THE GREAT HUNGER. IRELAND 1845-9. BY CECIL WOODHAM-SMITH. Prism

The Irish struck out across America's frontiers, built its railroads, fought on both sides of the civil war, captured its major historic moments in print, paint and bronze, led many of its religious denominations, policed its streets, set up its banks, educated its masses, entertained America on its stages and screens and in its sporting arenas, and made ground-breaking contributions in science and engineering. This collection documents fifty Irish people who made an indelible mark on American society, politics and culture. People like the pirate Anne Bonney and Gertrude Brice Kelly, one of New York City's first surgeons, feature alongside more familiar names such as Maureen O'Hara, Maeve Brennan, Rex Ingram and the architect of the White House James Hoban. About the Dictionary of Irish Biography: The Dictionary of Irish Biography, a research project of the Royal Irish Academy, is the most comprehensive and authoritative biographical dictionary

yet published for Ireland. It comprises over 10,000 lives, which describe and assess the careers of subjects in all fields of endeavour, including politics, law, religion, literature, journalism, architecture, music and the arts, the sciences, medicine, entertainment and sport.

Niall Williams's internationally bestselling "delicate and graceful love story . . . a magical work of fiction" (NYTBR), now a major motion picture starring Pierce Brosnan, Helena Bonham Carter, and Gabriel Byrne. Nicholas Coughlan is twelve years old when his father, an Irish civil servant, announces that God has commanded him to become a painter. He abandons the family and a wife who is driven to despair. Years later, Nicholas's own civil-service career is disrupted by tragic news: his father has burned down the house, with all his paintings and himself in it. Isabel Gore is

the daughter of a poet. She's a passionate girl, but her brother is the real prodigy, a musician. And yet this family, too, is struck by tragedy: a seizure leaves the boy mute and unable to play. Years later, Isabel will continue to somehow blame herself, casting off her own chances for happiness. And then, the day after Isabel's wedding to man she doesn't love, Nicholas arrives on her western isle, seeking his father's last surviving painting. Suddenly the winds of fortune begin to shift, sweeping both these souls up with them. Nicholas and Isabel, it seems, were always meant to meet. But it will take a series of chance events-and perhaps, a proper miracle-to convince both to follow their hearts to where they're meant to be.

Irish Women have been around for ages - some would say almost as long as Irish Men. We've learned a lot in that time but, until now, we haven't shared it. Perhaps being shushed by priests/foreign invaders/the wind for too long has taken its toll - but our time has finally come to speak out. Here comedian Tara Flynn shares the wisdom of the Irishwoman, and why she holds the keys to success in life and how to live it - especially the rough bits. Armed with her all-purpose 'You're grand' philosophy, there is nothing the Irishwoman can't weather (even the weather). Need dating advice? Ask an Irishwoman. Need a recipe for brown bread? We're your gals. Worried about death? Don't be! Put the fun back in funeral! Covering all things grand, from the grand basics starter pack, to how to spice up your love life (a lesson in 'Irotica', anyone?) - if this book doesn't change your life (and it will), it might just help you laugh at it.

This Is Happiness Gill & Macmillan Ltd

In the century before the great famine of the late 1840s, the Irish people, and the poor especially, became increasingly dependent on the potato for their food. So when potato blight struck, causing the tubers to rot in the ground, they suffered a grievous loss. Thus began a catastrophe in which approximately one million people lost their lives and many more left Ireland for North America, changing the country forever. During and after this terrible human crisis, the British government was bitterly accused of not averting the disaster or offering enough aid. Some even believed that the Whig government's policies were tantamount to genocide against the Irish population. James Donnelly's account looks closely at the political and social consequences of the great Irish potato famine and explores the way that natural disasters and government responses to them can alter the destiny of nations.

The Great Big Irish Annual 2021 Grove Press

This book is fiction. The story that inspired it was not. In 1990, a box of very old documents was found on a small farm in the west of Ireland. They had been stored for well over a hundred years and told an incredible story of suffering, of love and of courage. In 1846, a young couple met during the worst days of the Great Irish Famine. The Killing Snows is a way to imagine what led to their meeting and what followed from it.

Welcome to the colourful Ulster village of Ballybucklebo, where two doctors work hand in hand to mend the bodies and spirits of the town's diverse and engaging inhabitants. But who is looking after the wounded hearts of the doctors? After less than a year, young Barry Laverty, M.B., is settling in to the village, with only a few months to go before he becomes a full partner in the practice. He's looking forward to becoming a fixture in the community, until an unexpected romantic reversal gives him second thoughts. Will he truly be happy tending to routine coughs and colds for the rest of his career? After all, even when a more challenging case comes along, like a rare tropical disease, all he can do is pass it on to a qualified specialist or big-city hospital. As much as Barry enjoys the rough and tumble of life in County Down, is running a humble GP's shop all he wants out of life? Barry's mentor, Doctor Fingal Flahertie O'Reilly, is going through some personal upheavals as well. After mourning his deceased wife for decades, he's finally allowed a new woman into his life. But this budding courtship is not going over well with Kinky Kincaid, the doctors' redoubtable housekeeper, who fears having her position usurped by O'Reilly's new flame. Tact, diplomacy, and a fair amount of blarney may be required to restore peace to the household. Meanwhile, life goes on in Ballybucklebo, presenting both doctors with plenty of distractions from their own troubles. From a mysterious outbreak at the local school to a complicated swindle involving an unlucky racehorse, the two partners will need all of their combined wit and compassion to put things right again--just in time for their lives to change forever. From Mizen Head to Malin, Valentia to Loop Head, Carlingford Lough to Hook Head, rising or falling slowly, backing south-east to north-east or veering south-to-south-west - what does it all mean? Here, meteorologist Joanna Donnelly goes on a journey around Ireland's Sea Area Forecast. Visiting the places that are a familiar part of the daily broadcast and explaining the history, language and science associated with it, From Malin Head to Mizen Head fans our endless fascination with the weather while sweeping us away on a journey around Ireland's most remote headlands.

"Puleo has found a new way to tell the story with this well-researched and splendidly written chronicle of the Jamestown, its captain, and an Irish priest who ministered to the starving in Cork city...Puleo's tale, despite the hardship to come, surely is a tribute to the better angels of America's nature, and in that sense, it couldn't be more timely." —The Wall Street Journal The remarkable story of the mission that inspired a nation to donate massive relief to Ireland during the potato famine and began America's tradition of providing humanitarian aid around the world More than 5,000 ships left Ireland during the great potato famine in the late 1840s, transporting the starving and the destitute away from their stricken homeland. The first vessel to sail in the other direction, to help the millions unable to escape, was the USS Jamestown, a converted warship, which left Boston in March 1847 loaded with precious food for Ireland. In an unprecedented move by Congress, the warship had been placed in civilian hands, stripped of its guns, and committed to the peaceful delivery of food, clothing, and supplies in a mission that would launch America's first full-blown humanitarian relief effort. Captain Robert Bennet Forbes and the crew of the USS Jamestown embarked on a voyage that began a massive eighteen-month demonstration of soaring goodwill against the backdrop of unfathomable despair—one nation's struggle to survive, and another's effort to provide a lifeline. The Jamestown mission captured hearts and minds on both sides of the Atlantic, of the wealthy and the hardscrabble poor, of poets and politicians. Forbes' undertaking inspired a nationwide outpouring of relief that was unprecedented in size and scope, the first instance of an entire nation extending a hand to a foreign neighbor for purely humanitarian reasons. It showed the world that national generosity and brotherhood were not signs of weakness, but displays of quiet strength and moral certitude. In *Voyage of Mercy*, Stephen Puleo tells the incredible story of the famine, the Jamestown voyage, and the commitment of thousands of ordinary Americans to offer relief to Ireland, a groundswell that provided the collaborative blueprint for future relief efforts, and established the United States as the leader in international aid. The USS Jamestown's heroic voyage showed how the ramifications of a single decision can be measured not in days, but in decades.

An authentic re-creation of sixteenth-century Ireland provides the backdrop for the saga of real-life Irish chieftain Grace O'Malley, who took part in a lifelong struggle against England's Queen Elizabeth I.

From Malin Head to Mizen Head Anchor

The name the Romans gave to Ireland was Hibernia, which means 'Land of Winter', and cold feet may have been a factor in their decision to leave the Irish to their own devices. The weather is our main topic of conversation and has done its bit in shaping our character. This lively overview shines a light on incidents when the weather – generally bad – changed the course of Ireland's history. Along the way it takes in those years – and there were quite a few – when the sun really didn't shine. We learn how Oliver Cromwell, invincible in war, most likely caught his death from a Cork mosquito. The Irish climate created the heavy soil that made the potato flourish in Ireland like nowhere else, with disastrous consequences. David Lean came to Ireland fully intending to give the County Kerry weather a starring role in his film *Ryan's Daughter*. He didn't make another film for fourteen years. Our professional forecasters still hedge their bets by predicting four seasons in one day – and still often get it laughably wrong. But there are sunny stories too, such as how, in 1973, the brooding Antrim weather produced one of rock music's greatest album covers, and how the Irish legend of the crock of gold at the rainbow's end came about. Remarkably, Ireland's weather has remained the same moderate mixed blessing since the Romans left.

From the author of the Man Booker Prize— winning literary sensation and long-time Globe and Mail bestseller *The Gathering*, comes a dazzling, seductive new collection of stories. “Anne Enright’s style is as sharp and brilliant as Joan Didion’s; the scope of her understanding is as wide as Alice Munro’s; . . . her vision of Ireland is as brave and original as Edna O’Brien’s.” — Colm Tóibín *A rich collection of sharp, vivid stories of loss and yearning, of the ordinary defeats and unexpected delights that grow out of the bonds between husbands and wives, mothers and children, and intimate strangers. Bringing together in a single elegant edition new stories as well as a selection of stories never before published in Canada (from her UK published *The Portable Virgin*, 1991), *Yesterday’s Weather* exhibits the unsettling, carefully drawn reality, the subversive wit, and the awkward tenderness that mark Anne Enright as one of the most thrillingly gifted writers of our time.*

The Irish Assassins Random House Digital, Inc.

A brilliant true crime account of the assassinations that altered the course of Irish history from the “compulsively readable” writer (*The Guardian*). One sunlit evening, May 6, 1882, Lord Frederick Cavendish and Thomas Burke, Chief Secretary and Undersecretary for Ireland, were ambushed and stabbed to death while strolling through Phoenix Park in Dublin. The murders were funded by American supporters of Irish independence and carried out by the Invincibles, a militant faction of republicans armed with specially made surgeon’s blades. They put an end to the new spirit of goodwill that had been burgeoning between British Prime Minister William Gladstone and Ireland’s leader Charles Stewart Parnell as the men forged a secret pact to achieve peace and independence in Ireland—with the newly appointed Cavendish, Gladstone’s protégé, to play an instrumental role in helping to do so. In a story that spans Donegal, Dublin, London, Paris, New York, Cannes, and Cape Town, Julie Kavanagh thrillingly traces the crucial events that came before and after the murders. From the adulterous affair that caused Parnell’s downfall; to Queen

Victoria's prurient obsession with the assassinations; to the investigation spearheaded by Superintendent John Mallon, also known as the "Irish Sherlock Holmes," culminating in the eventual betrayal and clandestine escape of leading Invincible James Carey and his murder on the high seas, *The Irish Assassins* brings us intimately into this fascinating story that shaped Irish politics and engulfed an Empire. Praise for Julie Kavanagh's *Nureyev: The Life* "Easily the best biography of the year." —The Philadelphia Inquirer "The definitive biography of ballet's greatest

star whose ego was as supersized as his talent." —Tina Brown, award-winning journalist and author
