CLICK HERE to download a sample advanced, intermediate and beginner route from Backcountry Ski & Snowboard Routes Oregon * Includes 120 black-and-white photos and 90 maps * Routes coverage ranges from Lassen Peak, through Oregon, up to Mount St. Helens The first guidebook in a new Backcountry Ski & Snowboard Series from Mountaineers Books, Backcountry Ski & Snowboard Routes: Oregon describes nearly 100 of the best and most classic mountain routes that will exhilarate and challenge winter backcountry seekers. Although many of these routes are geared toward intermediate and expert skiers and boarders, there are also appropriate routes for those just getting into the backcountry for the first time. Full state coverage includes more than 30 routes on Mount Hood alone, and ranges across Mount Jefferson, the Three Sisters and Bend area,

Willamette Pass and Mount Bailey, Crater Lake National Park, the southern Cascades, Steens, and the Wallowas and Blue Mountains regions. There are also classic routes just over the borders -- Mount Shasta and Lassen Peak in Northern California and Mount St. Helens, Mount Adams, and Muir Snowfield in Washington. Many of these routes are selected for their straightforward approaches. Sections describe avalanche safety, best resources, gear, Oregon backcountry laws, and routes by best season and skill level. This is a guidebook to get snowboarders and skiers out in the mountains for quality fun! **WHAT THEY'RE SAYING ABOUT BACKCOUNTRY SKI & SNOWBOARD ROUTES OREGON:** "Van Tilburg's new book provides extensive, easy-to-read information on the majority of the ski and snowboard objectives in the greater Oregon region and should be considered a mandatory addition to a local backcountry enthusiast's library." -- Off Piste magazine

Gain Without Pain.
Learning to snowboard

can be easy and painless—with the right instruction. In this groundbreaking book, Danny Martin, the most sought-after snowboarding instructor today, teaches you how to snowboard in just three days—and without falling. While the American Association of Snowboard Instructors tells its members, "Your students will fall," Danny Martin shows you that there can be gain without pain: he has single-handedly revolutionized the way the sport is taught, and in *No-Fall Snowboarding* he reveals his techniques. Firmly grounded in physical fitness and martial arts and designed so everyone—beginners, skiers, even seasoned snowboarders—can practice at home, *No-Fall Snowboarding* will teach you how to: -Learn proper snowboarding techniques long before hitting the mountain -Create balance with easy, specific body movements -Find the perfect board, gear, places to board -Get over bad habits -Avoid typical twisting motions guaranteed to cause falling Filled with dozens of stunning photographs by renowned photographer Mark Seliger, *No-Fall*

Snowboarding is the go-to guide for people of all ages and skill levels who want to learn America's fastest growing sport.

The Engineering Approach to Winter Sports presents the state-of-the-art research in the field of winter sports in a harmonized and comprehensive way for a diverse audience of engineers, equipment and facilities designers, and materials scientists. The book examines the physics and chemistry of snow and ice with particular focus on the interaction (friction) between sports equipment and snow/ice, how it is influenced by environmental factors, such as temperature and pressure, as well as by contaminants and how it can be modified through the use of ski waxes or the microtextures of blades or ski soles. The authors also cover, in turn, the different disciplines in winter sports: skiing (both alpine and cross country), skating and jumping, bob sledding and skeleton, hockey and curling, with attention given to both equipment design and on the simulation of gesture and track optimization.

Some of the northern Adirondacks' most beloved ski areas have sadly not survived the test of time despite the pristine powder found from the High Peaks to

the St. Lawrence. Even after hosting the Winter Olympics twice, Lake Placid hides fourteen abandoned ski areas. In the Whiteface area, the once-prosperous resort Paleface, or Bassett Mountain, succumbed after a series of bad winters. Juniper Hills was "the biggest little hill in the North Country" and welcomed families in the Northern Tier for more than fifteen years. Big Tupper in Tupper Lake and Otis Mountain in Elizabethtown defied the odds and were lovingly restored in recent years. Jeremy Davis of the New England/Northeast Lost Ski Areas Project rediscovers these lost trails and shares beloved memories of the people who skied on them.

No-Fall Snowboarding
Gordon Soules Book Publishers
This is the first book to examine the role of women in the origins, development and contemporary landscape of snowboarding. Focusing on organised and professional snowboarding, it explores the significance of women as participants, coaches, leaders, and high-profile sport stars. The book explores the history of snowboarding, the organisation of international snowboarding, issues related to facilities, competition formats which are the same for female and male riders, and injury risk, safeguarding, training and coaching. Before the concluding chapter, three elite snowboarders representing different epochs and riding styles – Åshild Lofthus, Stine Brun Kjeldaas, and Kjersti Buaas – are introduced, whose narratives shed light on the main themes

of the book. With a broad scope in terms of topics and academic disciplines, from medicine and biomechanics to the social sciences and sport governance, the book is grounded in sociology and gender studies. This book is fascinating reading for scholars and students with an interest in the sociology of sport, coaching, sport management, sport history or interdisciplinary perspectives in sport science, or anybody with a passion for snowboarding.

"Doug Coombs had a huge impact on my life; much of my overall approach to mountains comes from his example. I am so grateful that, thanks to author Rob Cocuzzo, I now have the complete story of what influenced one of my biggest heroes." - Jeremy Jones, snowboarding legend "In the 1980s, I was lucky enough to be part of the Bozeman gang of ex-ski racers in one of the crucibles of the American steep skiing scene. Robert Cocuzzo accurately captures the amazing Doug and Emily Coombs that I knew then and the myriad of Coombs ski stories." - Bruce Tremper, avalanche expert and author of Staying Alive in Avalanche Terrain "Doug Coombs was an inspiration to me and so many others on and off the mountain. Now, here is an insightful look at the life of a legend." Jimmy Chin, climber-photographer • A thrilling biography of renowned extreme skiing

pioneer Doug Coombs
Arguably the greatest extreme skier to ever live, Doug Coombs pioneered hundreds of first descents down the biggest, steepest, most dangerous mountains in the world—from the Grand Teton “Otter Body” in Jackson Hole, to Mount Vinson, the highest point in Antarctica, to far-flung drops such as Wyatt Peak in Kyrgyzstan. He graced magazine covers, wowed moviegoers, became the face of top ski companies, and ascended as the king of big mountain extreme skiing.

Ski Europe takes skiers step by step through planning the winter vacation of their dreams in the Alps in Austria, Italy, Switzerland or France as well as major resorts in Spain and Andorra. Just like here in the United States or Canada, every European resort has its quirks and specialties, notes Leocha. Seasoned skiers know that some resorts are better for singles, others better for families. Some offer cozy chalets, others

feature modern hotels right on the slopes. And while one resort may be heaven for beginning skiers it may be boring for the expert. Ski Europe organizes all the necessary information to make intelligent choices and provides the phone numbers to make reservations and plans. Over more than a decade Ski Europe has become known for its no-holds-barred, brutally honest reports on reality at ski resorts. Ski Europe takes no advertising, has no ax to grind, and, like Ski America and Canada, is written by Leocha together with an international team of prize-winning ski and snowboard journalists. *Backcountry Skiing Utah* Human Kinetics
