SHANNON HUFFMAN

Adirondacks. Philippe Weisbecker McGill-Queen's Press - MQUP
 A wonderful book for anyone interested in starting their own homestead or small farm. This book will show you how to be self-reliant and build the things you'll need. There are more than 200 illustrations showing you how to make handy farm devices. You'll learn about the farmer's workshop and tools, running a grindstone, making a dumb waiter, making a cradle, how to clean a well, how to stake out stock, bee keeping, how to transplant trees, how to build a bridge for a small stream, how to keep a gate from sagging, important points in house building, how to build small greenhouses, advice on the best way to split wood, black smithing, and much, much more in this thrift-conscious and environmentally wise book.

2x4 Furniture Cool Springs Press

Begins with an in-depth history of the Tactical Urbanism movement and its place among other social, political, and urban planning trends. With a detailed set of case studies that demonstrate the breadth and scalability of tactical urbanism interventions, this book provides a detailed toolkit for conceiving, planning, and carrying out projects.

Ucando Project Plans Artisan

Shop tested expert advice for woodworkers on how to build 50 attractive and functional woodworking projects for all areas of the house from storage for the kitchen and the outdoors, to furniture and heirlooms. An ideal resource for woodworkers looking for a new project or wanting to spruce up their home, this book has plans for projects that can take a few hours, or up to a weekend to complete.

Black & Decker The Complete Guide to Outdoor Carpentry Schiffer Craft

For dreamers of escaping to a cozy cabin in the great outdoors, *Your Cabin in the Woods* is a classic work that not only makes this a reality, but also imparts a deeper appreciation of nature and homebuilding. Author Conrad E. Meinecke has been writing about living the simply life in the wilderness for over 70 years with *Your Cabin in the Woods* and *Cabin Craft and Outdoor Living*. For the first time, these books are combined into a deluxe two-color vintage package. In prose both practical and inspirational, Meinecke details how to turn your cabin dream into a reality, such as choosing land, using tools, and the basics of construction. He provides hand-drawn floor plans for a variety of cabins, from a simple two-room to a more complex long house; the best way to build fireplaces, both indoors and out; and instructions for basic furniture, lighting, and other touches that make a cabin feel like home. Throughout are Meinecke's thoughts on ways to enjoy your

new-found space, from hearty fireplace recipes to the types of wood for a perfect fire and the beauty found in birdsong. Instructional as it may be, the book's enduring appeal owes in large part to its warmly engaging tone and firm belief in the restorative power of nature and the satisfaction of hard work. He writes, "Take full enjoyment in the building. Take time out to rest. Most city folks seem always to rush things through. Why? Lay off until tomorrow. Take an afternoon nap. Stop the clock for the weekend. Get off to an early start in the cool of tomorrow morning. You may be crowded in your work in town, but this should be your rest cure, your recreating."

Outdoor Wood Projects UNC Press Books

Guide to easy-to-make furniture using inexpensive wood with detailed instructions and illustrations, including coffee table, sundial, kitchen cabinet.

Outdoor Woodworking Projects Fox Chapel Publishing

"This book is a collection of easy-to-build wood projects for your garden and backyard, each of which can be constructed in a single weekend"--

Great Book of Woodworking Projects Lark Books

This how-to kit contains the complete directions for building the best known furniture designs by Gerrit Rietveld documented with working drawings, measurements, details, material lists, and assembly directions along with a separate workbook.

How to Construct Rietveld Furniture Phaidon Press

Outdoor carpentry projects using cedar, redwood, and pressure-treated pine are perfect for DIYers of all skill levels, since the materials are easy to work with, and the results are rewarding. This book features more than 50 projects that easily can be built in a weekend with ordinary power hand tools and materials available at any local home center or hardware store. Each project has complete construction plans and directions for foolproof results.

Young House Love Penguin

Cutting and laminating, or gluing, wood for artistic effect and unique design has been part of woodworking throughout history. Now it's your turn to discover the beauty and complexity of "multi-generational" concepts. With today's improved tool technologies, this fun and surprisingly simple process is sure to become the average woodworking and home shop enthusiast's new playground. Nature provides the various wood grains, textures, and vibrant colors. Then, you combine those aspects into forms whose dimensions and variations are limited only by your imagination. Friendly instructions and helpful images break down the full-stripe pattern in three "generations," beginning with straight stripes, and resulting in kaleidoscopic, multi-contrast designs that will amaze your friends and family. The author covers, in detail, safety, jig design, tools, wood movement and moisture, and other woodworking basics. Using this foundation you can develop the lamination methods provided and eventually

your own with confidence.

[Laminated Wood Art Made Easy](#) Rodale Books

This work provides an insight into the history of Welsh stick chairs and includes instructions on how to make a chair, covering methods of bending the wood for chair construction. Illustrations show each stage in the building process.

[Making Rustic Furniture](#) Harry N. Abrams

"The perfect guide for anyone working with his hands."—Log Homes Illustrated. A renowned rustic furniture-maker captures the experience of a hands-on workshop and the simplicity of a popular craft. Comprehensive how-to photos, instructions, and many inspiring examples encourage anyone who can hammer a nail to create attractive and practical rustic furniture.

[Popular Mechanics](#) Hearst Books

By the nature of where it spends its life, outdoor furniture has to be designed, first and foremost, to withstand its toughest enemy--the elements. This book includes projects for durable outdoor chairs, benches, tables, swings, gliders, and other garden structures.

[Welsh Stick Chairs](#) Taunton

This book is based on an Adirondack furniture book donated to

Philippe Weisbecker 20 years ago by a New York friend who worked in a hardware store. "I've always loved rustic furniture, made from stumps, branches or pieces of wood. Initially I wanted to faithfully reproduce the furniture in the book. Very quickly, I realized that I was especially interested in the skeleton of these pieces of furniture, their structures and the vectors of force that govern them. Little by little, I even came to free myself from these parameters to arrive at simpler structural compositions, halfway between figuration and abstraction." Philippe Weisbecker Born in 1942, Weisbecker studied interior design in Paris. By 1968 he moved to New York. First working as a draftsman in an architectural firm, he started a career as an illustrator at the age of 30. His work has been published in major American publications such as the New York Times, Time magazine and The New Yorker among others. In the late 90's he shifted gradually from commissioned work to his own original production which he is now showing in galleries worldwide. Moving back to France in 2006, he is now sharing his time between Paris and Barcelona.

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

[Tactical Urbanism](#) Storey Publishing, LLC

The author measured original Stickley furniture pieces to create these detailed plans, not available from any other source. The author is a Master Cabinet Maker and Executive Editor at Popular Woodworking Magazine. Intermediate woodworkers can use these plans to build authentic replicas of valuable period pieces at low cost. The ongoing renaissance of the Craftsman style has already lasted longer than the original period, and is here to stay. Furniture making is part of the fastest growing category -- "woodcrafts" -- in the \$31 billion craft industry.
