Since its inception in 1974, Canadian Theatre Review has been one of the most important publishers of new Canadian plays. With a script in each issue, CTR has introduced new writers and advocated new approaches to Canadian drama. This volume brings together fifteen of the most significant plays published in CTR between 1974 and 1991. Most have been out of print since their appearance in the journal. They include recognized classics that have transformed Canadian theatre, such as "Ten Lost Years" and "This is for You, Anna," and lesser-known plays by such major writers as Robert Lepage and George F. Walker. Taken together these plays not only expand the boundaries of Canadian drama; they also document an important and exciting period in Canadian theatre. They are vivid testaments to the diversity of contemporary theatrical practice in Canada.

Gastro-Modernism ultimately shows how global literary modernisms engage with the food culture to express anxieties about modernity as much as to celebrate the excesses modern lifestyles produce.

The *Invention of Taste* provides a detailed overview of the development of taste, from ancient times to the present. At the heart of the book is an intriguing question: why did the sensory attribute of human taste become a social metaphor and aesthetic value for judging cultural qualities of art, fashion, cuisine and other social constructions? Unique amongst the senses, taste is at once a biologically derived sense, private, personal and individual, yet also a sensibility which can be acquired, shared, and communicated. Exploring the many factors that defined the evolution of taste – from medieval morals and medicine to social and cultural philosophy, the rise of aesthetics, birth of fashion, branding trends, and luxury worship in the age of mass consumption – Luca Vercelloni’s ambitious text provides readers with an outstanding introduction to the subject, making it the cultural history of taste. Now available for the first time in English, *Taste* features a new final chapter and a preface by series editor David Howes. Rich in detail and examples, this interdisciplinary work is an important read for students and researchers in sensory studies, philosophy, sociology and cultural studies, as well as gastronomy, fashion, design, and branding.

OK! Megamag is a series of ten cross-curricular magazine-style workbooks aimed at less-able pupils at secondary school level, including those with a statement of special educational needs. Because of its flexibility, it can also be used with younger learners. It is suitable for pupils who are beginning to study French or who may have some previous experience but would benefit from a fresh start in order to build confidence. There are opportunities for listening, speaking, reading and writing, with plenty of activities suitable for pupils who are not good readers/writers. It can be used to supplement any main course or as a framework for a programme of study.

Divided into two volumes, *The Teachings of Modern Christianity on Law, Politics, and Human Nature* offers a landmark collection of writings from twenty Christian thinkers of the nineteenth and twentieth centuries and analyses of their work by leading contemporary religious scholars. With selections from the works of Jacques Maritain, Gustavo Gutiérrez, Dorothy Day, Pope John Paul II, Susan B. Anthony, Karl Barth, Dietrich Bonhoeffer, Reinhold Niebuhr, Martin Luther King Jr., Nikolai Berdyaev, Vladimir Lossky, and others, Volume 2 illustrates the different venues, vectors, and sometimes-conflicting visions of what a Christian understanding of law, politics, and society entails. The collection includes works by popes, pastors, nuns, activists, and theologians writing from within the Catholic, Protestant, and Orthodox Christian traditions. Addressing racism, totalitarianism, sexism, and other issues, many of the figures in this volume were the victims of church censure, exile, imprisonment, assassination, and death in Nazi concentration camps. These writings amplify the long and diverse tradition of modern Christian social thought and its continuing relevance to contemporary pluralistic societies. The volume speaks to questions regarding the nature and purpose of law and authority, the limits of rule and obedience, the care and nurture of the needy and innocent, the rights and wrongs of war and violence, and the separation of church and state. The historical focus and ecumenical breadth of this collection fills an important scholarly gap and revives the role of Christian social thought in legal and political theory. The first volume of *The Teachings of Modern Christianity on Law Politics, and Human Nature* includes essays by leading contemporary religious scholars, exploring the ideas, influences, and intellectual and cultural contexts of the figures from this volume.

This advanced level course book teaches stylistic variations of modern French grammar using examples from films and interviews as well as other authentic texts. Written entirely in French, it focuses on the most difficult grammar points and their usage, rather than on their formation. *Variations stylistiques* includes an abundance of oral and written exercises that are practical, relevant, creative, and fun, encouraging students to use the grammar in meaningful contexts. By highlighting the many linguistic variants employed by native speakers, Dansereau provides an engaging alternative to traditional French grammar textbooks. An ancillary Web site features quizzes and other valuable resources for instructors.

The book consists of Elementary and Pre-intermediate courses with parallel French-English texts. The author maintains learners' motivation with funny stories about real life situations such as meeting people, studying, job searches, working etc. The ALARM method (Approved Learning Automatic Remembering Method) utilize natural human ability to remember words used in texts repeatedly and systematically. The author managed to compose each sentence using only words explained in previous chapters. The second and the following chapters of the Elementary course have only about 30 new words each. The book is equipped with the audio tracks. The address of the home page of the book on the Internet, where audio

files are available for listening and downloading, is listed at the beginning of the book on the copyright page.

Alan R.H. Baker, of the Geography Department of the University of Cambridge, has played a leading role in the development of historical geography. This book, which features twelve specially commissioned essays, recognizes his highly influential and innovative contributions. The contributors address the following topics: methodology and ideology in historical geography; historical geographies of state regulation and political discourse; the social and cultural use of public and private space; and the interpretation of images of place in relation to cultural and national identity.

France is in a rut, and so is French cuisine. Twenty-five years ago it was hard to have a bad meal in France; now, in some cities and towns, it is a challenge to find a good one. For the first time in the annals of modern cuisine, the most influential chefs and the most talked-about restaurants in the world are not French. Within France, large segments of the wine industry are in crisis, cherished artisanal cheeses are threatened with extinction, and bistros and brasseries are disappearing at an alarming rate. But business is brisk at some establishments: Astonishingly, France has become the second most-profitable market in the world for McDonald's. In an enviable trip through the traditional pleasures of France, Steinberger talks to top chefs-Ducasse, Gagnaire, Bocuse-winemakers, farmers, bakers, and other artisans. He visits the Elysée Palace, interviews the head of McDonald's Europe, marches down a Paris boulevard with Jose Bove, and breaks bread with the editorial director of the powerful and secretive Michelin Guide. He spends hours with some of France's brightest young chefs and winemakers, who are battling to reinvigorate the country's rich culinary heritage. Throughout, Steinberger remains an unabashed and steadfast Francophile, and his own sharp and funny reflections bring empathy to this striking portrait of a cuisine and a country in transition.

Varieties of Spoken French Routledge

From basic needs, such as lighting, heating or cooking, to symbolic or ritual engagement, hearths in indoor contexts serve as a focal point. This is especially evident, both spatially and architecturally, in structures containing central hearths. In assessing any gathering around a hearth, the types of social groups involved need to be determined and their interactions clearly assessed in each specific case. Beyond clearly domestic contexts, many rooms or buildings have been deemed religious or cultic places often based solely on the presence of a hearth, despite other possible interpretations. This volume appraises and contextualises diversity in practice centering on the hearth in the Aegean and, more widely, in areas of the Western Mediterranean closely connected to Greek civilization, notably through its colonies, revealing surprising similarities but also local adaptations. In the West, the use of the hearth often has a unique character arising from local adaptations born of indigenous practices. The combined approach presented here, detailing technical aspects of the hearths themselves, their architectural settings and any associated artefacts or furnishings, affords a rich spectrum for cross-cultural analysis between these Mediterranean regions.

There's never been a book about food like *Let's Eat France!* A book that feels literally larger than life, it is a feast for food lovers and Francophiles, combining the completist virtues of an encyclopedia and the obsessive visual pleasures of infographics with an enthusiast's unbridled joy. Here are classic recipes, including how to make a pot-au-feu, eight essential composed salads, pâté en croûte, blanquette de veau, choucroute, and the best ratatouille. Profiles of French food icons like Colette and Curnonsky, Brillat-Savarin and Bocuse, the Troigros dynasty and Victor Hugo. A region-by-region index of each area's famed cheeses, charcuterie, and recipes. Poster-size guides to the breads of France, the wines of France, the oysters of France—even the frites of France. You'll meet endive, the belle of the north; discover the croissant timeline; understand the art of tartare; find a chart of wine bottle sizes, from the tiny split to the Nebuchadnezzar (the equivalent of 20 standard bottles); and follow the family tree of French sauces. Adding to the overall delight of the book is the random arrangement of its content (a tutorial on mayonnaise is next to a list of places where Balzac ate), making each page a found treasure. It's a book you'll open anywhere—and never want to close.
