The year 2011 marked an important milestone in the life of rugby in South Africa -- the first rugby game was played on South African soil in 1861, making this the 150th year of the sport in South Africa. Wim van der Berg follows the development of the game from its earliest beginnings at Bishops school in Cape Town to its status as a national obsession. Meet the players, the teams and the men in charge throughout the history of South African rugby, and share the highs and lows of the game -- the euphoria of the World Cup win at Ellis Park in 1995, the long days of sporting isolation, the chaos of segregated rugby administration under apartheid, and the dedication of players who travelled five days by mule-wagon and by train from Kimberley to Cape Town to play a match in 1884. The players change over the years, the rules and scoring systems change, but the spirit of the game is enduring -- inspiring generations of players and spectators. Van der Berg follows the changes in provincial rugby, the move from an amateur game to professionalism, the growth of the major competitions that TV viewers follow so passionately, but never loses sight of the people behind the game - the players, the coaches, the administrators and the fans. Included are detailed statistics on the Currie Cup and international matches through the 150 years of rugby's history in South Africa -- who played, who scored, final scores and more.

A hundred years ago, a small settlement sprang up in the Northern Cape. A rich diversity of people moved in, as the children were born, Vatmaar

became a village. A. H. M. Scholtz tells of Oom Chai, who in turn tells of a Vuurmaak, who in turn introduces someone else. Thus a chain of stories is created interlinking the fates of unforgettable characters like Lance-Corporal George Lewis and his Tswana wife, Rush, Sis Bet, Old Chetty, Hendruk, January, Tant Vonnie and her daughters as they recount tales of the Anglo-Boer War, the diamond diggings, court cases and stokvels: the tricksters and the tricked, marriages and funerals, love and betrayal. A Place Called Vatmaar is a panoramic novel: compelling, wise and humane.

Conventional historical and political analyses of South Africa have frequently neglected the vital role of sport in general, and rugby in particular. This book fills the gap through a critical interpretation of rugby's role in the development of white society, its role in shaping significant social divisions, and its centrality to the apartheid era "power elite".

Africa's leading producer of electricity, Eskom Holdings SOC Ltd, is also a vertically integrated monopoly, owned by the South African state. This national champion was shaken in 2008, when it was obliged to introduce 'load shedding', or rolling blackouts, and again in late 2014. Trying to understand how and why one of the iconic pillars of South African state capitalism is now in distress, the authors of this book argue that the so-called electricity crisis is in fact a public monopoly crisis. Moving beyond technical aspects, they explore the relationship between state power and Eskom before, during and after apartheid. From this perspective, they suggest that the current technical and financial troubles of this public utility are illustrative of the weakening of its technopolitical regime, of how national institutions have governed Eskom's technological development, and of the pursuit of political goals in the production of electrical power. Without a clear industrial strategy during the 2000s, Eskom became a powerful tool of Broad-Black Economic Empowerment as well as a neopatrimonial system which generates profits captured by the ruling party. As a result, crisis in Eskom shakes the whole political edifice. Inefficient and its finances increasingly under scrutiny, this state-owned enterprise's existence as a monopolistic public utility is regularly a subject of debate. The authors discuss the ambivalent role of Eskom in the national energy transition policy and whether solutions point in the direction of de-integrating this public monopoly and allowing its current technopolitical regime to enter a planned or natural decline.

Sport has long been a paradoxical environment with respect to issues of 'race', ethnicity, and identity. For much of the twentieth century, sports around the world were enclaves of difference. Whites and non-whites, for example, were separated on the sports field as they were in many ways off the field. Today sport is much more inclusive, with athletic ability of greater importance than skin colour or ancestry. Yet enmity and antagonism still appear in sport via instances of racial vilification or hostility between some groups. Other problems include the relative absence of minorities from positions of power and influence in sport, as well as folkloric assumptions about athletic ability based upon stereotypes about 'race' or ethnic background. This book discusses issues of diversity, capacity and equity in the colourful world of global sport. A panoramic approach, covering 'race', ethnicity and identity is consistent with the contemporary global migration of professional athletes, as well as the multicultural contexts of sport in various regions. This collection of essays therefore addresses international dimensions of sport, commonality and difference, as well as the special circumstances of sport and social relations in particular places. This book was previously published as a special issue of *Sport in Society*.

Politieke leier of meeloper? Penguin Random House South Africa

Question: What do you do when you're dumped by the Girl Next Door? Answer: Throw yourself into another madcap adventure and travel from Cape Town to Cairo... A week after breaking up with the GND (his travelling companion through Central America) Peter Moore heads off to Africa to lose himself for a while. In the grand tradition of 19th-century scoundrels, explorers and romantics, Africa strikes him as the ideal place to find solitude and anonymity in the face of a personal crisis. What follows is Peter's journey from one end of the Dark Continent to the other. Travelling the fabled Cape Town to Cairo route by any means of transport he can blag (or if he must, pay) his way onto, it's an epic trek that sees our intrepid Antipodean experience everything from the southernmost city in Africa to the Pyramids, vast game parks and thundering falls, cosmopolitan cities and tiny villages as he journeys through the very heart of Africa. And travelling on his own, it's inevitable that Peter falls in with a motley cast of characters and has a myriad misadventures: including coming face to face with a wild Hyena with very bad breath, crossing the treacherous Sani Pass, the highest in Africa, narrowly escaping a riot by hiding in a coffin shop, saving oil-covered Penguins in South Africa, acting as an extra in a WW2 epic, not to mention dodging 20,000 single women trying to catch the eye of the king of Swaziland during the annual Reed Dance. And then there was the time when he was kicked out of Robert Mugabe's birthday bash at gunpoint...
