How to Raise a Chatterbox DK Publishing
(Dorling Kindersley)
who likes to chat'. Isn't that what we all
want for our children? A love of language
and talking? How to Raise a Chatterbox
guides parents through the stages of
speech and language development from
age 0-5, providing information,
strategies, and tips that will help
children to learn to talk more easily and

more confidently. The book discusses
the reasons behind the advice and the
research studies that support it so that
parents can make an informed decision
about which advice they choose to
follow. The book includes hundreds of
suggestions for games and activities.
Parents don't need to make any more
time in their day; they can simply adapt
daily activities such as getting dressed,
eating meals, travelling in the car etc.
Sandy has also included lots of games
and activities that they can do with their
child to give them an extra boost, if they

have the time. Parents don't need to buy any special materials; she gives suggestions of how household objects and simple toys can be used to make great speech and language activities. A child's speech and language skills may be developing as parents would expect but they simply want them to be the best they can be before they start school; or parents may feel they are behind in certain areas and would like specific guidance to help them to catch up. This book is for all parents, grandparents and carers of pre-school children who want to make the most of those precious pre-school years that fly by, and that we now know give us the best opportunity to 'Raise a Chatterbox'.
