A stunning collection of projects from Shanghai's leading architecture and design firm, Neri&Hu. Founded in 2004 by partners Lyndon Neri and Rossana Hu, Neri&Hu is an interdisciplinary architectural and design practice based in Shanghai that has established an international

reputation and following. Through their innovative buildings in China, across Asia, and beyond, the firm has become a design-world favorite, collecting awards such as Overall Winner of the PLAN Award. This lavish volume, the most comprehensive monograph of the studio's work to date, features more than thirty projects at all scales with specially commissioned photography. Based in research, Neri&Hu "anchors their work on the dynamic interaction of experience, detail, material, form, and light" rather than limiting designs to one specific style. This ethos allows the company to thrive in a number of design disciplines, including architecture, interior design, furniture design, branding, and product design. As engaged with the world of interior design as with large-scale urban redevelopment projects, Neri&Hu's corpus spans a wide range of works that display Western influences adapted to the particular contexts of Asia. This collection is a beautiful design resource and a must-have for admirers of the firm.

The Fountains of Rome Headline Review

What is physical dramaturgy? While the traditional dramaturg shares research intellectually, the physical dramaturg does so viscerally and somatically. By combining elements of text, history, dramatic structure, and the author's intent with movement analysis and physical theatre pedagogies, the physical dramaturg gives actors the opportunity to manifest their work in a connected and intuitive manner and creates a field that is as varied and rich as the theatre itself. *Physical Dramaturgy: Perspectives from the Field* explores the ways in which this unique role can benefit the production team during the design and rehearsal phases of both traditional and devised productions. Individual chapters look at new ways of approaching a wealth of physical worlds, from the works of Shakespeare and other period playwrights to the processes of Grotowski, Williamson, Schechner, Michael Chekhov, and devising original works in a variety of contexts from Pig Iron, Dell'arte Players, Bill Bowers and mime, Tectonic, and Liz Lerman's Dance Exchange. This anthology gives dramaturgs, actors, and directors, new ways of looking at existing methods and provides examples of how to translate, combine, and adapt them into new explorations for training, rehearsal, or research.

This book is about the beginning of Sir Alex's football career, until the year 2000. 1999 was an outstanding year for Alex Ferguson - not only did he lead Manchester United, the most glamorous club in the world, to a unique and outstanding treble triumph, but he was awarded the highest honour for his sporting achievements; a Knighthood from the Queen. Universally respected for his tough, but caring managerial style, Ferguson is an unusually intelligent man with a fascinating life story. Covering his tough Govan upbringing through to his playing days and onto his shift into management, *Managing My Life* is told with the fine balance of biting controversy and human sensitivity which made it such an unprecedented success in hardback. Alex Ferguson is a legend in his lifetime.

This book presents the current state of the art in Social Ecology as practiced by the Vienna School of Social Ecology, globally one of the main research groups in this field. As a significant contribution to the growing literature on interdisciplinary sustainability studies, the book

introduces the purpose and nature of Social Ecology and then places the "Vienna School" within the broader context of socioecological and other interdisciplinary environmental approaches. The conceptual and methodological foundations of Social Ecology are discussed in detail, allowing the reader to obtain a broad overview of current socioecological thinking. Issues covered include socio-metabolic transitions, socioecological approaches to land use, the relation between actor-centered and system approaches, a socioecological theory of labor and the importance of legacies, as conceived in Environmental History and in Long-Term Socio-Ecological Research. To underpin this overview empirically, the strengths of socioecological research are elucidated in cases of cutting-edge research, introducing a variety of themes the Vienna School has been tackling empirically over the past years. Given how the field is presented - reflecting research carried out on different scales, reaching from local to global as well as from past to present and future - and due to the way the book is structured, it is suitable for classroom use, as a primer, and also as an overview of how Social Ecology evolved, right up to its current research frontiers.

'Forget the label "free trade agreement"'. The TPPA, under negotiation between New Zealand, the USA and ten other countries, is a direct assault on our right to decide our own future.' In this hard-hitting BWB Text, Professor Jane Kelsey picks apart the current negotiations surrounding the proposed Trans-Pacific Partnership Agreement (TPPA) and comes to some disturbing conclusions. Such a treaty, she says in this new work, has little credible economic rationale but could have potentially dangerous effects on our ability to decide for ourselves how we address the economic, environmental, social and Treaty challenges of the twenty-first century. At a time of constitutional review, the secrecy surrounding the TPPA negotiations raises hard questions about the future shape of New Zealand.

Das Ziel dieser Produktionsgemeinschaft bildender Künstler war die Realisierung des Gesamtkunstwerks auf handwerklich höchstem Niveau.
