It is crucial that pharmacists understand the language of health care professionals and, in turn, can convey the information in an understandable fashion to patients. Procter & Gamble Pharmacist's Handbook, Second Edition facilitates this communication. Now, all in one place, you can have medical terms, abbreviations, and patient counseling principles right at your fingertips. The handbook begins with an Inverted Medical Dictionary to translate lay terminology to more technical vocabulary and an Eponyms section to translate medical terminology to language that is comprehensible to patients. The Dictionary shows how to analyze the medical terms by identifying its root, suffix, and prefix. This examination is supplemented with numerous tables of common roots, suffixes, and prefixes. The book concludes with a glossary of managed care terms that will help you understand the language of the insurance community. Another critical responsibility of a pharmacist is to clearly comprehend a prescription. The sections containing Medical Abbreviations and Terms Used in Prescription Writing will aid in this vital task. Also included in the handbook are general references, such as normal laboratory values, conversion factors, and weights and measures. These features make Procter & Gamble Pharmacist's Handbook, Second Edition a convenient and handy resource for the practicing pharmacist.

The Department of Licensing has worked to keep the notary public application process as simple as possible. A prospective notary need only submit a complete application, proof of a \$10,000 surety bond, and appropriate fees to the Department of Licensing in order to begin the process. Once an applicant has completed all application requirements and proven that he or she is eligible, the Department will have a new certificate of commission mailed out promptly. New in 2018, notaries public can also apply for an electronic records notary public endorsement, which allows the notary to perform notarial acts on

electronic documents as well as paper documents. The application process is similar to the application process for the commission, and can be done at the same time or separately.
