and of joy. A story of destiny"--Back cover.

Yves Saint Laurent: The Scandal Collection, 1971 Bantam

On January 21, 1971, couturier Yves Saint Laurent presented his Spring-Summer haute couture collection. Inspired by the garments of the war years, the collection included short dresses, platform shoes, square shoulders, and exaggerated makeup. The show caused an outrage among the public, the critics, and the press alike, earning it the title of "Paris's ugliest collection." Nevertheless, the haute couture designs of the runway made their way to the boulevards, giving full sway to the "retro" trend that quickly conquered the streets. Yves Saint Laurent: The Scandal Collection, 1971 offers a behind-the-scenes look at the influential collection that drew fire in the fashion world from the collection's inspiration to the press coverage that followed. Beautifully illustrated and documented with well-researched essays, this book is enriched with personal interviews and archival photographs of the show, the models, the designs, and the textile and print samples, as well as sketches and international press clippings. Olivier Saillard is the director of the Palais Galliera, Museum of Fashion, and the curator of the Yves Saint Laurent 1971: The Scandal Collection exhibition. Dominique Veillon is an historian.

Longlisted for The Indie Book Awards 2016 Longlisted for The Voss Literary Prize 2016 This is the story of John Wonder, a man with three families, each one kept secret from the other, each one containing two children, a boy and a girl. As he travels from family to family in different cities, he works as an Authenticator, verifying world records, confirming facts, setting things straight, while his own life is a teetering tower of breathtaking lies and betrayals. 'Some books read as if they are touched by magic, so wondrous and astonishing is the experience of immersing yourself in them. That's how I feel about The Wonder Lover . It is written with confidence and daring, with a joyous freedom and a love for story and language that is only possible when an artist has truly mastered their craft. It is a compulsive and thrilling read, a dazzling achievement. There is a word that should be used very rarely but I believe is absolutely right for this book: The Wonder Lover is superb.' -- Christos Tsiolkas, author of The Slap

Thomas would do anything to make his mother come back. On his fifth birthday, Thomas's mother left, and he hasn't seen her since. The last thing he remembers is her making a delicious dish of poutine for his birthday. Into the concoction of French fries, gravy and melted cheese curds, she stuck five green candles for him to blow out. On the day of his twelfth birthday, Thomas comes up with the idea of setting a Guinness world record for the biggest poutine in the world. Maybe then, his mother will come back and his emotionally distant father will pay attention to him. As he puts together all the pieces of his "Phenomenal Poutine Project," Thomas not only learns why his mother disappeared, but he also comes to realize that Elie, the one person whose help he rejected, turns out to be his most devoted friend. Funny and heartbreaking at the same time, The Biggest Poutine in the World, was the winner of the French language 2014 TD Canadian Children's Literature Award.

The Third Population Lévis, Quebec : Éditions Faye

This is the world's first catalogue of cinematograph films adapted from literary, artistic and other media sources for the period 1896 through 1915: the first twenty years of motion pictures. It includes novels, plays, non-fiction books, short stories, biographies, poems, operas, songs, cartoons and comic strips. The main arrangement is by author/creator, whose 861 names are arranged alphabetically, under which the film adaptations are listed chronologically. This book relates only to silent pictures, of course, and as production and distribution was global at the time, films are included from the United States, the United Kingdom, France, Germany, Italy, Australia, Canada, Scandinavia, Japan and other countries. A checklist of the 239 film companies included will be found as an appendix in the back of the book.

In the world of globalized media, provocative images trigger culture wars between traditionalists and cosmopolitans, between censors and defenders of free expression. But are images censored

because of what they mean, what they do, or what they might become? And must audiences be protected because of what they understand, what they feel, or what they might imagine? At the intersection of anthropology, media studies, and critical theory, *Censorium* is a pathbreaking analysis of Indian film censorship. The book encompasses two moments of moral panic: the consolidation of the cinema in the 1910s and 1920s, and the global avalanche of images unleashed by liberalization since the early 1990s. Exploring breaks and continuities in film censorship across colonial and postcolonial moments, William Mazzarella argues that the censors' obsessive focus on the unacceptable content of certain images and the unruly behavior of particular audiences displaces a problem that they constantly confront yet cannot directly acknowledge: the volatile relation between mass affect and collective meaning. Grounded in a close analysis of cinema regulation in the world's largest democracy, *Censorium* ultimately brings light to the elusive foundations of political and cultural sovereignty in mass-mediated societies.

Boots to Bliss Houghton Mifflin Harcourt

In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Autobiography of Usain Bolt Covers his journey from playing cricket and soccer as a kid to becoming

the fastest man alive Well-illustrated Years before he set world records for the 100-meter and 200-meter sprints, which made him the fastest man alive and famous, Usain Bolt was a fairly scrawny kid from Trelawny in Jamaica. In this autobiography, Bolt himself shares how, as he grew up and played cricket and soccer, he— and others—learned he could run fast. Very, very fast. Usain Bolt's journey from a kid with humble beginnings to an Olympic gold medal winner is an inspiring and encouraging story. This beautifully illustrated autobiography shares that story from Bolt's perspective. It is a celebration of someone who was inspired by other athletes around the world, someone who worked for years to become the best at his sport. Bolt shares stories of the sacrifices he made, the influence of Cristiano Ronaldo, the power of soccer and dancehall music, and his signature lightning bolt move.

Claire is about to take sixteen dogs on the biggest race of her life: 1,049 miles of harsh terrain, extreme weather and sleep deprivation. She doesn't have time for romance. Yes, the musher from Nome is easy on the eyes, but he belongs in Alaska, and she will return to Oregon after the race, to honor a promise. Besides, the man has too many secrets, and secrets always come back to bite her. Dillon shouldn't be attracted to the woman. She embodies everything he walked away from six years ago. But her dark amber eyes remind him of aged whiskey, and that's a problem. Her questions stab at a trauma he thought buried so deep he would never have to face it again. He looks to the upcoming race for solitude, his dogs for salvation, as he plays his strongest card - denial. "Engaging romance about the challenges of falling in love while running the Iditarod Sled Dog Race. Cindy is a masterful writer who knows how to build tension and makes us fall in love with all the characters, including the sled dogs. This book keeps a fast pace...with heroine and hero fighting the cold

weather and their own inner demons." ~Kimberly A. Cook, author of *Do Bar Fights Count? How to Write Your Military Stories*

Life, liberty and the pursuit of happiness. How seriously are we taking our constitutional, inalienable rights these days? There is certainly plenty of focus on power, money and success. But where will that get you if in the end you fail to achieve the ultimate right - happiness? Time to get back on track and aim for what really matters - happiness. In *SUPERMOM: The Lost Child* we explore how, as children growing up in dysfunctional families, we got off track and lost the most precious aspect of ourselves - our inner child. Since, as we all know, there is nothing new under the sun, neither is there anything new in this book. So why bother to read it you might ask yourself? The only major and very important difference is that this book is approached from the perspective of the layperson - not the book learned professionals who preach what theories they learned in books or the loftiest of the lofty spiritual gurus. Here you will find the wisdom of a Jane Q Citizen who merely seized every possible opportunity to pursue happiness and actually did it! There are many roads to nirvana. Unfortunately specific disciplines (religions, philosophies, psychological theories, organizations, etc.) are inclined to push their own good ideas as the "way." But let's face it. A cake made out of nothing but flour would be a pretty major failure. And a pursuit of happiness conjured up from only a finite number of possibilities would also prove to be a major disappointment in accomplishing that important ultimate goal. In keeping with what we hear will be the theme of the coming human cycle (beginning December 2012 and continuing on the the following 26,000 years), this book will approach the pursuit of happiness from the perspective of expanded consciousness - the inclusion of multiple approaches to finally achieving true happiness. This is not one more "way" but a recipe of lots of yummy possibilities to living a happier, more peaceful life.
