S.N.A.F.U. is the satirical fictional story of Snaford University

Jewish Hospital which explores the changing dynamics that have had a profound effect on the practice of medicine. As the acronym SNAFU implies, chaos and confusion abound. Nothing is the way it seems. Some may consider this over the top satire, others a cleareyed portrayal of hospital affairs and a clash of cultures-- the medical profession vs the corporate world which now controls it. Physicians must continue to care for the sick in an environment of increasing absurdity. S.N.A.F.U. explores this dilemma using satire mixed with realism, giving you the same choice doctors face every day: whether to laugh or cry.
