Government in the United States

Random House

Proponents of American public diplomacy sometimes find it difficult to be taken seriously. Everyone says nice things about relying less on military force and more on soft power. But it has been hard to break away from the longtime conventional wisdom that America owes its place in the world primarily to its muscle. Today, however, policy makers are recognizing that merely being a "superpower" - whatever that means now - does not ensure security or prosperity in a globalized society. *Toward a New Public Diplomacy* explains public diplomacy and makes the case for why it will be the crucial element in the much-needed reinvention of American foreign policy.

The War That Ended Peace University Press of Florida

Once upon a time in a very busy city, on a very busy street, in two very small apartments, lived... Herman and Rosie. Herman liked playing the oboe, the smell of hot dogs in the winter, and watching films about the ocean. Rosie liked pancakes, listening to old jazz records, and watching films about the ocean. They both loved the groovy rhythm of the city, but sometimes the bustling crowds and constant motion left them lonely, until one night ... A Neal Porter

Book

Toward a New Public Diplomacy McGraw Hill Professional

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • The Economist • The Christian Science Monitor • Bloomberg

Businessweek • The Globe and Mail

From the bestselling and award-winning author of *Paris 1919* comes a

masterpiece of narrative nonfiction, a fascinating portrait of Europe from 1900

up to the outbreak of World War I. The

century since the end of the Napoleonic

wars had been the most peaceful era

Europe had known since the fall of the

Roman Empire. In the first years of the

twentieth century, Europe believed it

was marching to a golden, happy, and

prosperous future. But instead, complex

personalities and rivalries, colonialism

and ethnic nationalisms, and shifting

alliances helped to bring about the

failure of the long peace and the

outbreak of a war that transformed

Europe and the world. *The War That*

Ended Peace brings vividly to life the

military leaders, politicians, diplomats,

bankers, and the extended, interrelated

family of crowned heads across Europe

who failed to stop the descent into war:

in Germany, the mercurial Kaiser

Wilhelm II and the chief of the German

general staff, Von Moltke the Younger; in

Austria-Hungary, Emperor Franz Joseph,

a man who tried, through sheer hard

work, to stave off the coming chaos in

his empire; in Russia, Tsar Nicholas II

and his wife; in Britain, King Edward VII,

Prime Minister Herbert Asquith, and

British admiral Jacky Fisher, the fierce

advocate of naval reform who entered

into the arms race with Germany that

pushed the continent toward

confrontation on land and sea. There are the would-be peacemakers as well, among them prophets of the horrors of future wars whose warnings went unheeded: Alfred Nobel, who donated his fortune to the cause of international understanding, and Bertha von Suttner, a writer and activist who was the first woman awarded Nobel's new Peace Prize. Here too we meet the urbane and cosmopolitan Count Harry Kessler, who noticed many of the early signs that something was stirring in Europe; the young Winston Churchill, then First Lord of the Admiralty and a rising figure in British politics; Madame Caillaux, who shot a man who might have been a force for peace; and more. With indelible portraits, MacMillan shows how the fateful decisions of a few powerful people changed the course of history. Taut, suspenseful, and impossible to put down, *The War That Ended Peace* is also a wise cautionary reminder of how wars happen in spite of the near-universal desire to keep the peace. Destined to become a classic in the tradition of Barbara Tuchman's *The Guns of August*, *The War That Ended Peace* enriches our understanding of one of the defining periods and events of the twentieth century. Praise for *The War That Ended Peace* "Magnificent . . . The War That Ended Peace will certainly rank among the best books of the centennial crop."—*The Economist* "Superb."—*The New York Times Book Review* "Masterly . . . marvelous . . . Those looking to understand why World War I happened will have a hard time finding a better place to start."—*The Christian Science Monitor* "The debate over the war's origins has raged for years. Ms. MacMillan's explanation goes straight to the heart of political fallibility. . . . Elegantly written, with wonderful

character sketches of the key players, this is a book to be treasured."—*The Wall Street Journal* "A magisterial 600-page panorama."—Christopher Clark, *London Review of Books*
A Students' History of the United States
 Macmillan Higher Education
 This book focuses on the fraught relationship between cultural heritage and intellectual property, in their common concern with the creative arts. The competing discourses in international legal instruments around copyright and intangible cultural heritage are the most obvious manifestation of this troubled encounter. However, this characterization of the relationship between intellectual and cultural property is in itself problematic, not least because it reflects a fossilized concept of heritage, divided between things that are fixed and moveable, tangible and intangible. Instead the book maintains that heritage should be conceived as part of a dynamic and mutually constitutive process of community formation. It argues, therefore, for a critically important distinction between the fundamentally different concepts of not only intellectual and cultural heritage/property, but also of the market and the community. For while copyright as a private property right locates all relationships in the context of the market, the context of cultural heritage relationships is the community, of which the market forms a part but does not – and, indeed, should not – control the whole. The concept of cultural property/heritage, then, is a way of resisting the reduction of everything to its value in the market, a way of resisting the commodification, and creeping propertization, of everything. And, as such, the book proposes an alternative basis for expressing and

controlling value according to the norms and identity of a community, and not according to the market value of private property rights. An important and original intervention, this book will appeal to academics and practitioners in both intellectual property and the arts, as well as legal and cultural theorists with interests in this area.

The Macmillan World Atlas Random House

"También de este lado hay sueños. On this side, too, there are dreams. Lydia Quixano Perez lives in the Mexican city of Acapulco. She runs a bookstore. She has a son, Luca, the love of her life, and a wonderful husband who is a journalist. And while there are cracks beginning to show in Acapulco because of the drug cartels, her life is, by and large, fairly comfortable. Even though she knows they'll never sell, Lydia stocks some of her all-time favorite books in her store. And then one day a man enters the shop to browse and comes up to the register with four books he would like to buy--two of them her favorites. Javier is erudite. He is charming. And, unbeknownst to Lydia, he is the jefe of the newest drug cartel that has gruesomely taken over the city. When Lydia's husband's tell-all profile of Javier is published, none of their lives will ever be the same. Forced to flee, Lydia and eight-year-old Luca soon find themselves miles and worlds away from their comfortable middle-class existence. Instantly transformed into migrants, Lydia and Luca ride la bestia--trains that make their way north toward the United States, which is the only place Javier's reach doesn't extend. As they join the countless people trying to reach el norte, Lydia soon sees that everyone is running from something. But what exactly are they running to? American Dirt will leave readers utterly

changed when they finish reading it. A page-turner filled with poignancy, drama, and humanity on every page, it is a literary achievement."--

Government in the United States
Glencoe/McGraw-Hill

Now in its second edition, this engaging text introduces readers to all the key developments in American history between 1900 and 2000. Combining factual coverage with an analysis of professional historians' most recent interpretations of major domestic and foreign affairs, it fully explores dramatic events such as the Wall Street Crash, Pearl Harbor, the Cuban Missile Crisis and the Watergate Scandal. Chapters are enriched by presidential profiles and supported by stimulating source material and exam-style questions to reinforce learning. This text will be essential reading for students undertaking courses in American History at college, foundation and undergraduate level. It is also the ideal companion for anyone with a general interest in the American history of the twentieth century. New to this Edition: - Two brand-new chapters on African-American History - A new 'American Lives' feature which gives insight into a wide range of cultural figures including the Wright Brothers, Rachel Carson, J.D. Salinger and Muhammed Ali

The Professor Is In Henry Holt and Company

Covering the history of human slavery in Asia, Europe, Africa, the Americas, and the United States, this volume has entries for individuals and such topics as the details of living conditions, resistance and rebellion, law and emancipation, and theory and politics. *Mastering Modern United States History*
Simon and Schuster

An anthology of fiction, poetry, drama,

and nonfiction by American authors from pre-colonial days to the present.

US Environmental Policy in Action

Bloomsbury Publishing

Is peace an aberration? The New York Times bestselling author of *Paris 1919* offers a provocative view of war as an essential component of humanity.

NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW

“Margaret MacMillan has produced another seminal work. . . . She is right that we must, more than ever, think about war. And she has shown us how in this brilliant, elegantly written book.”—H.R. McMaster, author of

Dereliction of Duty and Battlefields:

The Fight to Defend the Free World The instinct to fight may be innate in human nature, but war—organized

violence—comes with organized society.

War has shaped humanity’s history, its social and political institutions, its values and ideas. Our very language, our public spaces, our private memories, and some of our greatest cultural treasures reflect the glory and the misery of war. War is an uncomfortable and challenging

subject not least because it brings out both the vilest and the noblest aspects of humanity. Margaret MacMillan looks at the ways in which war has influenced

human society and how, in turn, changes in political organization, technology, or ideologies have affected how and why we fight.

War: How Conflict Shaped Us explores such much-debated and controversial questions as:

When did war first start? Does human nature doom us to fight one another? Why has war been described as the most organized of all

human activities? Why are warriors almost always men? Is war ever within our control? Drawing on lessons from wars throughout the past, from classical

history to the present day, MacMillan

reveals the many faces of war—the way it has determined our past, our future, our views of the world, and our very conception of ourselves.

The Bedford Book of Genres Springer

Recipe for disaster: Celebrity chef

Stanley Chipotle comes to Trenton to participate in a barbecue cook-off and loses his head – literally. Throw in some

spice: Bail bonds office worker Lula is witness to the crime, and the only one she'll talk to is Trenton cop, Joe Morelli.

Pump up the heat: Chipotle's sponsor is offering a million-dollar reward to anyone who can provide information leading to the capture of the killers.

Stir the pot: Lula recruits bounty hunter Stephanie Plum to help her find the killers and collect the moolah. Add a

secret ingredient: Stephanie's Grandma Mazur. Enough said. Bring to a boil: Can

Stephanie hunt down two killers, a traitor, five skips, keep her grandmother out of the sauce, solve Ranger's

problems and not jump his bones?

Warning: Janet Evanovich's *Finger Lickin' Fifteen* is habanero hot. So good you'll want seconds.

A People's History of the United States

Macmillan Higher Education

US Environmental Policy in Action

provides a comprehensive look at the creation, implementation, and evaluation of environmental policy, which is of

particular importance in our current era of congressional gridlock, increasing partisan rhetoric, and escalating debates

about federal/state relations. Now in its second edition, this volume includes updated case studies, two new chapters

on food policy and natural resource policy, and revised public opinion data.

With a continued focus on the front lines of environmental policy, Rinfret and

Pautz take into account the major changes in the practice of US

environmental policy during the Trump administration. Providing real-life examples of how environmental policy works rather than solely discussing how congressional action produces environmental laws, *US Environmental Policy in Action* offers a practical approach to understanding contemporary American environmental policy.

McGraw-Hill's 10 ACT Practice Tests, Second Edition MacMillan Reference Library

This sweeping multi-generational love story introduces readers to mother-and-daughter pair Marilyn and Angie. To seventeen-year-old Angie, who is mixed-race, Marilyn is her hardworking, devoted white single mother. But Marilyn was once young, too. When Marilyn was seventeen, she fell in love with Angie's father, James, who was African-American. But Angie's never met him, and Marilyn has always told her he died before she was born. When Angie discovers evidence of an uncle she's never met she starts to wonder: What if her dad is still alive, too? So she sets off on a journey to find him, hitching a ride to LA from her home in New Mexico with her ex-boyfriend, Sam. Along the way, she uncovers some hard truths about herself, her mother, and what truly happened to her father.

History of the Second Seminole War, 1835-1842 Plum

The books in the Florida and the Caribbean Open Books Series demonstrate the University Press of Florida's long history of publishing Latin American and Caribbean studies titles that connect in and through Florida, highlighting the connections between the Sunshine State and its neighboring islands. Books in this series show how early explorers found and settled Florida and the Caribbean. They tell the tales of early pioneers, both foreign and domestic. They examine topics critical to the area such as travel, migration, economic opportunity, and tourism. They look at the growth of Florida and the Caribbean and the attendant pressures on the environment, culture, urban development, and the movement of peoples, both forced and voluntary. The Florida and the Caribbean Open Books Series gathers the rich data available in these architectural, archaeological, cultural, and historical works, as well as the travelogues and naturalists' sketches of the area prior to the twentieth century, making it accessible for scholars and the general public alike. The Florida and the Caribbean Open Books Series is made possible through a grant from the National Endowment for the Humanities and the Andrew W. Mellon Foundation, under the Humanities Open Books program.

Supernatural Random House

Like no other text for the intermediate microeconomics course, Goolsbee, Levitt, and Syverson's *Microeconomics* bridges the gap between today's theory and practice, with a strong empirical dimension that lets students test theory and successfully apply it. With carefully crafted features and vivid examples,

Goolsbee, Levitt, and Syverson's text helps answer two critical questions students ask, "Do people and firms really act as theory suggests?" and "How can someone use microeconomics in a practical way?" The authors teach in economics departments and business schools and are active empirical microeconomics researchers. Their grounding in different areas of empirical research allows them to present the evidence developed in the last 20 years that has tested and refined fundamental theories. Their teaching and professional experiences are reflected in an outstanding presentation of theories and applications.

War: How Conflict Shaped Us Routledge
Great-grandson of a crofter and son-in-law of a Duke, Harold Macmillan (1894-1986) was both complex as a person and influential as a politician. Marked by terrible experiences in the trenches in the First World War and by his work as an MP during the Depression, he was a Tory rebel - an outspoken backbencher, opposing the economic policies of the 1930s and the appeasement policies of his own government. Churchill gave him responsibility during the Second World War with executive command as 'Viceroy of the Mediterranean'. After the War, in opposition, Macmillan was one of the principal reformers of the Conservatives, and after 1951, back in government, served in several important posts before becoming Prime Minister after the Suez Crisis. Supermac examines key events including the controversy over the Cossacks repatriation, the Suez Crisis, You've Never Had It So Good, the Winds of Change, the Cuban Missile Crisis and the Profumo Scandal. The culmination of thirty-five years of research into this period by one of our most respected

historians, this book gives an unforgettable portrait of a turbulent age. Shortlisted for the Orwell Prize.

The War with Spain in 1898

Macmillan Higher Education
Part of the CBC Massey Lectures Series
In History's People internationally acclaimed historian Margaret MacMillan gives her own personal selection of figures of the past, women and men, some famous and some little-known, who stand out for her. Some have changed the course of history and even directed the currents of their times. Others are memorable for being risk-takers, adventurers, or observers. She looks at the concept of leadership through Bismarck and the unification of Germany; William Lyon MacKenzie King and the preservation of the Canadian Federation; Franklin Delano Roosevelt and the bringing of a unified United States into the Second World War. She also notes how leaders can make huge and often destructive mistakes, as in the cases of Hitler, Stalin, and Thatcher. Richard Nixon and Samuel de Champlain are examples of daring risk-takers who stubbornly went their own ways, often in defiance of their own societies. Then there are the dreamers, explorers, and adventurers, individuals like Fanny Parkes and Elizabeth Simcoe who manage to defy or ignore the constraints of their own societies. Finally, there are the observers, such as Babur, the first Mughal emperor of India, and Victor Klemperer, a Holocaust survivor, who kept the notes and diaries that bring the past to life. History's People is about the important and complex relationship between biography and history, individuals and their times.

In Search of Us *Webster's New World
In Happy & Whole, media personality, meteorologist and new mum Magdalena

Roze shares her favourite wholefood recipes inspired by her love of the weather and a sea change to Byron Bay. After swapping a hectic Sydney career for a slower pace of life, Magdalena has embraced a more natural way of living that focuses on a balanced approach to health, happiness and simplicity. Happy & Whole celebrates the food we like to eat in different types of weather - refreshing salads and picnics on sunny days, cooling drinks and exotic flavours

when it's humid, warm comforting foods when days are cool and cloudy, and rejuvenating dishes to make when it's raining outside. Interspersed through the pages are tips and advice for wellness, food for babies, creating simple bespoke gifts and ideas for making small, positive changes that nurture us so we, too, can learn to be happy and whole. This is a specially formatted fixed-layout ebook that retains the look and feel of the print book.
