Lewis is a full-time "language hacker," someone who devotes all of his time to finding better, faster, and more efficient ways to learn languages. Fluent in 3 Months: How Anyone at Any Age Can Learn to Speak Any Language from Anywhere in the World is a new blueprint for fast language learning. Lewis argues that you don't need a great memory or "the language gene" to learn a language quickly, and debunks a number of long-held beliefs, such as adults not being as good of language learners as children.

This groundbreaking series of essays offers new insights into Turkish cultures both past and present. Moving beyond the traditional binaries of east/west, Islam/secularism, and Europe/Asia, the book contains a variety of perspectives on contemporary Turkey, from actors, directors, critics and other major cultural figures. The book tries to situate these opinions in context by looking at how such perspectives are employed in different cultural spheres—education, theatre, politics and the like. Exploring Turkish Cultures contains the first major interviews published in English with prominent public figures, including actors Türkân Şoray, Genco Erkal and Nesrin Kazankaya. Other figures interviewed include film directors Derviş Zaim and documentary filmmakers Ben Hopkins, Pelin Esmer and Özgür Doğan. An extended interview with the author, translator and academic Talât Halman rounds off the interview section. Complementing these interviews are a series of essays on major Turkish films and theatrical productions, both past and present. Combining historical analysis, comment and evaluation from an author who has spent two decades living in Turkey, Exploring Turkish Cultures represents a major contribution to contemporary Turkish studies.

Research shows that learning a second language boosts problem-solving, critical thinking, and listening skills, in addition to improving memory, concentration, and the ability to multitask. Children proficient in other languages also show signs of enhanced creativity and mental flexibility. There is a "critical period" or "window of opportunity" when children learn languages best. Studies have shown that this is when children are between birth and six years old. The younger children are, the easier they will learn a second language. As they get older that ability diminishes. These easy and fun flashcards aim to help parents as a useful educational tool for kids to learn a new language.
