Lectures on Administrative Law

Createspace Independent
Publishing Platform

This textbook has been
comprehensively written
to acquaint the students
with the fundamental
concepts of sociology as
well as provide an
introduction to the diverse
field of sociology.

Students will be
introduced to the origins
of sociology as a
discipline and would get
acquainted with relevant
topics such as inequality,
institutions, control,
change, disorganisation &
problems in the society.

Topics such as applied
sociology and social
thought have also been
provided to give a
complete overview of the
subject. This textbook not
only caters as a primary
text to the undergraduate
students of Sociology but
is also a useful reference
for postgraduate students
and aspirants appearing
for various competitive
examinations.

A Legal Theory Without Law IGI Global

The Common Law by
Oliver Wendell Holmes, Jr.
The Common Law is a
book that was written by

Oliver Wendell Holmes Jr.
in 1881, 21 years before
Holmes became an
Associate Justice of the
Supreme Court of the
United States. The book is
about common law in the
United States, including
torts, property, contracts,
and crime. It is written as
a series of lectures. One
of the most famous
aphorisms to be drawn
from this book occurs on
the first page: "The life of
the law has not been
logic: it has been
experience." Holmes's
pronouncement is a
subtle qualification of a
dictum by the famous
seventeenth-century
English jurist Sir Edward
Coke: "Reason is the life
of the law."

Indian Penal Code
Bloomsbury Publishing
Ernst-Joachim Mestmacker
reviews Richard Posner's
and Friedrich A.von
Hayek's legal theories.
Both are famous for their
contributions to law and
economics. They are,
however, adversaries in
their concepts of law and
how it is to be informed
by economics. Posner
finds the only scientific
legal theory in the
external (economic)
analysis of law. With
Friedrich von Hayek the
role of rules of conduct
and legislation is to be
determined by the

principles that govern a
free and competitive
order. There are, contrary
to Posner, important
contributions from legal
scholarship, legal history
and comparative law.

Jurisprudence and Legal Theory Textbook

S. Chand Publishing

The competent study of
law is a finely tuned
balance of excellent
language ability, good
reading and writing skills,
good personal study
discipline, a thorough
appreciation of the
relevant areas of
substantive law and
excellent argumentative
skills. Legal method is an
important area of study
for two main reasons.
First, it is important for
the range of techniques
that it can offer to break
into legal texts, both
primary and secondary.
Secondly, it exposes
reasoning processes
concerned with the theory
and practise of law. The
book deals in both the
areas mentioned, and
aims to deal with issues
of.

Jurisprudence S. Chand
Publishing

This landmark work,
which, according to

Winfield, "blew fresh air into lawyer's minds encrusted with Blackstone and Kent," was a decisive influence on sociological jurisprudence, legal realism and the general development of American law in the twentieth century. Winfield, Chief Sources of Anglo-American Law 38. Rejecting the reigning positivist ethos of the nineteenth century, Holmes proposed that the law was not a science founded on abstract universal principles but a body of practices that responded to particular situations. This functionalist interpretation led to his radical conclusion that law was not discovered, but invented. This theme is announced in the famous quote at the beginning of Lecture I: "The life of the law has not been logic: it has been experience" (1). A legendary figure in American law, Holmes [1841-1935] was Associate Justice of the U.S. Supreme Court from 1902-1932 and Chief Justice of the Massachusetts Supreme Judicial Court from 1899-1902.

Jurisprudence and Legal Theory

The Common Law Mohr Siebeck

Introduces students to legalistic, theoretical, empirical, comparative and cross-disciplinary research methods, grounded in working examples
New for this edition
New chapter on inter- and cross-disciplinary research
essential reading for international students and students with a non-law first degree
undertaking research in the areas of law, criminology, psychology and sociology
Research ethics has been expanded to a full chapter that includes current plagiarism and imperfect disclosure
Brings existing chapters up to date with the newest thinking in legal research
Drawing on actual research projects, Research Methods for Law

discusses how legal research as process impacts on research as product. The author team has a broad range of teaching and research experience in law, criminal justice and socio-legal studies, and give examples from real-life research products to illustrate the theory.

Legal Method Universal Law Publishing
A Corporate Professional is required to equip himself with regard to corporate compliances on day- to-day basis. There are number of compliances which are required to be complied with depending on the event , whether it is incorporation / conversion / change , etc., not only from Company Law point of view but also from SEBI Regulations point of view (in case of a listed company). To assist the professional in this endeavour, this book is yet another attempt to provide all related procedures at one place along with the resolutions to make it handy and easy to use. The Book has been divided into two parts. Division-I contains Company Law Procedures of more than 115 events. Each procedure has been divided into following heads: - Applicable

Section of the Companies Act, 2013 - Applicable Company Rule - Applicable Regulation in case of listed company - SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 - Synopsis (giving background of the section of the Companies Act, 2013) - Procedure (step by step, including various Government approvals and filing of Forms, etc.) - Compliance by a listed company in accordance with SEBI (LODR) Regulations, 2015 - Draft Board resolutions - Draft General Meeting resolutions (Special/Ordinary resolution) Division-II contains updated Company Rules as issued by the Ministry of Corporate Affairs from time to time and which are referred under various procedures of the Book. Jurisprudence for a New Age Edward Elgar Publishing
While there are many English books available on academic research methods and philosophy, many complain that they are difficult for budding, non-native English-speaking researchers to use and understand. Rather than hiding behind jargon, writers should

describe and define the concepts for the benefit of non-native English speakers. Social Research Methodology and Publishing Results: A Guide to Non-Native English Speakers explains methods commonly used in the field of academic research, provides stimulus to non-native English-speaking researchers for successful implementation of academic research, and meets the need for an appropriate course framework and materials for teaching research methodology. Covering topics such as pragmatism, research design, and empirical modeling, this premier reference source is a dynamic resource for educators and administrators of higher education, pre-service teachers, librarians, teacher educators, non-native English-speaking researchers, and academicians. A Text Book of Jurisprudence Edinburgh University Press
If you can't stand the heat, don't fall for a firefighter... Fire Chief Lincoln Reed is known for his heroics in the fire department and in the bedroom. Life is a never-ending good time. Until

she lands in the middle of the accident scene he's working...and then his backyard. Too bad she's immune to flirty first responders. Flight trauma surgeon Mackenzie O'Neil is on a crash course with burnout. She's got a scar on her face and a shake in her hands. A temporary job as a small-town family physician is just the prescription. She'll learn to meditate. Sleep more. Take up gardening. She definitely won't take her shirtless, firefighting neighbor's hot body for a test drive. But Linc and his tattoos are very persuasive. What's a harmless little adrenaline-fueled fling between neighbors? It's all naked fun and games until the shadows from Mack's past find their way into her present. Can Linc be her hero when she needs him the most or will their scars ruin everything? One thing is certain: Someone is going to get burned.

The Elements of Jurisprudence Universal Law Publishing

This book provides an overview of the content and functioning of the Indian Constitution, with an emphasis on the broader socio-political context. It focuses on the overarching principles and the main institutions of

constitutional governance that the world's longest written constitution inaugurated in 1950. The nine chapters of the book deal with specific aspects of the Indian constitutional tradition as it has evolved across seven decades of India's existence as an independent nation. Beginning with the pre-history of the Constitution and its making, the book moves onto an examination of the structural features and actual operation of the Constitution's principal governance institutions. These include the executive and the parliament, the institutions of federalism and local government, and the judiciary. An unusual feature of Indian constitutionalism that is highlighted here is the role played by technocratic institutions such as the Election Commission, the Comptroller and Auditor General, and a set of new regulatory institutions, most of which were created during the 1990s. A considerable portion of the book evaluates issues relating to constitutional rights, directive principles and the constitutional regulation of multiple forms of identity in India.

The important issue of constitutional change in India is approached from an atypical perspective. The book employs a narrative form to describe the twists, turns and challenges confronted across nearly seven decades of the working of the constitutional order. It departs from conventional Indian constitutional scholarship in placing less emphasis on constitutional doctrine (as evolved in judicial decisions delivered by the High Courts and the Supreme Court). Instead, the book turns the spotlight on the political bargains and extra-legal developments that have influenced constitutional evolution. Written in accessible prose that avoids undue legal jargon, the book aims at a general audience that is interested in understanding the complex yet fascinating challenges posed by constitutionalism in India. Its unconventional approach to some classic issues will stimulate the more seasoned student of constitutional law and politics.

Introduction to Jurisprudence

This Handbook presents innovative research that compares different

criminal procedure systems by focusing on the mechanisms by which legal systems seek to avoid error, protect rights, ground their legitimacy, expand lay participation in the criminal process and develop alternatives to criminal trials, such as plea bargaining, as well as alternatives to the criminal process as a

whole, such as intelligence operations. The criminal procedures examined in this book include those of the United States, Germany, France, Spain, Russia, India, Latin America, Taiwan and Japan, among others.
