A Walk in the Woods Workman Publishing
 A Kirkus Reviews Best Short Fiction of 2021 Selection Ghost stories for the digital age by the Booker Prize-longlisted author of *The Wall*. In 2017, inspired in part by Henry James' *The Turn of the Screw*, the acclaimed English novelist John Lanchester

published a ghost story in *The New Yorker*. "Signal," an eerie story of contemporary life and the perils of technology, was a sensation among readers—and since then Lanchester has written several more. *Reality and Other Stories* gathers the best of these, taking readers to an uncanny world familiar to fans of *The Twilight Zone* or *Black Mirror*. Household gizmos with a mind of their own. Mysterious cell-phone calls from unknown numbers. Reality TV shows and the creeping suspicion that none of this is real... *Reality and Other Stories* is a book of disquiet that captures the severe disconnection and distraction of our time.

But Caroline's world is forever changed when Hitler's army invades Poland in September 1939—and then sets its sights on France. God only knows what possessed Bill Bryson, a reluctant adventurer if ever there was one, to undertake a gruelling hike along the world's longest continuous footpath—The Appalachian Trail. The 2,000-plus-mile trail winds through 14 states, stretching along the east coast of the United States, from Georgia to Maine. It snakes through some of the wildest and most spectacular landscapes in North America, as well as through some of its

most poverty-stricken and primitive backwoods areas. With his offbeat sensibility, his eye for the absurd, and his laugh-out-loud sense of humour, Bryson recounts his confrontations with nature at its most uncompromising over his five-month journey. An instant classic, riotously funny, *A Walk in the Woods* will add a whole new audience to the legions of Bill Bryson fans.

1001 Books You Must Read Before You Die Macmillan

Mrs Dalloway, Virginia Woolf's fourth novel, offers the reader an impression of a single June day in London in 1923. Clarissa Dalloway, the wife of a Conservative member of parliament, is preparing to give an evening party, while the shell-shocked Septimus Warren Smith hears the birds in Regent's Park chattering in Greek. There seems to be nothing, except perhaps London, to link Clarissa and Septimus. She is middle-aged and prosperous, with a sheltered happy life behind her; Smith is young, poor, and driven to hatred of himself and the whole human race. Yet both share a terror of existence, and sense the pull of death. The world of Mrs Dalloway is evoked in Woolf's famous stream of consciousness style, in a lyrical and haunting language which has made this, from its publication in 1925, one of her most popular novels.

A Portrait of the Artist as a Young Man HarperCollins

Simone is desperate to avoid the setup -- especially since she has a serious crush on another boy. It's time to take action. Simone and her fellow late-bloomer friends make a senior year bucket list of all the wild things they haven't done yet. Like: going out dancing, skipping class (what),

Year of Yes Grand Central Publishing
Award-winning former investigative reporter Basil Hero chronicles the life lessons humanity can learn from the twelve remaining Apollo astronauts who went to the Moon. In rare in-depth interviews, the twelve remaining lunar explorers, for the first time, talk at length about the real right stuff; the true source of courage, leadership, and the quiet patriotism that it took to risk their lives going to the moon. Hero begins each chapter with key life lessons that readers can gain from these honorable men whom he calls the Eagles. He describes how they mastered their emotions and learned to conquer their fears through techniques that can be used from the classroom to the boardroom. More importantly their voyages to the Moon led them to the most incredible discovery of all: our home planet and its precious place in the universe. They fear for Earth's future and offer sensible solutions to its mounting crises and the path to future space exploration. In *The Mission Of A Lifetime*, the Eagles share their wisdom and urge us to reframe our view of Earth to theirs: no identifiable nations, borders, or races; just Earthlings working together as a collective civilization.

Tiny Beautiful Things Knopf Books for Young Readers

In this exceptional cultural history, Atlantic Senior Editor Ronald Brownstein—"one of America's best political journalists (*The Economist*)"—tells the kaleidoscopic story of one monumental year that marked the city of Los Angeles' creative peak, a glittering moment when popular culture was ahead of politics in predicting what America would become. Los Angeles in 1974 exerted more influence over popular culture than any other city in America. Los Angeles that year, in fact, dominated popular culture more than it ever had before, or would again. Working in film, recording, and television studios around Sunset Boulevard, living in Brentwood and

Beverly Hills or amid the flickering lights of the Hollywood Hills, a cluster of transformative talents produced an explosion in popular culture which reflected the demographic, social, and cultural realities of a changing America. At a time when Richard Nixon won two presidential elections with a message of backlash against the social changes unleashed by the sixties, popular culture was ahead of politics in predicting what America would become. The early 1970s in Los Angeles was the time and the place where conservatives definitively lost the battle to control popular culture. *Rock Me on the Water* traces the confluence of movies, music, television, and politics in Los Angeles month by month through that transformative, magical year. Ronald Brownstein reveals how 1974 represented a confrontation between a massive younger generation intent on change, and a political order rooted in the status quo. Today, we are again witnessing a generational cultural divide. Brownstein shows how the voices resistant to change may win the political battle for a time, but they cannot hold back the future.
