A wonderful new book is coming from Random House Children's Books.

Biblical Geography and History Rowman & Littlefield Publishers

"Author Catherine Newman provides supportive guidance and instruction to help kids establish or and maintain meaningful relationships and effective communication with friends, teachers, family members, and others in their communities"--

A Children's Anthem Macmillan Higher Education

This best-selling brief introduction to public speaking offers practical coverage of every topic typically covered in a full-sized text, from invention, research and organization, practice and delivery, to the different speech types. Its concise, inexpensive format makes it perfect not only for the public speaking course, but also for any setting across the curriculum, on the job, or in the community. This newly redesigned full-color edition offers even stronger coverage of the fundamentals of speechmaking, while also addressing the changing realities of public speaking in a digital world. It features fully updated chapters on online presentations and using presentation software, and a streamlined chapter on research in print and online.

13 Women Who Changed History Macmillan Higher Education

A powerful guide for every woman looking to find—or amplify—her voice Most books about public speaking don't tell you what to do when you open your mouth and nothing comes out. And they don't tell you how to get over the performance anxiety that most people naturally have. They don't tell you what to do in the moments when you are made, as a woman, to feel small. They don't tell you how to own the room. This book does. From the way Michelle Obama projects "happy high status," and the power of J.K.Rowling's understated speaking style, to Virginia Woolf's leisurely pacing and Oprah Winfrey's mastery of inner conviction, what is it that our heroines do to make us sit up and listen - really listen - to their every word? And how can you achieve that impact in your own life? *How to Own the Room* will show you exactly how.

Change Sings Top Shelf Productions

"Satisfying, gratifying, touching, weighty—this authentic piece of work has got soul."—The New York Times Book Review As twelve-year-old Marlee starts middle school in 1958 Little Rock, it feels like her whole world is falling apart. Until she meets Liz, the new girl at school. Liz is everything Marlee wishes she could be: she's brave, brash and always knows the right thing to say. But when Liz leaves school without even a good-bye, the rumor is that Liz was caught passing for white. Marlee decides that doesn't matter. She just wants her friend back. And to stay friends, Marlee and Liz are even willing to take on segregation and the dangers their friendship could bring to both their families. Public Speaking: Concepts and Skills for a Diverse Society

Workman Publishing Company

The monumental bestseller *Quiet* has been recast in a new edition that empowers introverted kids and teens Susan Cain sparked a worldwide conversation when she published *Quiet: The Power of Introverts in a World That Can't Stop Talking*. With her inspiring book, she permanently changed the way we see introverts and the way introverts see themselves. The original book focused on the workplace, and Susan realized that a version for and about kids was also badly needed. This book is all about kids' world—school, extracurriculars, family life, and friendship. You'll read about actual kids who have tackled the challenges of not being extroverted and who have made a mark in their own quiet way. You'll hear Susan Cain's own story, and you'll be able to make use of the tips at the end of each chapter. There's even a guide at the end of the book for parents and teachers. This insightful, accessible, and empowering book, illustrated with amusing comic-style art, will be eye-opening to extroverts and introverts alike.

An Illustrated Guide to Life on Two Wheels HarperCollins

This book introduces business-government relations in the institutional context of the United States from a practitioner's perspective. It provides the historical, descriptive, and comparative accounts of the public and private sectors, the different roles government plays with business, including several conceptual models to understand the social interactions between the two sectors, and various economic policies associated with business. Business-government relations are framed into three

different social economic contexts: The sociopolitical arena, in which government's role as agent of business, interest groups, and government's limited role as social architect, are introduced. The local economic development, in which government acts as a promoter of, partner with, and buyer from, business. The global market, where government mainly plays a role as promoter of domestic business. In the course of discussion, a set of skills, such as searching government jobs, starting a business, analyzing stakeholders, ethical reasoning, advancing a business agenda, leveraging public resources, contracting with government, interpreting global trends, doing business abroad, and leveraging international resources, are introduced and exercised.

Let's Communicate *Speak Up* An Illustrated Guide to Public Speaking

A NEW YORK TIMES BESTSELLER Written and designed by the staff of The Washington Post and illustrated by artist Jan Feindt, *The Mueller Report Illustrated: The Obstruction Investigation* brings to life the findings of special counsel Robert S. Mueller III in an engaging and illuminating presentation. When it was released on April 18, 2019, Mueller's report laid out two major conclusions: that Russia's interference in the 2016 presidential election had been "sweeping and systematic" and that the evidence did not establish that Trump or his campaign had conspired with the Kremlin. The special counsel left one significant question unanswered: whether the president broke the law by trying to block the probe. However, Mueller unspooled a dramatic narrative of an angry and anxious president trying to control the criminal investigation, even after he knew he was under scrutiny. Deep inside the 448-page report is a fly-on-the-wall account of the inner workings of the White House, remarkable in detail and drama. With dialogue taken directly from the report, *The Mueller Report Illustrated* is a vivid, factually rigorous narrative of a crucial period in Trump's presidency that remains relevant to the turbulent events of today.

Nobel Peace Prize winner and New York Times bestselling author Malala Yousafzai's first picture book, inspired by her own childhood. Malala's first picture book will inspire young readers everywhere to find the magic all around them. As a child in Pakistan, Malala made a wish for a magic pencil. She would use it

to make everyone happy, to erase the smell of garbage from her city, to sleep an extra hour in the morning. But as she grew older, Malala saw that there were more important things to wish for. She saw a world that needed fixing. And even if she never found a magic pencil, Malala realized that she could still work hard every day to make her wishes come true. This beautifully illustrated volume tells Malala's story for a younger audience and shows them the worldview that allowed Malala to hold on to hope even in the most difficult of times. "This is a wonderful read for younger students that will also provide insight and encourage discussion about the wider world. ... The simplicity of Yousafzai's writing and the powerful message she sends, make this book inspirational for all." -- School Library Journal

Your College Experience Farrar, Straus and Giroux (BYR)

In the age of multiple equity movements, it is critical to explore an unspoken nuance—the silencing of women leaders. Carrie Lynn Arnold calls attention to the history and complex dynamics that can suppress a leader's voice while offering solutions for change. Women are taught to speak up, develop confidence, leverage their strengths, polish their interpersonal skills, widen their competencies, and fight to sit at the table. But once they make it to that executive chair, they rarely examine the unspoken dynamics that impact their success. The silencing of female voices is an all too common epidemic, preventing women from harnessing their full capabilities and leading with maximum potential. This phenomenon of isolating women by subduing their voices is a decades-old tradition. It can be impossible to avoid encounters, organizational cultures, and even feelings of self-suppression that all foster silencing. It is no longer about questioning competency or confidence. It is about understanding the complex factors and biases that are deeply embedded in relationships between men and women, amongst women, and within the dynamics of systems and the self that allows for this trend to continue despite growing successes in equity. Carrie Lynn Arnold examines silencing, which is essential to name and recognize, as a pre-requisite to effective leadership. By understanding where we have been before, we may fully appreciate and call attention to where we need to go. Regardless of your gender or whether you are an emerging leader or a CEO of a large corporation, the silencing virus is capable of infecting everyone. *Silenced and Sidelined* explores what it means to feel

suppressed, giving words to the experience so that leaders can begin different types of conversations about voice and leadership. There are no shortcuts or simple, easy steps; this call to leadership is a call for courage. It requires the ability to communicate with a voice that carries currency—one, people will not just hear, but follow. Given the complexity of our world and the challenges society faces, we can no longer afford leaders with silenced voices.

The fully illustrated guide explains each term with words and visuals for reader-friendly understanding."

The Obstruction Investigation Routledge

The author of *Self-Compassion* follows up her groundbreaking book with new ideas that expand our notion of self-kindness and its capacity to transform our lives, showing women how to balance tender self-acceptance with fierce action to claim their power and change the world. Kristin Neff changed how we talk about self-care with her enormously popular first book, *Self-Compassion*. Now, ten years and many studies later, she expands her body of work to explore a brand-new take on self-compassion. Although kindness and self-acceptance allow us to be with ourselves as we are, in all our glorious imperfection, the desire to alleviate suffering at the heart of this mindset isn't always gentle, sometimes it's fierce. We must also act courageously in order to protect ourselves from harm and injustice, say no to others so we can meet our own needs, and motivate necessary change in ourselves and society. Gender roles demand that women be soft and nurturing, not angry or powerful. But like yin and yang, the energies of fierce and tender self-compassion must be balanced

for wholeness and wellbeing. Drawing on a wealth of research, her personal life story and empirically supported practices, Neff demonstrates how women can use fierce and tender self-compassion to succeed in the workplace, engage in caregiving without burning out, be authentic in relationships, and end the silence around sexual harassment and abuse. Most women intuitively recognize fierceness as part of their true nature, but have been discouraged from developing it. Women must reclaim their power in order to create a healthier society and find lasting happiness. In this wise, caring, and enlightening book, Neff shows women how to reclaim balance within themselves, so they can help restore balance in the world.

11-year-old Alice Paul Tapper--daughter of CNN's Jake Tapper--is challenging girls everywhere to speak up! When Alice Tapper noticed that the girls in her class weren't participating as much as the boys, she knew she had to do something about it. With help from her Girl Scout troop and her parents, she came up with a patch that other girls could earn if they took a pledge to be more confident in school. Alice even wrote an op-ed about the experience for the New York Times! Inspired by that piece, this picture book illustrates her determination, bravery, and unwillingness to accept the status quo. With Marta Kissi's delightful illustrations depicting Alice's story, young readers everywhere will want to follow Alice's lead and raise their hand!

"This short book makes you smarter than 99% of the population. . . The concepts within it will increase your company's 'organizational intelligence.' . . It's more than just a must-read, it's a 'have-to-read-or-you're-fired' book"—Geoffrey James, INC.com From the author of the forthcoming An Illustrated Book of Loaded Language, here's the antidote to fuzzy thinking, with furry animals! Have you read (or stumbled into) one too many irrational online debates? Ali Almosawi certainly had, so he wrote An Illustrated Book of Bad Arguments! This handy guide is here to bring the internet age a much-needed dose of old-school logic (really old-school, a la Aristotle). Here are cogent explanations of the straw man fallacy, the slippery slope argument, the ad hominem attack, and other common attempts at reasoning that actually fall short—plus a beautifully drawn menagerie of animals who (adorably) commit every logical faux pas. Rabbit thinks a strange light in the sky must be a UFO because no one can prove otherwise (the appeal to ignorance). And Lion doesn't believe that gas emissions harm the planet because, if that were true, he wouldn't like the result (the argument from consequences). Once you learn to recognize these abuses of reason, they start to crop up everywhere from congressional debate to YouTube comments—which makes this geek-chic book a must for anyone in the habit of holding opinions.
