Steven Universe: Harmony Harry N. Abrams

Toonopolis is a cartoon city that is home to the thoughts and ideas of all sentient beings in the universe. As the center of the Tooniverse, it acts as an other-worldly rest stop for these creations. Chi Lin was the last unicorn on Earth before he sought a safe haven for himself and his maiden, Saucha, a thirteen century Indian girl. Little did he realize that even though they were safe from death in the cartoon universe, they were not safe from the machinations of Agent Mimic on Earth. Gemini, having barely escaped with his mind intact during his first adventure in Toonopolis, returns to the Tooniverse with Jimbob the Talking Eggplant on a quest to find Chi Lin before Mimic can manipulate the unicorn into doing his bidding. Join Gemini on an all new adventure into both familiar and brand-new realms of Toonopolis where he makes more friends, visits old ones, and is reminded that things are not always what they seem to be in this strange and ever-changing world.

With the same unique vision that brought his now classic Mars trilogy to vivid life, bestselling author Kim Stanley Robinson boldly imagines an alternate history of the last seven hundred years. In his grandest work yet, the acclaimed storyteller constructs a world vastly different from the one we know. . . . “A thoughtful, magisterial alternate history from one of science fiction's most important writers.”—The New York Times Book Review It is the fourteenth century and one of the most apocalyptic events in human history is set to occur—the coming of the Black Death. History teaches us that a third of Europe's population was destroyed. But what if the plague had killed 99 percent of the population instead? How would the world have changed? This is a look at the history that could have been—one that stretches across centuries, sees dynasties and nations rise and crumble, and spans horrible famine and magnificent innovation. Through the eyes of soldiers and kings, explorers and philosophers, slaves and scholars, Robinson navigates a world where Buddhism and Islam are the most influential and practiced religions, while Christianity is merely a historical footnote. Probing the most profound questions as only he can, Robinson shines his extraordinary light on the place of religion, culture, power—and even love—in this bold New World. “Exceptional and engrossing.”—New York Post “Ambitious . . . ingenious.”—Newsday
