KATELYN YOSEF

Steven Universe Adult Coloring Book Volume 1 Harper Collins

Ask a random American what springs to mind about Sedona, Arizona, and they will almost certainly mention New Age spirituality. Nestled among stunning sandstone formations, Sedona has built an identity completely intertwined with that of the permanent residents and throngs of visitors who insist it is home to powerful vortexes—sites of spiraling energy where meditation, clairvoyance, and channeling are enhanced. It is in this uniquely American town that Susannah Crockford took up residence for two years to make sense of spirituality, religion, race, and class. Many people move to Sedona because, they claim, they are called there by its special energy. But they are also often escaping job loss, family breakdown, or foreclosure. Spirituality, Crockford shows, offers a way for people to distance themselves from and critique current political and economic norms in America. Yet they still find themselves monetizing their spiritual practice as a way to both “raise their vibration” and meet their basic needs. Through an analysis of spirituality in Sedona, Crockford gives shape to the failures and frustrations of middle- and working-class people living in contemporary America, describing how spirituality infuses their everyday lives. Exploring millenarianism, conversion, nature, food, and conspiracy theories, *Ripples of the Universe* combines captivating vignettes with astute analysis to produce a unique take on the myriad ways class and spirituality are linked in

contemporary America.

Princess Who Saved Herself, The HC Boom! Studios

The first book in the series about everyone's favorite classroom pet! You can learn a lot about life by observing another species. That's what Humphrey was told when he was first brought to Room 26. And boy, is it true! In addition to having FUN-FUN-FUN in class, each weekend this amazing hamster gets to sleep over with a different student, like Lower-Your-Voice-A.J. and Speak-Up-Sayeh. Soon Humphrey learns to read, write, and even shoot rubber bands (only in self-defense, of course). With lots of friends to help, adventures to enjoy, and a cage with a lock-that-doesn't- lock, Humphrey's life is almost perfect. If only the teacher, Mrs. Brisbane, wasn't out to get him! Boys and girls can't help falling in love with Humphrey! Kids will be eager to get their paws on all 12 books in the series! Be sure to look for Humphrey's Tiny Tales for younger readers.

Steven Universe: Punching Up University of Chicago Press

Long a fruitful area of scrutiny for students of organizations, the study of institutions is undergoing a renaissance in contemporary social science. This volume offers, for the first time, both often-cited foundation works and the latest writings of scholars associated with the "institutional" approach to organization analysis. In their introduction, the editors discuss points of convergence and disagreement with institutionally oriented research in economics and political science, and locate the "institutional" approach in relation to major developments in contemporary sociological theory. Several chapters consolidate the theoretical advances of the past decade, identify and clarify the paradigm's key ambiguities, and push the

theoretical agenda in novel ways by developing sophisticated arguments about the linkage between institutional patterns and forms of social structure. The empirical studies that follow—involving such diverse topics as mental health clinics, art museums, large corporations, civil-service systems, and national politics—illustrate the explanatory power of institutional theory in the analysis of organizational change. Required reading for anyone interested in the sociology of organizations, the volume should appeal to scholars concerned with culture, political institutions, and social change.

Chicken Little Penguin

Steven Universe and his adventures with the Crystal Gems continue, as he teaches Peridot about the power of music, cheers up Vidalia, and enlists Pearl's help to find the perfect birthday surprise for Connie.

Steven Universe Original Graphic Novel: Camp Pining Play Cambridge University Press

An all-new original graphic novel inspired by the world of the Cartoon Network Emmy® Award-nominated series, Steven Universe™ as Steven and the Crystal Gems must discover the truth behind the mysterious vandalism on the boardwalk! STEVEN MUST SAVE THE SUMMER! Steven and the Crystal Gems are recruited by Mayor Dewey to help clean up the boardwalk before their new summer festival - but who is behind these acts of vandalism? As Steven and his friends investigate, they'll discover the culprits are their own kind of monstrous mess. Saving the day will be a dirty job, but someone's gotta do it! Writer Taiya Perper and artist Selena Bejarano present an all-new original graphic novel story inspired by the world of the Cartoon Network Emmy® Award-nominated series, Steven Universe™.

[How to Live Safely in a Science Fictional Universe \(Enhanced Edition\)](#) Scholastic Inc.

This enhanced eBook includes video, audio, photographic, and linked content, as well as a bonus short story. Hear TAMMY talk. Learn the origins of Minor Universe 31. See the TM-31. Take a trip in it. Photos and illustrations appear as hyperlinked endnotes. Video and audio are embedded directly in text. *Video and audio may not play on all readers. Check your user manual for details. National Book Foundation 5 Under 35 Award winner Charles Yu delivers his debut novel, a razor-sharp, ridiculously funny, and utterly touching story of a son searching for his father . . . through quantum space-time. Minor Universe 31 is a vast story-space on the outskirts of fiction, where paradox fluctuates like the stock market, lonely sexbots beckon failed protagonists, and time travel is serious business. Every day, people get into time machines and try to do the one thing they should never do: change the past. That's where Charles Yu, time travel technician—part counselor, part gadget repair man—steps in. He helps save people from themselves. Literally. When he's not taking client calls or consoling his boss, Phil, who could really use an upgrade, Yu visits his mother (stuck in a one-hour cycle of time, she makes dinner over and over and over) and searches for his father, who invented time travel and then vanished. Accompanied by TAMMY, an operating system with low self-esteem, and Ed, a nonexistent but ontologically valid dog, Yu sets out, and back, and beyond, in order to find the one day where he and his father can meet in memory. He learns that the key may be found in a book he got from his future self. It's called How to Live Safely in a Science Fictional Universe, and he's the author. And somewhere inside it is the information that could help him—in fact it may even save his life. Wildly new and adventurous, Yu's debut is certain to send shock waves of wonder through literary space-time.

Keep Beach City Weird Boom! Studios

On a moonlit night. . . In the magic of a moonshower, a childless couple finds a dozen tiny babies in a meadow. Written in classic folktale tradition, illustrated with astonishing paintings, The Rainbabies is woven from magic and moonbeams.

[The New Institutionalism in Organizational Analysis](#) Hachette UK

The first book in the classic vigilante action series from a “writer who spawned a genre” (The New York Times). Overseas, Mack Bolan was dubbed “Sgt. Mercy” for the compassion he showed the innocent. On the home front, they're calling him the Executioner for what he's doing to the guilty. In the jungles of Southeast Asia, American sniper Mack Bolan honed his skills. After twelve years, with ninety-five confirmed hits, he returns home to Massachusetts. But it's not to reunite with his family, it's to bury them—victims in a mass murder/suicide. Even though Bolan's own father pulled the trigger, he knows the old man was no killer. He was driven to madness by Mafia thugs who have turned his idyllic hometown into a new kind of war zone. Duty calls . . . Introducing an action hero “who would make Jack Reacher think twice,” this is the first book in the iconic series of vigilante justice that has become a publishing phenomenon (Empireonline.com). With more than two hundred million Executioner books sold since its debut, the series continues to stimulate. Gerry Conway, cocreator of Marvel Comics' The Punisher, credits the Executioner as “my inspiration . . . that's what gave me the idea for the lone, slightly psychotic avenger.” The series is also now in development as a major motion picture. War Against the Mafia is the 1st book in the Executioner series, but you may enjoy reading the series in any order.

Steven Universe Deluxe Hardcover Blank Sketchbook: Rebecca Sugar Edition Abrams

In Jenny Han's follow-up to *The Summer I Turned Pretty*, Belly finds out what comes after falling in love. Now available in paperback!

Bobby vs. Girls (Accidentally) University of Chicago Press

It's Not Summer Without You KaBOOM!

The interactive story of magical beings from another world and how one very special boy came to be, by the New York Times–bestselling author of *The Answer*. Once upon a time, a silly, impossible little Gem named Pink Diamond ran away from her homeworld to the planet Earth. She transformed into Rose Quartz and gave up her existence to create a half-human child, Steven Universe. But so long as Steven has her Gem, can they BOTH exist? Is he her? Is she him? Is she trapped inside his Gem? This is so DISORIENTING! In a story unlike any other—made up of multiple points of view—who gets to tell the Tale of Steven? . . . The official picture-book adaptation of the Steven Universe special “Change Your Mind” by the series creator Rebecca Sugar. “The Tale of Steven is a storybook unlike any other, in an interactive format that tells the same story from multiple viewpoints,

inviting the reader to interact with the story as they wish.” —The Hollywood Reporter “Beneath the surface Tale of Steven is a wonderfully smart commentary on bias and perspective, and how different points of view can all color and reframe the same story.” —Gizmodo “Challenging in all the right ways, heartstring-tugging and entertaining.” —Animation Magazine

The Answer KaBOOM!

Examines humanistic aspects of astrobiology, exploring approaches, critical issues, and implications of the discovery of extraterrestrial life.

Steven Universe Original Graphic Novel: Crystal Clean HarperFestival

Steven Universe: Art & Origins is the first book to take fans behind the scenes of the groundbreaking and boundlessly creative Emmy Award-winning Cartoon Network animated series Steven Universe. The eponymous Steven is a boy who—alongside his mentors, the Crystal Gems (Garnet, Amethyst, and Pearl)—must learn to use his inherited powers to protect his home, Beach City, from the forces of evil. Bursting with concept art, production samples, early sketches, storyboards, and exclusive commentary, this lavishly illustrated companion book offers a meticulous written and visual history of the show, as well as an all-access tour of the creative team's process. Steven Universe: Art & Origins reveals how creator Rebecca Sugar, the writers, the animators, and the voice actors work in tandem to bring this adventure-packed television series to life. Also Available: Steven Universe: End of an Era (978-1-4197-4284-2) and Steven Universe: The Tale of Steven (978-1-4197-4148-7)

Ripples of the Universe Dark Horse Books

Go behind the scenes of Cartoon Network's highly anticipated film with this unique art book! This magical deep-dive into Steven Universe The Movie is designed by Ryan Sands (Frontier) in conjunction with Steven Universe creator Rebecca Sugar! See preliminary character designs, witness the formation of settings and storyboards, and discover the art that shaped the full-length movie! It's a new kind of artistic adventure with Garnet, Amethyst, Pearl, and--of course--Steven.

[Astrobiology, Discovery, and Societal Impact](#) Penguin

Do you think you know the truth about what happens in Beach City? THINK AGAIN! Fans of Steven Universe know that Steven and the Crystal Gems are behind most of the strange occurrences that happen in their hometown of Beach City. But Ronaldo Fryman, the town's resident blogger and conspiracy theorist, has some other ideas. This book, created by show writers Ben Levin and Matt Burnett, is a companion to Ronaldo's blog of the same name, and includes his favorite theories and collected evidence. Is Ronaldo a raving, delusional madman or a brilliant, misunderstood visionary (or a little bit of both)? You be the judge!

[The Recruit](#) Open Road Media

The author, a computer science professor diagnosed with terminal cancer, explores his life, the lessons that he has learned, how he has worked to achieve his childhood dreams, and the effect of his diagnosis on him and his family.

We'll Always Have Summer KaBOOM!

Amethyst is surprised and delighted when she is asked to help coach Connie and Steven in combat, but she struggles to find her own teaching style.

[Rise Up and Write It](#) Pantheon

From widespread unemployment and mounting international hostilities, every day we are swept into more political chaos—so one brave man looks to the Star Wars universe for answers to our most urgent problems. “You can't stop the change — anymore than you can stop the sun from setting.”

Anakin Skywalker was never able to live with this wisdom shared by his mother on the day he left home to train as a Jedi Knight. That failure led him to becoming the fearsome villain we all know as Darth Vader. We're living in a time of unprecedented and rapid change. An age of chaos.

Democracies are in decline worldwide. Dictators are ascendant. Civic organizations are crumbling. People feel lonelier and more rudderless than in any other time in recent history. We've tried to slow down, and in some cases we, like Anakin, have tried stop the change, but failed at every turn.

The fears that come with living in an age of disruption have produced public anger, and that anger has swelled movements of hate. Author Stephen Kent believes part of the solution is hiding in plain sight. A story that binds together multiple generations with a common language, a moral framework, and a sense of wonder. It's Star Wars. What if we looked to Star Wars for more than just entertainment? How the Force Can Fix the World takes this challenge on by analyzing the core principles of the Star Wars franchise: HOPE, CHOICE, HUMILITY, EMPATHY, REDEMPTION, BALANCE and rejecting FEAR. Together, these are the Star Wars roadmap for living better lives, and maybe even fostering a better politics. The path that we're on — where fear leads to anger, and anger to hatred — will only end in suffering. But Star Wars shows us the way back from the brink. Shared stories of virtue that are beloved across cultures and political divides are hard to come by, but Star Wars is one such story. Turn on the news; things are pretty broken right now — but the Force can fix the world.

Steven Universe Vol. 6 Simon and Schuster

ONE, TWO, THREE, FOUR! Steven and the Crystal Gems embark on an epic musical journey after the Harmony Core, an ancient Diamond Authority artifact, accidentally activates on Earth, capturing the people of Beach City. As Steven becomes responsible for bubbling each Harmony Core, he'll learn that the only way to stop it is through the power of song. Join musician and writer S.M. Vidaurri (Adventure Time™, Jim Henson's The Storyteller) and newcomer artist Mollie Rose (Weeds) as Steven and the Crystal Gems put on the show of their lives to save everyone in Beach City and the entire Earth!
