Little Red Train: Faster, Faster Nickelodeon
The world to which the Gospel of Mark introduces its reader is a world of conflicts and suspense, enigmas and secrets, questions and overturning of evidence, irony and surprise. Its principal actor, Jesus, is perplexing in the extreme. He is evidently so for the religious authorities who oppose him, but also for his disciples, who shift from incomprehension to

opposition and flight. Questions of meaning, life and death, good and evil are continually broached. This narrative is a subtle invitation to enter into a new world, that of the coming Reign of God, in which the first are last and whoever wants to save his life must lose it. This commentary on the Gospel of Mark has been enthusiastically reviewed in the French edition as one of the best current commentaries on Mark. As a narrative critical commentary, it favors an interpretation of the Gospel that tries to grasp the dynamic of the text taken as a

whole. Even if the technical vocabulary of narrative analysis is not used, and the main results of the historical-critical criticism, particularly those of redaction criticism, are not neglected, as the notes will reveal, it is narrative criticism that guides the proceedings.

Mosaic Reader - 6 Flatiron Books

In 24/6, Tiffany Shlain explores how turning off screens one day a week can work wonders on your brain, body, and soul. Internet pioneer and renowned filmmaker Tiffany Shlain takes us on a provocative and entertaining journey

through time and technology, introducing a strategy for living in our 24/7 world: turning off all screens for twenty-four hours each week. This practice, which she's done for nearly a decade with her husband and kids (sixteen and ten), has completely changed their lives, giving them more time, productivity, connection, and presence. She and her family call it "Technology Shabbat." Drawn from the ancient ritual of Shabbat, living 24/6 can work for anyone from any background. With humor and wisdom, Shlain shares her story, offers lessons she has learned, and provides a blueprint for how to do it yourself. Along the way, she delves into the neuroscience, philosophy, psychology, and history of a weekly day of rest across cultures, making the case for why we need to bring this ritual back. A compelling personal story and a fascinating, far-reaching examination of the complex world we've created, 24/6 is a call to rebalance ourselves and our society.

An international bestseller from French author Jean-Paul Didierlaurent, *The Reader on the 6.27* is ready to take you on a journey . . . Guylain Vignolles lives on the edge of existence. Working at a book pulping factory in a job he hates, he has but one pleasure in life . . . Sitting on the 6.27 train each day, Guylain recites aloud from pages he has saved from the jaws of his monstrous pulping machine. But it is when he discovers the diary of a lonely young woman, Julie - a woman who feels as lost in the world as he does - that his journey will truly begin . . . *The Reader on the 6.27* is a tale bursting with larger-than-life characters, each of whom touches Guylain's life for the better. For fans of *Amelie* and *Mr Penumbra's 24-hour Bookstore*, this captivating novel is a warm, funny fable about literature's power to uplift even the most downtrodden of lives.

What is the sixth sense? Is it physical, mental or spiritual? Do we all possess it or is it unique to exceptional individuals? Might there be a seventh sense and an eighth sense as well? What role does culture play in determining the range of our perceptual abilities? The search for a supplementary sense has taken many directions and yielded numerous possibilities for an "additional faculty" of perception - from magnetism and movement to dreaming and clairvoyance. Stimulating reflection and debate, *The Sixth Sense Reader* explores the cultural

contexts which give rise to such reports of "psychic" and other powers that exceed the ordinary bounds of sense. In this groundbreaking volume, leading scholars in history, anthropology and biology take the reader on a tour of the far borderlands of consciousness. From the world beneath to the world beyond the five senses, every potential avenue of sensation is opened up for investigation.

Shifting the Balance, 3-5 Graphix

The Reader in the Book is concerned with a particular aspect of the history of the book, an archeology and sociology of the use of margins and other blank spaces. One of the most commonplace aspects of old books is the fact that people wrote in them, something that, until very recently, has infuriated modern collectors and librarians. But these inscriptions constitute a significant dimension of the book's history, and what readers did to books often added to their value. Sometimes marks in books have no relation to the subject of the book, merely names, dates, prices paid; blank spaces were used for pen trials and doing sums, and flyleaves are occasionally the repository of records of various kinds. *The Reader in the Book*

deals with that special class of books in which the text and marginalia are in intense communication with each other, in which reading constitutes an active and sometimes adversarial engagement with the book. The major examples are works that are either classics or were classics in their own time; but they are seen here as contemporaries read them, without the benefit of centuries of commentary and critical guidance. The underlying question is at what point marginalia, the legible incorporation of the work of reading into the text of the book, became a way of defacing it rather than of increasing its value-why did we want books to lose their history?

One line straight down. One line to the right. One line to the left, then a circle. That was all—just three lines in a circle. This bold picture book tells the story of the peace symbol—designed in 1958 by a London activist protesting nuclear weapons—and how it inspired people all over the world. Depicting the symbol's travels from peace marches and liberation movements to the end of apartheid and the fall of the Berlin Wall, *Three Lines in a Circle* offers a message of inspiration to today's children and adults who are working to create social change. An author's note provides historical background and a time line of late twentieth-century peace movements.

INTERNATIONAL BESTSELLER • Hailed for its coiled eroticism and the moral claims it makes upon the reader, this mesmerizing novel is a story of love and secrets, horror and compassion, unfolding against the haunted landscape of postwar Germany. "A formally beautiful, disturbing and finally morally devastating novel." —Los Angeles Times When he falls ill on his way home from school, fifteen-year-old Michael Berg is rescued by Hanna, a woman twice his age. In time she becomes his lover—then she inexplicably disappears. When Michael next sees her, he is a young law student, and she is on trial for a hideous crime. As he watches her refuse to defend her innocence, Michael gradually realizes that Hanna may be guarding a secret she considers more shameful than murder. *Busy Busy Busy* (Let's Go 3rd ed. Shifting the Balance 3-5: 6 Ways to Bring the Science of Reading into the Upper Elementary Classroom. This new text is built in mind specifically for grades 3-5 teachers around best practices for the intermediate classroom. *Shifting the Balance 3-5* introduces six more shifts across individual chapters that: Zoom in on a common (but not-as-helpful-as-we-had-hoped) practice to reconsider Untangle a number of "misunderstandings" that have likely contributed to the use of the common practice Propose a more science-aligned shift to the current practice Provide solid scientific research to support the revised practice Offer a collection of high-leverage, easy-to-implement instructional routines to support the shift to more brain-friendly instruction The authors offer a refreshing approach that is respectful, accessible, and practical - grounded in an earnest commitment to building a bridge between research and classroom practice. As with the first *Shifting the Balance*, they aim to keep students at the forefront of reading instruction.
