The Battle of Herrmann Walter de Gruyter GmbH & Co KG
A Tree Within (Arbol Adentro), the first collection of new poems by the great Mexican author Octavio Paz since his Return (Vuelta) of 1975, was originally published as the final section of The Collected Poems of Octavio Paz, 1957-1987. Among these later poems is a series of works dedicated to such artists as Miró, Balthus, Duchamp, Rauschenberg, Tapies, Alechinsky, Monet, and Matta, as well as a number of epigrammatic and Chinese-like lyrics. Two remarkable long poems --"I Speak of the City," a Whitmanesque apocalyptic evocation of the contemporary urban nightmare, and "Letter of Testimony," a meditation on love and death--are emblematic of the mature poet in a prophetic voice.

Lucia Ruprecht's study is the first

monograph in English to analyse the relationship between nineteenth-century German literature and theatrical dance. Combining cultural history with close readings of major texts by Heinrich von Kleist, E.T.A. Hoffmann and Heinrich Heine, the author brings to light little-known German resources on dance to address the theoretical implications of examining the interdiscursive and intermedial relations between the three authors' literary works, aesthetic reflections on dance, and dance of the period. In doing so, she not only shows how dancing and writing relate to one another but reveals the characteristics that make each mode of expression distinct unto itself. Readings engage with literary modes of understanding physical movement that are neglected under the regime of eighteenth-century aesthetic theory, and of classical ballet, setting the human, frail and expressive body against the smoothly idealised neoclassicist ideal. Particularly important is the way juxtaposing texts and performance practice allows for the emergence of meta-discourses about trauma and repetition and their impact on aesthetics and formulations of the self and the human body. Related to this is the author's concept of performative exercises or dances of the self which constitute a decisive force within the formation of subjectivity that is enacted in the literary texts. Joining performance studies with psychoanalytical theory, this book opens up new pathways for understanding Western theatrical dance's theoretical, historical and literary continuum.

Der Weisse Heiland: Dramatische Phantasie Böhlau Verlag Köln Weimar For over 150 years, Heinrich von Kleist (1777-1811) has been one of the most widely read and performed German authors. His status in the literary canon is firmly established, but he has always been one of Germany's most contentiously discussed authors. Today's critical debate on his unique prose narratives and dramas is as heated as ever. Many critics regard Kleist as a lone presager of the aesthetics and philosophies of late nineteenth- and early twentieth-century modernism. Yet there can be no question that he responds in his works and letters to the philosophical, aesthetic, and political debates of his time. During the last thirty years, the scholarship on Kleist's work and life has departed from the existentialist wave of the 1950s and early 1960s and opened up new avenues for coming to terms with his unusual talent. The present volume brings together the most important and innovative of these newer scholarly approaches: the essays include critically informed, up-to-date interpretations of Kleist's most-discussed stories and

dramas. Other contributions analyze Kleist's literary means and styles and their theoretical underpinnings. They include articles on Kleist's narrative and theatrical technique, poetic and aesthetic theory, philosophical and political thought, and insights from new biographical research. Contributors: Jeffrey L. Sammons, Jost Hermand, Anthony Stephens, Bianca Theisen, Hinrich C. Seeba, Bernhard Greiner, Helmut J. Schneider, Tim Mehigan, Susanne Zantop, Hilda M. Brown, and Seán Allan. Bernd Fischer is Professor of German and Head of the Department of German at Ohio State University.

Literarisches Zentralblatt für Deutschland Königshausen & Neumann "You can send me to the scaffold, but I can make you suffer, and I mean to." Based on actual historic events, this thrilling saga of violence and retribution bridged the gap between medieval and modern literature, and speaks so profoundly to the contemporary spirit that it has been the basis of numerous plays, movies, and novels. It has become, in fact, a classic tale: that of the honorable man forced to take the law into his own hands. In this incendiary prototype, a minor tax dispute intensifies explosively, until the eponymous hero finds the forces of an entire kingdom, and even the great Martin Luther, gathered against him. But soon even Luther comes to echo the growing army of peasants asking, Isn't Kohlhaas right? Widely acknowledged as one of the masterworks of German literature, Michael Kohlhaas is also one of the most stirring tales ever written of the quest for justice. The Art of The Novella Series Too short to be a novel, too long to be a short story, the novella is generally unrecognized by academics and publishers. Nonetheless, it is a form

beloved and practiced by literature's greatest writers. In the Art Of The Novella series, Melville House celebrates this renegade art form and its practitioners with titles that are, in many instances, presented in book form for the first time.

The essays in Novel Stages examine the myriad intersections between drama and the novel in nineteenth-century France, a period when the two genres were in constant engagement with one another. The collection is unified by common intellectual concerns: the inscription of theatrical esthetics within the novel; the common practice among nineteenth-century novelists of adapting their works for the stage; and the novel's engagement with popular forms of theater. The essays provide insight into a specific aspect of the relationship between the theater and the novel in the nineteenth century. Their distinct perspectives form an overview of the literary landscape of nineteenth-century France, and demonstrate many ways in which all major nineteenth-century French novelists, including Hugo, Flaubert, Sand, and Zola, participated in the theatrical culture of their century.

Zwischen den Künsten Melville House
In this first presentation of the artist's complete work, leading contemporary art historian Rosalind Krauss reviews Cindy Sherman's remarkable series of photographic works - in which the artist has notoriously assumed various roles, from B-movie starlet to Old Master model - and the enormous influence these works have had on feminist thinking and on current dialogues about the strategies of contemporary art in general. Almost perversely, Krauss argues, Sherman's unsettling attempts to dissect the formation and perception of images have turned her artworks - and herself - into icons for feminists' and others' agendas. Krauss explores in depth the various approaches to Sherman's work taken by philosophers and art historians and asks if they have not often lost sight of the imagery itself - or, more specifically, the way the images are constructed. In a further essay, Norman Bryson, internationally known for his pioneering theories on the semiotics of looking, explores Sherman's most recent, horror-show images of mannequins (known as the Sex Pictures) and identifies their place in her continued out-of-body investigations. Along with a bibliography and chronology, more than 200 illustrations

(140 in color), including numerous unpublished works, represent Sherman's complete career to date.

Die vorliegende Arbeit fokussiert erstmals die Ursprünge des zeitgenössischen Bildertheaters, welche sich bis ins ausgehende 19. Jahrhundert zurückverfolgen lassen. Das

Untersuchungsfeld umfaßt einen Zeitraum von ca. fünfzig Jahren (1870-1920), in denen ein grundlegender kulturhistorischer Paradigmenwechsel vonstatten ging. Als ein Symptom dieses Wandels kann die allmähliche Veränderung der Funktion und Bedeutung des Optischen auf dem Theater angesehen werden, welche im Zentrum des ersten Hauptteils steht.
