From one of America's most renowned film scholars: a revelatory, perceptive, and highly readable look at the greatest silent film stars -- not those few who are fully appreciated and understood, like Chaplin, Keaton, Gish, and Garbo, but those who have been misperceived, unfairly dismissed, or forgotten. Here is Valentino, "the Sheik," who was hardly the effeminate lounge lizard he's been branded as; Mary Pickford, who couldn't have been further from the adorable little creature with golden ringlets that was her film persona; Marion Davies, unfairly pilloried in Citizen Kane; the original "Phantom" and "Hunchback," Lon Chaney; the beautiful Talmadge sisters, Norma and Constance. Here are the great divas, Pola Negri and Gloria Swanson; the great flappers, Colleen Moore and Clara Bow; the great cowboys, William S. Hart and Tom Mix; and the great lover, John Gilbert. Here, too, is the quintessential slapstick comedienne, Mabel Normand, with her Keystone Kops; the quintessential all-American hero, Douglas Fairbanks; and, of course, the quintessential all-American dog, Rin-Tin-Tin. This is the first book to anatomize the major silent players, reconstruct their careers, and give us a sense of what those films, those stars, and that Hollywood were all about. An absolutely essential text for anyone seriously interested in movies, and, with more than three hundred photographs, as much a treat to look at as it is to read.

It's hard to find work as a doctor when using your real name will get you killed. So hard that when a reclusive billionaire offers Dr. Peter Brown, aka Pietro Brnwa, a job accompanying a sexy but self-destructive paleontologist on the world's worst field assignment, Brown has no real choice but to say yes. Even if it means that an army of murderers, mobsters, and international drug dealers -- not to mention the occasional lake monster -- are about to have a serious Pietro Brnwa problem. Facing new and old

monsters alike, Dr. Brnwa's story continues in this darkly funny and lightning-paced follow up to Josh Bazell's bestselling debut.

Catwoman: Nine Lives of A Feline Fatale is a thrilling celebration of one of the most popular female icons of all time. Since her inception in 1940, Catwoman has evolved from a simple cat burglar into a complex character who has played the role of both villain and heroine. An entertaining volume that spans the entire career of Batman's most alluring nemesis, this book reprints nine of Catwoman's most significant adventures, including her first felonious appearance as well as her most memorable battle with the Dark Knight.

Fear Street -- Where Your Worst Nightmares Live... Emily wants to like her stepsister, but it hasn't been easy. As soon as Jessie moves in, she takes over Emily's room, steals Emily's clothes, and lies to everyone. Then Emily picks up Jessie's diary and learns a horrifying secret. Is Jessie really capable of murder? Emily tries to tell her parents, but no one believes her. So it's up to Emily to expose the "real" Jessie -- if she can stay alive.

Hitler's Children Simon and Schuster

Seit jeher ist "boy meets girl" die Prämisse der Liebesfiktion - und "boy gets girl" beziehungsweise "boy loses girl" deren Schlusspunkt. In der filmischen Darstellung der Liebe zwischen zwei Figuren unterschiedlichen Geschlechts haben sich etliche dramaturgische und ästhetische Konventionen entwickelt. Doch welche Herausforderungen ergeben sich, wenn ein Film von der Liebe zwischen einem boy, einem girl und einer zusätzlichen, dritten Person handelt? Wenn die Liebe in diesem Figuren- und Beziehungsdreieck in alle Richtungen verläuft und somit eine sexuelle Ambivalenz ins Spiel kommt? Wenn es nicht (nur) um das Glück zu zweit, sondern zu dritt geht? Andreas Köhnemann nimmt in "Liebe in alle Richtungen" die erzählerischen und inszenatorischen Strategien in den Blick, die bei einer Abweichung von der herkömmlichen "Junge trifft Mädchen"-Liebesfilmformel zum Einsatz kommen können. Eingebettet in literatur- und filmwissenschaftliche sowie gender- und queertheoretische Kontexte werden zehn Filme einer eingehenden Untersuchung unterzogen: Claude Chabrols "Zwei Freundinnen", Bertrand Bliers "Abendanzug", Andrew Flemings "Einsam, zweisam, dreisam", Gregg Arakis "The Doom Generation", Anne Fontaines "Eine saubere Affäre", Michael Mayers "Ein Zuhause am Ende der Welt", Alexis Dos Santos' "Glue", Adam Salkys "Dare - Hab' keine Angst, tu's einfach!", Tom Tykwers "Drei" sowie Xavier Dolans "Herzensbrecher".

Despite educational efforts, the majority of Americans are still under the misconception that they are not at risk from HIV/AIDS infection. In addition, the federal government only spends 2% of

the total designated federal AIDS funding toward prevention.

Thus, information in respect to AIDS and health communication in any comprehensive nature is almost nonexistent.; This book aims to rectify the situation by presenting detailed analysis and actions necessary to confront the AIDS pandemic on every level of the communication realm. Contributors are experienced researchers, educators, government officials, and physicians. They examine the issue from a number of standpoints, including: communication, adolescent medicine, public administration, psychology, journalism, audiology, speech and language pathology, neurological surgery, preventive medicine and public health.

The New Grove Dictionary of Music has said of John Cage that he "had a greater impact on world music than any other American composer in the twentieth century," and his musical thinking forms a whole with his writing. For the Birds is a book, a dialogue and an event all at once. The initial conversations were recorded in France between 1968 and 1978 and were then reconstructed,

reedited and commented upon by Cage. The final text, with footnotes and asides added over the years, is prefaced by a typographical celebration of his ideas compiled by Cage himself. This ebullient collection of questions and answers covers a wide variety of topics. Cage's great wit and intelligence are allowed to range across such subjects as his own music and texts, mushrooms, chess, James Joyce, Mao, Thoreau, Satie, electronic music, the prepared piano, Zen, the environment, technology, politics and economics. John Cage was born in Los Angeles in 1912. He studied music with Adolf Weiss, Henry Cowell and Arnold Schoenberg, and he has shared ideas with Marcel Duchamp, Joan Miro and Max Ernst, as well as such prophets as Marshall McLuhan and Buckminster Fuller. He was music director of the Merce Cunningham Dance Company for decades and held a number of academic posts. Cage was a composer, poet, graphic artist, teacher and critic. He died in New York in 1992. "He is not a composer, he's an inventor -- of genius."--Arnold Schoenberg

David Icke's strongest book to date, *The Robots' Rebellion* reveals the alarming extent to which people of all nations are programmed by the ideas fed to them by those in power. We live in a world which is increasingly dominated by technology but, according to Icke, it is we who are the robots. Fearlessly, he tears down the veils of hypocrisy, built up for generations by the corrupt forces of Church, State, science and commerce — and reveals the true pathos of the human condition beneath. He points, too, to the frightening influence wielded throughout the planet by a merciless and manipulative network of secret societies. The existence of long-established links between Earth-bound humanity and beings from other dimensions and planets in the Universe has been suppressed for years, says Icke, by the world's power-broking hierarchy. When ordinary people learn the real role they have to play within a rich and varied cosmic society, rebellion against those who have kept this extraordinary truth from them will, he predicts, be inevitable. The author is no stranger to controversy. Formerly best-known as a TV sports commentator and leading spokesman for the British Green Party, he is gaining increasing authority as a tireless campaigner for truth. His widely-publicised spiritual transformation has given him the courage to speak out fearlessly against lies and deceit. Hidebound politicians, bankers, economists, educationalists, scientists and the leaders of the world's established religions are not going to welcome Icke's challenging book. But it is not intended for those

who wield and abuse power. This book is for the world's unwilling robots who, says Icke, in an upbeat conclusion, have it within themselves to rise up — and take control of their own exciting destiny. *The Robots' Rebellion*: Table of Contents Introduction Remember Who You Are PART ONE: The Darkness - The Takeover Bid - Collective Amnesia - The Brotherhood of Clans - Bible Stories - Hell on Earth - Arabian Knights - The Cracks Appear - Eagle Tails - The Rule of Science - The World at War - Big is Beautiful - The New World Order - When Will We Ever Learn? Essays challenging the increasing denial of the AIDS crisis and the rise of conservative gay politics. In *Melancholia and Moralism*, Douglas Crimp confronts the conservative gay politics that replaced the radical AIDS activism of the late 1980s and early 1990s. He shows that the cumulative losses from AIDS, including the waning of militant response, have resulted in melancholia as Freud defined it: gay men's dangerous identification with the moralistic repudiation of homosexuality by the wider society. With the 1993 march on Washington for lesbian and gay rights, it became clear that AIDS no longer determined the agenda of gay politics; it had been displaced by traditional rights issues such as gay marriage and the right to serve in the military. Journalist Andrew Sullivan, notorious for pronouncing the AIDS epidemic over, even claimed that once those few rights had been won, the gay rights movement would no longer have a reason to exist. Crimp challenges such complacency, arguing that not only is the AIDS epidemic far from over, but that its determining role in queer politics has never been greater. AIDS, he demonstrates, is the repressed, unconscious force that drives the destructive moralism of the new, anti-liberation gay politics expounded by such mainstream gay writers as Larry Kramer, Gabriel Rotello, and Michelangelo Signorile, as well as Sullivan. Crimp examines various cultural phenomena, including Randy Shilts's bestseller *And the Band Played On*, the Hollywood films "Silence of the Lambs" and "Philadelphia," and Magic Johnson's HIV infection and retirement from the Los Angeles Lakers. He also analyzes Robert Mapplethorpe's and Nicholas Nixon's photography, John Greyson's AIDS musical "Zero Patience," Gregg Bordowitz's video "Fast Trip, Long Drop," the Names Project Quilt, and the annual "Day without

Art."

The claim that 'LGBT rights are human rights' encounters fierce opposition in many parts of the world, as governments and religious leaders have used resistance to 'LGBT rights' to cast themselves as defenders of traditional values against neo-colonial interference and western decadence. *Queer Wars* explores the growing international polarization over sexual rights, and the creative responses from social movements and activists, some of whom face murder, imprisonment or rape because of their perceived sexuality or gender expression. This book asks why sexuality and gender identity have become so vexed an issue between and within nations, and how we can best advocate for change.

The Road Beneath My Feet Bruno Gmuender

He moves as silently and invisibly as the wind, and strikes with the brute force of a hundred men. He is called Stone Hand, a legendary Cheyenne renegade whose very name instills terror in natives and white men alike. Now, as his bloodthirsty rampage reaches the Camp Supply settlement, an innocent young girl is taken as his hostage, with his demand nothing short of all of the Oklahoma Territory. Retired master tracker Jason Cole must now hunt down this evil incarnate—a hunt that soon becomes a violent test of strength, courage, and skill in this epic and unforgettable tale of the untamed American frontier.
