"The United States Code is the official codification of the general and permanent laws of the United States of America. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second Session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First Session, enacted between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited "U.S.C. 2012 ed." As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office"--Preface.

Responses to flag burning as a particular form of street protest tend to polarize into two camps: one holding the view that action of this sort is constitutionally protected protest; the other, that it is subversive and criminal activity. In this well-researched and richly documented volume, Welch examines the collision of these ideologies, and shows the relevance of sociological concepts to a deeper understanding of such forms of protest. In exploring social control of political protest in the United States, this volume embarks on an in-depth examination of flag desecration and efforts to criminalize that particular form of dissent. It seeks to examine the sociological process facilitating the criminalization of protest by attending to moral enterprises, civil religion, authoritarian aesthetics, and the ironic nature of social control. Flag burning is a potent symbolic gesture conveying sharp criticism of the state. Many Americans believe that flag desecration emerged initially during the Vietnam War era, but the history of this caustic form of protest can be traced to the period leading up to the Civil War. The act of torching Old Glory differs qualitatively from other forms of defiance. With this distinction in mind, attempts to penalize and deter flag desecration transcend the utilitarian function of regulating public protest. Despite popular claims that American society is built on genuine consensus, the flag-burning controversy brings to light the contentious nature of U.S. democracy and its ambivalence toward free expression. The First Amendment of the U.S. Constitution is often viewed as one of the more unpopular additions to the Bill of Rights. One constitutional commentator underscores this point by noting that the First Amendment gives citizens the right to tell people what they do not want to hear. Flag Burning is a well-written, informative volume suitable for courses in deviance, social problems, social movements, mass communication,

criminology, and political science, as well as in sociology of law and legal studies.

In these personal stories, 45 Ohio mothers open their hearts and share what it feels like when your son or daughter leaves home to fight a war. Some were stunned to learn one sunny afternoon that their "baby" had enlisted in the Marines. Others had long been familiar with military life. But all knew their life had just changed the day their child called and said, "Mom, I'm being deployed . . ." They discovered the strange mix of pride and fear. The anxiety of not knowing exactly where in Iraq or Afghanistan your son is, whether your daughter is facing mortar fire or enduring heat and boredom. Elation at the arrival of the briefest postcard or email message. The daily dread, when returning home from work or a trip to the grocery store, of seeing a government car in the driveway and two soldiers at the door . . . Any parent who reads these stories will feel their power—and will gain a greater understanding of the sacrifice made by parents as well as their children in our military service.

Members of the naval service will find that at all points in their careers they can expect to be involved to some extent in the planning and execution of official ceremonies and social events. Protocol is a code of established guidelines on proper etiquette and precedence which, when followed, lays the foundation for a successful event. From this foundation, the host should consider the facets which make a particular situation unique, and from there, use imagination to design a memorable occasion. The most important consideration in planning should always be the comfort of one's guests. A clever host/hostess is able to reach a proper mixture of protocol and common sense that will enable guests to enjoy themselves completely. If this is accomplished, an event is truly successful.

"What does 'allegiance' mean?" the New Teacher asked, hand over her heart. In this classic and chilling tale about an elementary school classroom in post-war occupied America, James Clavell brings to light the vulnerability of children and the power educators have to shape and change young minds. Originally written in the Cold War era, Clavell's extraordinary and enduringly relevant allegory on the impressionability of the human mind is still read in schools around the globe today, and is a call to every person to keep questioning and keep learning.

Pinole began as the cornerstone of a massive land grant nearly 200 years ago and grew to become an economic center of early Contra Costa County. Today it is a diverse and public-spirited small city with a high regard for, and interest in, its heritage. Pinole was named for the gruel (penole or pinolli) made from seeds, grain, and acorns given by welcoming Native Americans to explorers in the Pedro Fages expedition in 1772. Pinoles rich commercial and farming history made possible by its access to San Pablo Bay and by the convergence of two railroads that ran through the heart of the community is chronicled here with numerous photographs from the latter part of the 19th century through 2009, recalling buildings, people, and events that still live in the hearts of the city's modern-day residents.

Texans will decorate almost anything with their state flag, and E. Joe Deering has the pictures to prove it. In *Lovin' That Lone Star Flag*, photographer Deering has collected more than a hundred of his favorite images, showing state-flag-adorned pickup trucks, belt buckles, hang gliders, rooftops, and more. Starting when he was a staff photographer for the Houston Chronicle, Deering began noticing, as he toured the state on various assignments, how often he saw the image of the Texas flag painted on buildings, vehicles, barn doors, and other places. His curiosity led to an idea for a photographic essay, published by the Chronicle, and this in turn resulted in an exhibit at the George Bush Presidential Library and Museum in College Station of his "flagotography." Paired with Deering's lively captions recording the circumstances and locations of these uniquely Texan creations as well as former Chronicle colleague Ruth Rendon's introduction of Deering and his work, these striking photographs capture Texans' infectious enjoyment of their state symbol on land, on water, and in the air. *Lovin' That Lone Star Flag* will bring a smile to your face. It might even get you in the mood for a little Texas Two-Step. . . .
