In this hilarious, coming of age again novel, set in the eighties, Abby Copenhagen is a forty-nine-year-old Southern, former beauty queen, writer, and pageant judge. Throughout her crazy predicaments on the rural pageant circuit, she makes everything into an omen to change her life. The contestants are an endless supply of material for her comic sarcasm. Anecdotes of former pageant years provide a glimpse into a less secure and more complicated Abby. People she has loved along the way raise her expectations in life. Francine, a Sea Island woman who speaks Gullah, and Bernice, a retired rodeo rider, add to her

understanding of those outside the shallow beauty arena. Still, her favorite companion is a Bernese Mountain dog, her buffer against the outside world. When she meets charismatic Texas attorney, Tom Ross, he confuses her search for omens with an electric physical attraction neither has felt before. But once her critical juices start flowing, Abby finds it hard to stop judging and embrace a love and life she could never have imagined.

Love and hate were entangled within a relationship. One was the crown prince and the other was a prince. Warm a cold and proud man, or take good care of that natural fool? Where the balance was tilted was the right choice.

In a Victorian-era German asylum, seamstress Agnes Richter painstakingly stitched a mysterious autobiographical text into every inch of the jacket she created from her institutional uniform. Despite every attempt to silence them, hundreds of other psychiatric patients have managed to get their stories out, or to publish them on their own. Today, in a vibrant network of peer-advocacy groups all over the world, those with firsthand experience of emotional distress are working together to unravel the mysteries of madness and to help one another recover. *Agnes's Jacket* tells their story, focusing especially on the Hearing Voices Network (HVN), an international collaboration of professionals, people with lived experience, and their families and friends who have been working to develop an alternative approach to coping with voices, visions, and other extreme states that is empowering and useful and does not start from the assumption that such people have a chronic illness. A vast gulf exists between the way medicine explains psychiatric conditions and the experiences of those who suffer. Hornstein's work helps us to bridge that gulf, guiding us

through the inner lives of those diagnosed with schizophrenia, bipolar illness, depression, and paranoia, and emerging with nothing less than a new model for understanding one another and ourselves.

People need lawyers for many things, including tax and immigration advice, drafting contracts, preparing wills, buying and selling houses, forming and dissolving companies, and representation and advice during divorce, probate, personal injury and criminal charges. But many people do not trust lawyers. With good reason, they fear that lawyers will neglect or overcharge them, betray them out of self-interest or on behalf of others, or obstruct the pursuit of justice out of overzealousness. Although the legal profession drafts ethical rules, law schools teach those rules, the bar exam tests lawyers' knowledge, and disciplinary bodies enforce them, we know that violations by lawyers are all too common. *Lawyers on Trial: Understanding Ethical Misconduct by California Attorneys*, by Richard L. Abel, presents six dramatic accounts of California lawyers who betrayed their clients and the legal system. Through the detailed records of the disciplinary proceedings, it examines some of the most common complaints about lawyers: chasing ambulances, charging excessive fees, violating conflict of interest rules, and displaying excessive zeal. These complex and compelling dramas serve to make the ethical rules, and the temptations they seek to curb, come vividly alive for law students, lawyers, those thinking of becoming lawyers, anyone who has been or might some day be a client, and the general public. The lessons to be drawn from these situations can help the legal profession and the public devise better strategies for ensuring that lawyers abide by the rules.

A rollicking story of two literary fabulists who revealed the West's obsession with a fabricated, exotic East. In the highbrow

literary circles of the mid-twentieth century, a father and son spread seductive accounts of a mystical Middle East. Claiming to come from Afghanistan, Iqbal and Idries Shah parlayed their assumed identities into careers full of drama and celebrity, writing dozens of books that influenced the political and cultural elite. Pitching themselves as the authentic voice of the Muslim world, they penned picaresque travelogues and exotic potboilers alongside weighty tomes on Islam and politics. Above all, father and son told Western readers what they wanted to hear: audacious yarns of eastern adventure and harmless Sufi mystics—myths that, as the century wore on and the Taliban seized power, became increasingly detached from reality. *Empire's Son, Empire's Orphan* follows the Shahs from their origins in colonial India to literary London, wartime Oxford, and counterculture California via the Levant, the League of Nations, and Latin America. Nile Green unravels the conspiracies and pseudonyms, fantastical pasts and self-aggrandizing anecdotes, high stakes and bold schemes that for nearly a century painted the defining portrait of Afghanistan. Iqbal and Idries convinced poets, spies, orientalists, diplomats, occultists, hippies, and even a prime minister that they held the key to understanding the Islamic world. From George Orwell directing Muslim propaganda to Robert Graves translating a fake manuscript of Omar Khayyam and Doris Lessing supporting jihad, Green tells the fascinating tale of how the book world was beguiled by the dream of an Afghan Shangri-La that never existed. Gambling with the currency of cultural authenticity, Iqbal and Idries became master players of the great game of empire and its aftermath. Part detective story, part intellectual folly, *Empire's Son, Empire's Orphan* reveals the divergence between representation and reality, between what we want to believe and the more complex truth.

Despite intense media scrutiny, only a small percentage of the American government's most essential information reaches the average person. This withholding of information is dangerous in a democratic society, where openness is a cherished value. Here are some samples of the topics included in *Who Needs to Know?:* The history, use, and abuse of national security classification; The state of the Freedom of Information Act in the Bush Administration; Examination of the concept of sensitive but unclassified and the proliferation of such markings to shut off access to information; The administration's suppression of government science and scientists and its impact on policy and on government employees; The manipulation of the media for both political and ideological reasons; Suggestions on how to connect and communicate with organizations and your elected officials to effect a positive change in the state of public access to federal government information. We the people need to understand how to interact with our government, engage in public policy decision-making, and hold the government (and those who act on its behalf or under its regulations) accountable for sharing information. Dr. McDermott provides historical context on this issue, along with expert insights and useful recommendations from her years at the forefront of the battle to protect the public's right to know.

"In a LAND of MORAL IMBECILES, I knew I could be KING." He was one of the most prominent producers of fundraising events in the country, throwing monumental charity bashes, securing millions of dollars in donations for the sick and needy. The trouble was, some of the people profiting were greedy politicians, and many of the "charity cases" were really only pampered Hollywood stars. It's a true-life spectacular that only Hollywood could produce. Now, the story that shook the industry will finally shatter the façade of Hollywood's philanthropy and Washington's populism, once and for all exposing how empty are the real lifestyles of many of the rich and famous, and what really happens to charity money meant for the poor. When Aaron Tonken arrived in Los Angeles in the early nineties, he had nothing, not even a high-school education. Yet within just a few years, he was a friend and business associate of the leading lights of

Hollywood and the most powerful people in Washington. Tonken produced many of the biggest charitable and political functions ever seen on either coast, honoring former presidents Ford and Clinton, and raising money for the preferred charities of some of the biggest names in showbiz. But hidden behind the glamour of these galas was a sordid tale, as Tonken became the central character in a tragicomedy featuring demanding stars and politicians grasping for big-dollar campaign donations. In *King of Cons*, you'll read how Aaron Tonken: Helped Hollywood

darlings use money from their own charities Was mentored by Peter Paul-ex con, Fabio manager, and business partner of Spider-Man creator Stan Lee Got sucked into the criminal underworld of Los Angeles-the con artists, grifters, and porn kings. Was bullied by the diva behavior of Roseanne, Paula Abdul, Natalie Cole, and members of the cast of *Friends* Was approached for payments for appearances or performances at charity events by Cher, Sylvester Stallone, Lance Bass of *NSYNC, and the Democratic National Committee Got involved with Denise Rich, ex-wife of fugitive financier Marc Rich, the subject of

a controversial last-minute pardon by President Bill Clinton From his bizarre days as a virtual prisoner in the decrepit mansion of Zsa Zsa Gabor to his entanglements with hustlers, con artists, and the Clintons, Aaron tracks the whole sordid story of how he squandered millions of dollars from charities in the world of celebrity politicians and politicking celebrities.
