CranioSacral Therapy: What It Is, How It Works Simon and Schuster

Explains how to use your Taoist astrology birth chart as a personal nutritional guide for health, longevity, and organ energy balance • Explores how to help balance your birth chi through your eating habits as well as explaining how foods address your five-element energetic profile • Provides detailed food lists based on ancient Taoist wisdom that reveal their effect on the Yin, Yang, and five-element energies • Shows how your five-element energies outline your life and influence success in relationships

and at work We are each born with a unique combination of heavenly and earthly energies defined by the five elements and dictated by the universe at the moment you take your first breath. This “birth chi” can be calculated using the year, month, day, and time of your birth, and it reveals your personal profile of health and emotional strengths and weaknesses as well as the energy cycles you will encounter throughout your life. In this Inner Alchemy astrology nutrition guide, Master Mantak Chia and Christine Harkness-Giles explore how to strengthen your birth chi through your eating habits, revealing which foods will address imbalances in your five-element organ energy profile. The authors explain which organs are connected with each element--fire, earth, metal, water, and wood--and provide detailed food lists based on ancient Taoist wisdom that reveal the energetic temperature, flavor, and organ related to many common foods and superfoods. They emphasize the importance of local, seasonal, and fresh foods and of yin-yang balance for health. The authors illustrate the five elements’ characteristics through sample profiles for celebrities such as Paul McCartney and Meryl Streep, along with Taoist nutritional recommendations based on their charts. The authors also explore how your Inner Alchemy astrology profile determines your life and relationships and explain how Inner Alchemy practices and five-element nutrition can improve all aspects of your life. By eating in line with your personal five-element energetic profile, as part of ancient Inner Alchemy techniques, you can improve health and longevity and strengthen connections with your loved ones and the energies of the cosmos.

Biodynamic Craniosacral Therapy (BCST) is commonly seen as the spiritual approach to craniosacral therapy (CST); in fact, BCST as taught by Franklyn Sills, the pioneer in the field, is quite different from conventional CST. Biodynamic work is based on the development of perceptual skills where the practitioner learns to become sensitive to subtle respiratory motions called primary respiration and also to the power of spontaneous healing. Through the Breath of Life, which, Sills asserts, echoes the Holy Spirit in the Judeo-Christian tradition, bodhicitta in Buddhism, and the Tai Chi in Taoism, students of BCST learn to enter a state of presence oriented to the client’s inherent ability to heal. In Foundations in Craniosacral Biodynamics, Sills offers students and practitioners an in-depth, step-by-step guide to the

development of perceptual and clinical skills with specific clinical exercises and explorations to help students and practitioners learn the essentials of a biodynamic approach. Individual chapters cover such topics as holism and biodynamics; mid-tide, Long Tide, Dynamic Stillness and stillpoint process; the motility of tissues and the central nervous system; transference and the shadow; shamanistic resonances; and more.

With the troubling side effects and surging costs of medications and surgery, Americans are increasingly turning to CranioSacral Therapy as an effective, drug-free, and non-invasive therapy. A gentle, hands-on method of evaluating and enhancing the function of the craniosacral system — the membranes and cerebrospinal fluid that surround and protect the brain and spinal cord — CST boosts the body’s natural healing processes and has proven efficacious for a wide range of medical problems from migraines, learning disabilities, and post-traumatic stress disorder to fibromyalgia, chronic neck and back pain, and TMJ. This book provides a broad introduction to this therapy by way of short pieces written by a number of well-known practitioners or experts. In addition to pioneer John E. Upledger, contributors include Richard Grossinger (Planet Medicine), Don Ash (Lessons from the Sessions), Don Cohen (An Introduction to Craniosacral Therapy), and Bill Gottlieb (Alternative Cures). Each selection covers a different aspect of CST: what it is, what it does, how it heals, what the practitioner does during a CST session, CST’s relationship to cranial osteopathy and other healing therapies, as well as other topics of interest to the beginner.

**Emotional Wisdom** North Atlantic Books

Craniosacral therapy and Chi Kung practices to harmonize emotions, release chronic tensions, and optimize the flow of energy • Provides illustrated instructions for movement exercises, breathwork, self-massage, and emotional intelligence meditations to free the flow of energy in the body • Reveals clear parallels between the craniosacral rhythm and the flow of chi • Explains how to release energetic blockages and emotional and physiological knots, activate the energetic pumps of the 3 tan tiens, and tap in to the Cosmic Flow Exploring the connections between Western craniosacral therapy and Chi Kung, Taoist master Mantak Chia and craniosacral instructor Joyce Thom detail movement exercises, breathwork practices, self-massage techniques, and focused meditations from Taoist and other wisdom traditions to release and harmonize the flow of energy in the body and optimize our potential for physical, emotional, and spiritual well-being. The authors link the craniosacral rhythm--the gentle flow of cerebrospinal fluid from the head (cranium) to the tailbone (sacrum)--and the flow of chi throughout the body, circulated by the pumps of the three tan tiens. They explain how these subtle energetic flows indicate the harmony or disharmony of the whole person and are greatly affected by physical traumas, chronic tensions, and unresolved emotions. For example, the psoas muscle, known in Taoism as the muscle of the Soul, connects the spine to the legs and is the first muscle to contract when anger or fear triggers our fight-or-flight response. Often a storehouse of subconscious stressors, this muscle's sensitivity is connected to many common ailments like back pain. Providing step-by-step illustrated exercise instructions, the authors explain

how to identify and unwind energetic blockages and emotional and physiological knots. They explore emotional intelligence exercises for tuning in to our hearts so we can listen to our bodies' messages and learn to relieve related emotional burdens. They also reveal how to activate the cranial, respiratory/cardiac, and sacral pumps of the three tan tiens to optimize the body's energetic flow and explain how, when our energy is flowing freely, we can enter the Cosmic Flow--a state of calm well-being and extraordinary creativity where we find ourselves truly at one with the universe.

Holistic Reflexology Simon and Schuster

A groundbreaking book, Emotional Wisdom reveals powerful ancient tools for transforming our painful emotions into happiness and health. So-called negative emotions are valuable messages that let us know we are out of balance. With compassion and humor, Taoist authors Mantak Chia and Dena Saxer explain the messages that anger, depression, fear, worry, and stress offer us. They present three easy-to-learn twenty-minute internal energy practices, with helpful illustrations, to turn these imbalances into harmony and joy. They provide unusual nutritional advice for emotional healing and a Taoist First Aid section with proven natural remedies for minor ailments such as insomnia, indigestion, headaches, and overeating. Relevant quotes from the Tao Te Ching add inspiration to this practical, life-changing book.

How to connect with universal energy for inner peace, happiness, and individual and global healing • How to transform the energy around us into positive loving energy • How to perform the World

Link meditation to unite with global consciousness • How to fuse the observing mind, the conscious mind, and the mind of awareness Western science now recognizes the three “minds” associated with the three tan tiens of Taoism: the observing mind centered in the brain, the conscious mind centered in the heart, and the mind of awareness centered in the lower abdomen. By unifying the three minds--what in Chinese is called Yi--we can transform the energy around us into positive loving energy and be empowered to manifest our goals and dreams. This can lead to a more balanced, less negative way of life and offers a way to gain inner peace, wholeness, and happiness as well as the ability to heal yourself and others. In *The Healing Energy of Shared Consciousness*, Master Mantak Chia shows how to fuse the three minds and form the Protective Sacred Circle of Fire, which creates a seal around us allowing in only good energy and intentions. He explains step-by-step how to perform the World Link meditation to connect with global and universal energy for inner peace, happiness, and healing. Accessible even for those who have never worked with the Universal Healing Tao, this practice offers a way to unite people all over the world in a form of shared consciousness that amplifies collective loving energy to benefit the world.

The shamanic roots of Taoist practice • Explains the principles of the Taoist Medicine Wheel, including the Five Elements, the animals of the Chinese zodiac, and the trigrams of the I Ching • Includes exercises from the “Wheel of Love” to access the Tao of Ecstasy • Contains illustrated teaching stories about the Eight

Immortals Thousands of years ago the immortals known as the Shining Ones shipwrecked on the Chinese coast. Passing their shamanic practices--such as ecstatic flight and how to find power animals and spirit guides--on to the indigenous people, they also taught them the wisdom of the Medicine Wheel. From the Taoist Medicine Wheel came the principles of Yin and Yang, the Five Elements, the Eight Forces, the Chinese zodiac, and the I Ching. The Taoist Medicine Wheel can also be found at the foundation of traditional Chinese medicine and the esoteric sexual practices of Taoist Alchemy. In *The Taoist Shaman*, Master Mantak Chia and Kris Deva North explain the shamanic principles of the Taoist Medicine Wheel, how it is oriented on the Five Elements rather than the Four Directions, how it relates to the twelve animals of the Chinese zodiac and the trigrams of the I Ching, and how it aligns with the Eight Forces of the Pakua. Through illustrated teaching stories, the authors show how the energetic principles of each of the Eight Forces are reflected in the Eight Immortals. Revealing the wheel’s application to sacred sexuality, they offer exercises from the “Wheel of Love” to strengthen and deepen relationships as well as providing a means to access the Tao of Ecstasy.

She then uses her training in alternative therapies to integrate the mental and psychological issues that may accompany physical conditions, providing the first complete holistic approach to using reflexology for physical, emotional, and mental health. Total Reflexology presents each of the major body systems in turn--from the digestive system to the human energetic system--using 25 full-color newly mapped foot diagrams that provide precise indications of pressure points and their correspondences to all areas of the body. Energy Medicine East and West: A Natural History of Qi provides a unique, comprehensive overview of Qi or bioenergy for students and practitioners of energy medicines, Chinese and Oriental Medicine, and all disciplines of Complementary and Integrative Medicine. Mayor and Micozzi start with a comparative historical account of the ancient concepts of Qi and vital energy before covering theories of Qi, a discussion of the organized therapeutic modalities based upon Qi and its applications to specific health and medical conditions. Contributions are included

from international experts in the field. The book moves from anatomical and bioenergetic complementarity of Western vital energy and Eastern Qi, through convergence of perspectives and models to demonstrations of how the traditional therapies are being melded together in a new, original and creative synthesis. David Mayor and Marc Micozzi are experienced medical practitioners, authors and editors. David Mayor has been actively involved in bioenergy research, practice and publishing for over 30 years, and is author/editor of *Electroacupuncture: A practical manual and resource* (2007), as well as other acupuncture texts and studies. Marc Micozzi is Professor in the Department of Physiology and Biophysics at Georgetown University School of Medicine, Washington, DC. As author/editor of *Fundamentals of Complementary & Alternative Medicine, 4E* (2011), and 25 other books, he has been writing, editing and teaching on bioenergy, Qi and related topics for 20 years. Endorsements "This wonderful book has assembled some 25 authors expressing well a view of qi which entirely does justice to its nature. Meticulously referenced, it is a milestone to set beside Maciocias Foundations of Chinese Medicine and Deadmans Manual of Acupuncture. Here at last are the beginnings of a true science of qi...There is truly nothing like it in contemporary literature. Alone, it lays the foundation for the beginnings of a modern science of qi."Richard Bertschinger, Acupuncturist and translator, Somerset, UK. "This book offers a timely and thorough examination of the experience and nature of qi, including a series of fascinating philosophical discussions with a direct application to our patients. Required reading for acupuncture practitioners seeking to justify and clarify their clinical reasoning."Val Hopwood PhD FCSP, Physiotherapist,

acupuncturist, researcher and educator; Course director, MSc Acupuncture, Coventry University, UK. "Over the last decade most books on Asian medicine paid tribute to the aura of evidence-based medicine – experience counted little, RCTs were convincing. This book, at last, returns to an old tradition of debate, opening up quite a few new horizons. Reading it, my striving for knowledge was married with enjoyment and happiness. This book made me happy!" Thomas Ots MD PhD, Medical acupuncturist specialising in psychiatry, Graz, Austria; Editor-in-Chief, Deutsche Zeitschrift für Akupunktur. "To simply review the chapter headings is to know the truly remarkable expanse of this book...a wonderful bridge between the mysteries of the East and the sciences of the West...well documented, well written, and enlarging both. Enlightening...nicely depicts outstanding advances in energy psychotherapeutics, thus ultimately helping to move forward the human condition." Maurie D Pressman MD, Emeritus Clinical Professor of Psychiatry, Temple University School of Medicine, Philadelphia, PA; Emeritus Chairman of Psychiatry, Albert Einstein Medical Center, Philadelphia PA; past President, International Society for the Study of Subtle Energies and Energy Medicine, Lafayette, CO, USA.

The Sufi tradition remains one of the most mysterious and least understood systems of self-realization. This book demystifies the practice of the sohbet—an ad hoc discourse—as the central instructional tool in the globally influential Naqshbandi-Haqqani Order. It approaches the practice using categories of improvised music to establish a framework for analyzation. Its ritualized

formal structure, illustrated via selected talks of Shaykh Nazim Adil al-Haqqani, discloses the underlying—and assumingly primary—function to provoke prolonged states of raised awareness in listeners and condition their sympathetic nervous system. In an extensive discussion based on several years of field research in Cyprus, the book relates this intention to similar practices in other traditional knowledge systems by proposing psychophysical interpretations based on psychology, biochemistry, neuroscience, or quantum physics. It will appeal to scholars and students of Sufism, Islamic studies, and comparative religion, as well as those interested in performance studies and improvised music, interpersonal communication, and education.

They reveal how to discover your levels of success, wealth, and power; how your astrological strengths will manifest; and how to understand your relationships with partners, friends, and family. They also explain how to use your chart to calculate your organ health and annual luck cycles. The authors show how to use Inner Alchemy techniques, such as color therapy and feng shui, and Universal Healing Tao exercises, such as the Healing Sounds and Chi Kung, to harmonize and strengthen the inborn imbalances and weaknesses in your chart. This hands-on method of astrology allows you to take control of your health and destiny by connecting your personal energy with the energies of the cosmos.

shows how these traditions are a direct means for accessing higher consciousness and true self-knowledge, or gnosis, as well as a way to extract the essence of one's own creative gifts. The author takes the reader on a Hermetic journey through each of the seven traditional planets--Saturn, Jupiter, Mars, the Sun, Venus, Mercury, and the Moon--exploring their mythological, philosophical, alchemical, Qabalistic, magical, astrological, and energetic natures and offering meditative discourses that reach past the rational mind to speak directly to the intuitive soul.
