ADVANCED** Lippincott
Williams & Wilkins

The single best answer
format of questions is
invaluable in assessing
a trainee's clinical skills

and problem-solving abilities. It allows the trainee to demonstrate application of their knowledge to clinical practice. This book comprises six sets of practice papers. Each set contains 30 single best answer questions which cover topics including clinical anaesthesia, pain and intensive care. The questions are based on the recent changes introduced to the written part of the final FRCA examination. The best possible answer to a given clinical scenario is substantiated by a detailed explanation drawn from recent review articles and textbooks in clinical anaesthesia. These questions will enable candidates to assess their clinical knowledge and skills in problem-

solving, data interpretation and decision making. This book is essential study material for candidates sitting postgraduate examinations in anaesthesia and intensive care medicine. It is not only an essential guide for trainees but also an invaluable educational resource for all anaesthetists.

anaesthesiology subspecialties, each chapter contains questions on the basic and clinical sciences pertinent to that particular subset of the field,
Multiple Choice Questions in Regional Anaesthesia JP Medical Ltd
These multiple choice questions should be a valuable preparation aid for candidates sitting the Part 2 and 3 FCA examination. The questions have been collected over a number of years from actual exam papers and discursive answers prepared for them. The format and style of the questions should prove of particular use to candidates who wish to assess their level of knowledge in pharmacology and physiology, and wish to

attempt mock exams in preparation for the real thing. Each answer has been referenced and every effort has been made to use standard texts. This should enable the reader to feel confident in the validity of the answers.
