#### **Law Cape Unit 1 a Caribbean Examinations Council Study Guide** Routledge

A range of resources for CAPE has been specially developed to meet the requirements of the CAPE syllabus. This new textbook has been developed to match the requirements of the CAPE Management of Business syllabus. Full coverage of the CAPE syllabus is provided and the content has a clear focus on the Caribbean economic and business environment. A distinctive feature is the provision of examination-type questions at the end of each major section. The questions come with a suggested time limits for answering, giving useful practice in how to allocate time for the final examination. Management of Business for CAPE includes case studies from a variety of countries and industries, as well as an internal assessment component.

*Fast Food Nation* Edward Elgar Publishing

Help Caribbean students understand the society they live in while ensuring full coverage of the 2013 syllabus. - Ensure complete coverage of Units 1 and 2 in a single volume, while giving the students the opportunity to make links between content at both levels. - Illustrate key research for each topic with Caribbean and international studies. - Support learning with exclusive online content, providing additional new material, guidelines to doing the Internal Assessment (IA) and a student friendly approach to research.

*Out of the Red* Routledge

Policymakers, academics, think tanks and practitioners will benefit from the international perspective of the book, particularly those interested in the influential Asian architecture. This book is also a useful reference tool for students of macroecon

*CAPE Economics* World Bank Publications

This public domain book is an open and compatible implementation of the Uniform System of Citation.

*Economics for CSEC® Examinations* International Monetary Fund

**CAPE Management of Business** Ingram

Ideal for a one-semester course in international economics, this book is accessible to those within and outside of economics programs.

**The Indigo Book** OECD Publishing

This CAPE Economics Multiple Choice Practice book is an invaluable exam preparation aid for CAPE Economics students. This book provides excellent practice for the multiple choice questions from Paper 1 of the CAPE examination, and has been specially written to help CAPE Economics students improve their Paper 1 exam score.

**Principles of Management** Collins

During 2008-2009, the world experienced its worst financial and economic crisis since the Great Depression of the 1930s. The crisis followed the effects of the food and fuel price hikes in 2007 and 2008. In 2009, global output contracted by 2 per cent. This 2011 Report on the World Social Situation reviews the ongoing adverse social consequences of these crises after an overview of its causes and transmission.

**Economics** National Academies Press

Study Guides for CAPE have been developed and written by CXC to provide CAPE candidates in schools and colleges with resource materials to help them prepare for their exams. Matching the topics in the syllabus, the student-friendly structure and content enable students to develop their skills and confidence as they approach the examination.

**Economics CAPE Unit 2 a Caribbean Examinations Council Study Guide** Rutgers University Press

America's position as the source of much of the world's global innovation has been the foundation of its economic vitality and military power in the post-war. No longer is U.S. pre-eminence assured as a place to turn laboratory discoveries into new commercial products, companies, industries, and high-paying jobs. As the pillars of the U.S. innovation system erode through wavering financial and policy support, the rest of the world is racing to improve its capacity to generate new technologies and products, attract and grow existing industries, and build positions in the high technology industries of tomorrow. Rising to the Challenge: U.S. Innovation Policy for Global Economy emphasizes the importance of sustaining global leadership in the commercialization of innovation which is vital to America's security, its role as a world power, and the welfare of its people. The second decade of the 21st century is witnessing the rise of a global competition that is based on innovative advantage. To this end, both advanced as well as emerging nations are developing and pursuing policies and programs that are in many cases less constrained by ideological limitations on the role of government and the concept of free market economics. The rapid transformation of the global innovation landscape presents tremendous challenges as well as important opportunities for the United States. This report argues that far more vigorous attention be paid to capturing the outputs of innovation - the commercial products, the industries, and particularly high-quality jobs to restore full employment. America's economic and national security future depends on our succeeding in this endeavor.

**SBA Guaranteed Lending and Local Economic Growth** Oxford University Press, USA

In this second edition of Sociology for Caribbean Students, author Nasser Mustapha builds on the success of the earlier volume by continuing to demystify the science of Sociology for the introductory student. This text also stays true to the aims of the first edition by incorporating the perspective of the Caribbean and developing societies within the concepts and theories of Sociology. Fully up to date and in line with the requirements of the Caribbean Advanced Proficiency Examination (CAPE(r)) Sociology Syllabus, Sociology for Caribbean Students is divided into two major Units with three modules each. Topics such as the Family, Culture and Identity, Religion, Population Theories and Institutions of Social Control are explained in a student-friendly manner which speaks to the Caribbean reality. The book has been significantly revised to include new activities, data and exercises to clarify concepts and theories which may be difficult to grasp for the beginner in Sociology; and will thereby remain the preferred text for student

**Collins Economics for Cape** Cambridge University Press

Behavioural insights (BI) are lessons derived from the behavioural and social sciences, including decision making, psychology, cognitive science, neuroscience, organisational and group behaviour.

**CAPE Sociology** Oxford University Press, USA

A range of resources for CAPE has been specially developed to meet the requirements of the CAPE syllabus. Management of Business for CAPE includes case studies from a variety of countries and industries, as well as an internal assessment component.

**Promoting Sustainable Local and Community Economic Development** World Bank Publications

This popular full colour course book has been revised to meet the requirements of the new CSEC syllabus in Information Technology. The course provides today's IT students with comprehensive coverage, including the School-Based Assessment (SBA). It is written with a fresh and highly illustrative approach, and takes into account the challenges faced in today's classroom. A new section has been added to assist teachers and

students who are new to programming. The book is also appropriate for practical management courses at UWI.

**Economic and Management Sciences, Grade 9** Skyhorse Publishing Inc.

Study Guides for CAPE have been developed and written by CXC to provide CAPE candidates in schools and colleges with resource materials to help them prepare for their exams. Matching the topics in the syllabus, the student-friendly structure and content enable students to develop their skills and confidence as they approach the examination.

**The Global Social Crisis** HarperCollins UK

Equity is an abstract concept covering philosophical issues such as fairness and social justice, making its definition and measurement complex. This volume tackles these complexities head-on. The book is enriched with many empirical analyses and provides a comprehensive analysis of equity ranging from concepts and measurements to empirical illustrations and policy implications. After an extensive discussion on equity in the introduction, this volume begins with a chapter on well-being where the concepts of functioning and capability are discussed. This is followed by a few chapters on what an equitable distribution is and how equity can be measured. The volume then provides a definition and a methodology to measure equitable growth, examining the relationship between growth, inequality, and poverty. It also presents various empirical illustrations and country-specific experiences with three country case studies which assess whether publicly provided health and education services are equitable in developing Asia, examining the extent to which these social services favor the poor as well as the policy challenges to a more equitable delivery of these services. Finally, these country studies provide evidence-based policy recommendations to improve equity in social service delivery in developing countries. Achieving social equity has long been an important policy goal. There are relatively few studies on equity. This book aims to help fill this gap with an in-depth analysis of the issues associated with equity, covering its concept, measurement, and policy practices and implications.

**IMF-Supported Programs** Houghton Mifflin Harcourt

CAPE Caribbean Studies is a unique book and website package that will help students understand the historical, geographical and social influences that have shaped the regions they live in today, confident in the knowledge that all the demands of the new 2012 syllabus are covered. The content of each unit concisely covers the syllabus and highlights key concepts so that students understand exactly what is required of them for the CAPE exam. A dedicated research and data collection section takes students step-by-step through the process of completing their Independent Research Projects, providing an essential check point for both school and private candidates. Exclusive online content is delivered in an engaging and interactive way to enable accessible revision of topics and to bring variety to learning with videos and quizzes.

*Tools and Ethics for Applied Behavioural Insights: The BASIC Toolkit* UN

"Increasingly, policymakers look to the small business sector as a potential engine of economic growth. Policies to promote small businesses include tax relief, direct subsidies, and indirect subsidies through government lending programs. Encouraging lending to small business is the primary policy objective of the Small Business Administration's (SBA) loan-guarantee program. Using a panel data set of SBA guaranteed loans, we assess whether SBA guaranteed lending has an observable impact on local economic performance. We find a positive and significant (although economically small) relationship between the relative levels of SBA guaranteed lending in a local market and the future per capita income growth in that market"--Federal Reserve Bank of Atlanta web site.

**Special Economic Zones in Africa** Cambridge University Press

Growing local economies, empowering communities, revitalizing downtowns, developing entrepreneurship, building leadership, and enhancing nonprofits — you can achieve all these benefits and more with a comprehensive and strategic revitalization plan. Chronicling the struggle of local revitalization as organizers move from trial and error to effective revitalization strategies, Promoting Sustainable Local and Community Economic Development documents the current transformation in community revitalization from market-based incentives to mixed strategies of public sector learning, partnerships, and community capacity. Knowledge about the field and what works is growing, but not always publicized and readily accessible. This reference surveys the breadth of innovative place and people development practices, presenting lessons and examples at a general and textured level, putting information about innovative ways to change, influence, and improve the economic development process within easy reach. Roland Anglin brings his unique vantage point to the topic; his experience as a practitioner and applied academic allowed him to see how community economic development practices grow over time in size, scale, and impact. He highlights the difference between what is now termed community economic development (CED) and traditional local economic development practice, specifically the priority placed on community involvement in economic development partnerships between the private sector and government. The book includes case studies that demonstrate what has and has not worked in revitalization efforts, as well as how active public and private sector partnerships have been the most effective in revitalization efforts. A Resource Guide is included at the end of the book for readers who may want a more expansive understanding of community economic development.
