From a beginning in an Egyptian Delta town and the port of Alexandria to the scenic vistas of sunny southern California, Ahmed Zewail takes us on a voyage through time his own life and the split-second world of the femtosecond. In this engaging exposé of his life and work until his receipt of the Nobel Prize in 1999, Zewail explores in non-technical language the landscape of molecules glimpsed on the scale of one quadrillionth of a second: the femtosecond, 0. 000 000 000 000 001 second. Zewail

enriches the journey into the strange territory of femtochemistry with insightful analogies and illustrations to aid both the general reader and the scientifically inclined. He likewise draws lessons from his life story so far, and he meditates on the impact the revolution in science has had on our modern world in both developed and developing countries. He suggests a concrete course of action for the world of the have-nots, and ends the book with hope for Egypt in developing the nation's greatest natural resource its youth to build a more promising future, and for America to develop a new vision domestically and internationally.

It started in the heartland and originally ended in Los Angeles

(not, contrary to myth, at the ocean). It carried truckers crossing the country, Okies fleeing the Dust Bowl, vacationers seeking the sun. It was Americas Main Street, the Mother Road, the Will Rogers Highway, and, at its dangerous curves, Bloody 66. Get your kicks on Route 66 with this wonderfully illustrated tribute to the best-loved highway in this car-loving nation. Michael Witzel shares his expertise and wealth of personal, archive, collector, and contributing photographer images in these pages, offering a nostalgic tour of the charms and oddities of this road through American cultural history. Starting in Chicago and running to Santa Monica, this book highlights the sights along the highway with historic and current photos in then-and-now pairings, and includes Route 66 postcards, road signs, trinkets, maps, brochures, and advertisements. Here we see Route 66 as it was in its heyday and as it is now, the neon glamour of yesterday versus the ghost towns of today. Witzel and his wife, Gyvel Young-Witzel, recount the highways history, its role in popular culture, and its demise, as well as the individual stories of famous sights. Several profiles of those with close ties to the Mother Road, including the woman who played Ruthie Joad in the *The Grapes of Wrath* film, are included.

Sometimes, the best adventures happen by chance. El Camino de Santiago, also known as The Way, is the fabled path that weaves through French and Spanish countryside to its hallowed destination at Santiago de Compostella. Thousands attempt to hike its entirety each year: some succeed, many fail. One man struggling at a crossroads in life meets a stranger in a Greek bar who points him in the right direction. A week later, he finds

himself starting El Camino, a 1000-mile hike that will change him. From the pain of blisters and extremes of temperature to encountering kleptomaniacs, fake faith healers and being threatened with arrest in Spain for 'not sleeping', his hike was far from normal. This is the story of one man's walk, but it speaks to all who see life itself as a journey and are alive to the revelations that an escape to nature can bring. Written with insight, observation and a healthy dose of humour. As this book shows, it is rarely the start and the finish that count, but the journey in between. Reviews 'A thoroughly entertaining modern take on a well-worn Spanish Trail.' - Spencer Vignes (The Observer). 'Not only does he have astute observations about the people, places and scenery around him, he is adept at translating those observations into words, often making me laugh or nod in understanding. This is a rare talent. Few authors can bring you to this level of understanding of life on the trail.' - Teresa Dicentra Black (Author - 'One Pan Wonders') 'An engaging, vivid and very personal account by a likeable author of a journey and an achievement that readers will find both enviable and inspiring.' - Ingrid Cranfield (Author - 'At Last Michael Reeves')

"When Paula Constant and her husband, Gary, attempt to break away from the conventional 9-to-5 routine, a few weeks lazing in a resort or packed in a tour bus is not what they have in mind. What starts out as an idle daydream to embark on 'a travel to

end all travels' turns into something far greater: an epic year-long 5000-kilometre walk from Trafalgar Square in London to Morocco and the threshold of the Sahara Desert"--Publisher.

What if humans could find a way to travel through time? And if so, might these interactions in past events be the catalysts that prompted some of those unexplained historical events? Using accepted historical facts, *Swallowed by Time* weaves the lives of its characters like living threads into the tapestry of the past to provide possible answers to these questions. Author Darrell G. Coley details an engineering team's quest to develop a stealth technology that results in an unintended voyage through time. It introduces alternate events into history without changing its outcome. *Swallowed by Time* also addresses many real personal and spiritual fears, doubts, and struggles that people of faith encounter daily. In this novel, the team's leader, Lee Michaels, struggles to overcome his feelings of inadequacy that cause him to ask, "Who am I that God would choose me for such a task?" Additionally, Lee finds himself in a budding romantic relationship and faces the struggles of how to stay faithful to his Christian values. *Swallowed by Time* details how he and the other team members overcome each challenge that presents itself and become able to fulfill the calling God has placed on their lives.

David Macaulay, co-creator of the international bestseller *The Way Things Work*, brings his signature curiosity and detailing to the story of the steamship in this meticulously researched and stunningly illustrated book. Prior to the 1800s, ships crossing the Atlantic Ocean relied on the wind in their sails to make their journeys. But invention of steam power ushered in a new era of transportation that would change ocean travel forever: the steamship. Award-winning author-illustrator David Macaulay guides readers through the fascinating history that culminated in the building of the most advanced—and last—of these steamships: the SS United States. This book artfully explores the design and construction of the ship and the life of its designer and engineer, William Francis Gibbs. Framed around the author's own experience steaming across the Atlantic on the very same SS United States, *Crossing on Time* is a tour de force of the art of explanation and a touching and surprising childhood story. A broken engagement and a broken heart had left him longing for a change of scenery, but the plan he'd cooked up in response had gone a bit overboard in that department: Over the course of a single year, Knighton would visit every national park in the country, from Acadia to Zion. In *Leave Only Footprints*, Knighton shares informative and entertaining dispatches from what turned out to be the road trip of a lifetime. Whether he's waking up early for a naked scrub in a

historic bathhouse in Arkansas or staying up late to stargaze along our loneliest highway in Nevada, Knighton weaves together the type of stories you're not likely to find in any guidebook. Through his unique lens, America the Beautiful becomes America the Captivating, the Hilarious, and the Inspiring. Along the way, he identifies the threads that tie these wildly different places together—and that tie us to nature—and reveals how his trip ended up changing his views on everything from God and love to politics and technology. Filled with fascinating tidbits about our parks' past and reflections on their fragile future, this book is both a celebration of and a passionate case for the natural wonders that all Americans share.

The bestselling author of *Blue Latitudes* takes us on a thrilling and eye-opening voyage to pre-Mayflower America. On a chance visit to Plymouth Rock, Tony Horwitz realizes he's mislaid more than a century of American history, from Columbus's sail in 1492 to Jamestown's founding in 1607-something. Did nothing happen in between? Determined to find out, he embarks on a journey of rediscovery, following in the footsteps of the many Europeans who preceded the Pilgrims to America. An irresistible blend of history, myth, and misadventure, *A Voyage Long and Strange* captures the wonder and drama of first contact. Vikings, conquistadors, French voyageurs—these and many others roamed an unknown continent in quest of grapes, gold, converts, even a cure for syphilis. Though most failed, their remarkable exploits left an enduring mark on the land and people encountered by late-arriving English settlers. Tracing this legacy with his own epic trek—from Florida's Fountain of Youth to Plymouth's sacred Rock, from desert pueblos to subarctic sweat lodges—Tony Horwitz explores the revealing gap between what

we enshrine and what we forget. Displaying his trademark talent for humor, narrative, and historical insight, *A Voyage Long and Strange* allows us to rediscover the New World for ourselves.

A Road Running Southward HarperCollins

This beloved account about an intrepid young Englishman on the first leg of his walk from London to Constantinople is simply one of the best works of travel literature ever written. At the age of eighteen, Patrick Leigh Fermor set off from the heart of London on an epic journey—to walk to Constantinople. *A Time of Gifts* is the rich account of his adventures as far as Hungary, after which *Between the Woods and the Water* continues the story to the Iron Gates that divide the Carpathian and Balkan mountains.

Acclaimed for its sweep and intelligence, Leigh Fermor's book explores a remarkable moment in time. Hitler has just come to power but war is still ahead, as he walks through a Europe soon to be forever changed—through the Lowlands to Mitteleuropa, to Teutonic and Slav heartlands, through the baroque remains of the Holy Roman Empire; up the Rhine, and down to the Danube. At once a memoir of coming-of-age, an account of a journey, and a dazzling exposition of the English language, *A Time of Gifts* is also a portrait of a continent already showing ominous signs of the holocaust to come.
