Home Recording Made Easy (Second Edition) Hal Leonard Corporation

(Reference). A clever resource for the ever-growing home recording market. The revised edition is updated with a greater focus on digital recording techniques, the most powerful tools available to the home recordist. There are chapters devoted to instrument recording, humanizing drum patterns, mixing with plug-ins and virtual consoles, and a new section on using digital audio skills. And since, many true "Guerrillas" still record to analog tape, we have retained the best of that world. This edition features many more graphics than in the original edition, further enforcing Guerrilla Home Recording 's reputation as the most readable, user-frienly recording title on the market.

The Everything Home Recording Book National Geographic Books

(Berklee Methods). With the explosion of project studio gear available, it's easier than ever to create pro-quality music at home. This book is the only reference you'll ever need to start producing and engineering your music or other artists' music in your very own home studio. You don't have a home studio yet, but have some basic equipment? This essential guide will help you set up your studio, begin producing projects, develop your engineering skills and manage your projects. Stop dreaming and start producing!

Techtv's Secrets of the Digital Studio Schirmer Trade Books

In this new edition, discover how to achieve commercial-grade recordings, even in the smallest studios, by applying power-user techniques from the world's most successful producers. Recording Secrets for the Small Studio is based on the backroom strategies of more than 250 famous names. This thorough and down-to-earth guide leads you through a logical sequence of practical tasks to build your live-room skills progressively from the ground up, with user-friendly explanations that introduce technical concepts on a strictly need-to-know basis. On the way, you'll unravel the mysteries of many specialist studio tactics and gain the confidence to tackle a full range of real-world recording situations. Specifically designed for small-studio enthusiasts, this book provides an intensive training course for those who want a fast track to releasing quality results, while the chapter summaries, assignments, and extensive online resources are perfect for school and college use. Learn the fundamental principles of mic technique that you can apply in any recording scenario – and how to avoid those rookie mistakes that all too often compromise the sonics of lower-budget productions. Explore advanced techniques which help industry insiders maintain their competitive edge even under the most adverse conditions: creative phase manipulation, improvised acoustics tweaks, inventive monitoring workarounds, and subtle psychological tricks. Find out where you don't need to spend money, as well as how to make a limited budget really count. Make the best use of limited equipment and session time, especially in situations where you're engineering and producing single-handed. Pick up tricks and tips from celebrated engineers and producers across the stylistic spectrum, including Steve Albini, Neal Avron, Roy Thomas Baker, Joe Barresi, Howard Benson, Tchad Blake, T-Bone Burnett, Geoff Emerick, Brian Eno, Paul Epworth, Shawn Everett, Humberto Gatica, Imogen Heap, Ross Hogarth, Trevor Horn, Rodney Jerkins, Leslie Ann Jones, Eddie Kramer, Jacquire King, Daniel Lanois, Sylvia Massy, Alan Meyerson, Justin Niebank, Gary Paczosa, Tony Platt, Jack Joseph Puig, David Reitzas, Bob Rock, Laura Sisk, Fraser T Smith, Young Guru, and many more. Now extensively expanded and updated, with new sections on contact mics, software instruments, squash mics, and ensemble depth distortion.

The Home Recording Handbook Simon and Schuster

Guerrilla Home Recording SMT

The last decade has seen an explosion in the number of home-recording studios. With the mass availability of sophisticated technology, there has never been a better time to do it yourself and make a profit. Take a studio journey with Brian Tarquin, the multiple-Emyy-award winning recording artist and producer, as he leads you through the complete recording process, and shows you how to perfect your sound using home equipment. He guides you through the steps to increase your creative freedom, and offers numerous tips to improve the effectiveness of your workflow. Topics covered in this book include the following: Studio location, set up, and alteration Equipment—microphones, plug-ins, amps, mixers Recording software Mixing techniques Roles and responsibilities of artists, producers, engineers Getting the best performance from hired musicians And much more! Experienced and novice musicians alike will learn a multitude of tips, tricks, and techniques to control the studio environment and create excellent sounds. Novices, or those just starting to record on home equipment for the first time, will learn everything from setting up a studio properly, to operating the mixers and processors, to improving the acoustics of your work environment. This guide will help every musician, producer, or engineer to build a successful home-recording business. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

You'll learn to create tracks complete with digital effects, virtual instruments, and sound quality that rival professional studios. In no time, you'll be ready for your time in the spotlight!

Mirror Sound Cengage Learning

(Book). The Strive curriculum is the brainchild of online-television sensation Pensado's Place and audio-publishing giant Hal Leonard. It will feature authors who are considered best in class, relevant, and enormously committed to education and giving back. We chose the name Strive because to attain all the key dynamics to growth in your life, you simply must strive! Strive continues the Pensado ethos of edutainment, combining education with entertainment to teach, reach, amplify, inspire, and yes, to strive ! Topics in Strive will range from vocal courses, management, tracking, mixing, social media, music theory for the electronic musician, miking, tracking, home recording, marketing, live instrumentation, speakers, headphones, live sound, cables, connectors, mastering, and more. Featured authors will include such audio heavyweights as Usher's New Look Foundation, rock legend Chris Lord-Alge, Nashville institution the Blackbird Academy, Dave Pensado, pop and urban maestro Tony Maserati, and Rihanna vocal producer Kuk Harrell. And there are many more all-stars to come! Additionally, Strive will allow the reader to engage with other Pensado's Place opportunities, from bundling software, such as plug-ins, headphones, DAWs, or other gear options, to also engaging with some of our most active platform partners, such as Converse Rubber Tracks and Indaba. The Strive curriculum may make you eligible for one-on-one teaching with our superstar guests, VIP access at Pensado Live Events, discounts on gear, and more. You want to know how the pros succeeded? It starts with learning how to strive!

Home Recording Power! Backbeat Books

Mixing is an Attitude

When I think back to my best mixes—regardless of their commercial success—in each and every case, I can only describe the experience as one in which I was working from deep within, outside of any external forces. I wasn't thinking; I was doing. I wasn't scared of what anyone would think. I wasn't scared of failure. All my decisions were made with confidence, and once a judgment was made, I didn't second-guess myself. I allowed the music to guide me, and I based all of my mix decisions on nothing more than one simple criterion: Are the song and production doing what they're supposed to be doing?

That sounds nice, huh? I mean, that's the headspace you want to be in when you're mixing! The problem is, you can't get there if you're focused on all the wrong things, and we're all susceptible to distraction and self-doubt. Great mixing involves trusting yourself, first and foremost. And I can promise you, that trust is downright infectious to everyone on your project.

Who Am I?

I'm Mixerman, a gold and multi-platinum mixer, producer, and recordist. I've been mixing professionally and at a high level for over three decades now., and I can assure you, great mixing isn't about manipulating sound. It's about the decisions you make in regards to the music, the balances, and how you use the arrangement to push the listener forward through the song. This is accomplished thought concrete strategies and techniques, that I'm uniquely qualified to offer you.

Boost Your Confidence Now

You can spend the next decade mixing two songs a day to get there. Or you can get *Zen & the Art of MIXING 2021*, and I'll explain the thinking behind great mixing. And then watch your confidence soar.

There's a reason why this is my most popular work, to date. Enjoy, Mixerman

Rowman & Littlefield

This book is the definitive guide to Audacity, the powerful, free, cross-platform audio editor that transforms any Windows, Mac, or Linux computer into a powerful recording studio.--[book cover]
