BRANSON RANDY

The Papers of Thomas Bowrey, 1669-1713 Scholastic Inc.

Today's global politics demands a new look at the concept of territory. From so-called deterritorialized terrorist organizations such as al-Qaeda to U.S.-led overthrows of existing regimes in the Middle East, the relationship between territory and sovereignty is under siege. Unfolding an updated understanding of the concept of territory, Stuart Elden shows how the contemporary "war on terror" is part of a widespread challenge to the connection between the state and its territory. Although the importance of territory has been disputed under globalization, territorial relations have not come to an abrupt end. Rather, Elden argues, the territory/sovereignty relation is being reconfigured. Traditional geopolitical analysis is transformed into a critical device for interrogating hegemonic geopolitics after the Cold War, and is employed in the service of reconsidering discourses of danger that include "failed states," disconnection, and terrorist networks. Looking anew at the "war on terror"; the development and application of U.S. policy; the construction and demonization of rogue states; events in Lebanon, Somalia, and Pakistan; and the wars continuing in Afghanistan and Iraq, *Terror and Territory* demonstrates how a critical geographical analysis, informed by political theory and history, can offer an urgently needed perspective on world events. *The Athenaeum* Penguin UK

Jurnee is a recent college graduate struggling desperately to find a job as a teacher. Discouraged, she happens upon a chance opportunity to teach in a village in southern India. Overcoming anxiety, self-doubt, and cultural differences, she finds a home in her new surroundings. See India from her eyes as she narrowly escapes an arranged marriage, learns where cashews come from, encounters a king cobra snake, and finds love in the most unexpected of places. Come along with Jurnee as she learns about herself and about a whole new world. Based on the author's real experiences, you're sure to be on the edge of your seat.

Balkan Ghosts Faber & Faber

A weekly review of politics, literature, theology, and art.

A catalogue of books Other Press, LLC

Unlike many of the works on the Yugoslav wars written during and just after the crisis, *Yugoslavia Unraveled* delves beyond 'who did what to whom' to examine underlying issues regarding the sources of religious nationalism and inter-ethnic conflict, the territorial integrity and sovereignty of states, and the principle of self-determination and the right of secession from an existing state. This volume raises essential questions pertaining to the legality and morality of military intervention by external powers without U.N. sanction, and to nation-building by outside powers in war-devastated territories. The book also explores the nature of media propaganda in times of war. Editor Raju G. C. Thomas and the prominent contributors provide fresh views and alternative explanations for the unraveling of a sovereign independent state following the end of the Cold War and in a world

without countervailing power.

Turning Two Macmillan

A powerful study of King Philip's War and its enduring effects on histories, memories, and places in Native New England from 1675 to the present

A Catalogue of Books for 1812 Rowman & Littlefield Publishers

In *Turning Two*, Bud Harrelson delivers a team memoir as he takes fans through the early seasons, sudden success, lean years, and return to glory. Only one man, Harrelson, can say he was in uniform for both New York Mets world championships: as the shortstop who anchored the infield of the 1969 "Miracle Mets" and then as the third-base coach for the storied 1986 team. Born on D-day 1944, the Alameda County, California, native made his Major League debut with the Mets in 1965. At 147 pounds he was the team's Everyman--a Gold Glove, All-Star shortstop who won the hearts of fans with his sparkling defensive skills and trademark brand of gritty, scrappy baseball. Harrelson recalls how the gentle yet firm guidance of manager Gil Hodges shaped a stunning success story in '69. Bud remembers the game's legends he played with and against, including Hall of Famers Tom Seaver, Nolan Ryan, Roberto Clemente, Bob Gibson (against whom he compiled a .333 career batting average), and his idol, Willie Mays--Harrelson's teammate on the 1973 "Ya Gotta Believe" team. Harrelson writes of his famous fight with Pete Rose in the playoffs that autumn as the Mets upset the Cincinnati Reds to win the National League pennant and squared off against the mighty Oakland A's in a dramatic seven-game World Series. After retiring as a player, Bud returned to Shea Stadium as Davey Johnson's third-base coach in 1985 and waved Ray Knight home for the winning run in the unforgettable Game 6 of the 1986 World Series. Harrelson takes us in the dugout and on the field as he tells thrilling tales from his career and speaks candidly of the state of the game today. *Turning Two* is the ideal souvenir from the first half-century of the New York Mets--and from the pre-steroid era when players played the game the right way and did the little things to help their teams win. Bud Harrelson in *Turning Two* On Gil Hodges "Hodges accomplished his goal with compassion and a gentle hand and attained discipline simply by being such an imposing physical specimen. He rarely lost his temper, but on the few occasions that he did, you can bet he got our attention." On *Battling at the Plate* "I have always said I'll take God to three-and-two and take my chances. I might foul two off before He gave me ball four." On 1969 "Torre hit a smash to me at short and I'm thinking, Don't screw up the throw; don't rush it. I knew I could catch it. I just wanted to be sure to make a good, firm throw right at the chest of Al Weis at second base. I tossed it to Weis and he turned it over to Clendenon at first for the double play and we had won the Mets' first title. We were the first champions of the National League East." On *Playing with Willie Mays* "I reached up to catch the ball and as I did, I stepped on Willie's foot. Oh, no! 'Hey, Pee Wee, what are you doing out here?' he squealed. 'I didn't hear anything,' I said. 'I don't call for the ball,' he said. 'Well,' I said, 'if you don't want to get stepped on again, you better start calling for it.' The next time he was in center field and there was a pop fly, he called for it." On Tom Seaver to M. Donald Grant "Mr. Grant, you know why we're doing so well? See that little guy in the corner over there"--and he was pointing

right at me--"that guy whose salary you cut? He's the reason we're winning." On Game 6 "I leaned over to Mitchell and reminded him to be alert and be ready to take off if Stanley threw one in the dirt."

In Chinese societies, Chinese identity is an important yet controversial topic. This book examines official understandings of Chinese identity in Mainland China and Hong Kong, exploring how the latest governments of Mainland China and Hong Kong conceptualize Chinese identity; how government-endorsed textbooks frame it in different subjects; and how a multicultural approach can enhance understanding of identity in both societies. Using content analysis to support his theoretical arguments, Lin offers an in-depth, updated, and detailed picture of how the governments of Mainland China and Hong Kong, and their endorsed textbooks, encourage people in these societies to respond to the question of "who are we?". He also elaborates on how the current approach to understanding Chinese identity can be harmful, and examines how a multicultural approach could better fit these Chinese contexts and enhance understanding of "who are we?". Given that the question of identity causes trouble everywhere, and many countries are debating approaches to understanding diverse identities in their own societies, this book provides valuable insights into the Chinese perspective, to allow readers to more fully understand global frameworks of identity. This book will interest researchers and students in the fields of multiculturalism, multicultural education, national identity, identity politics, and China and Hong Kong studies.

Sotheran's Price Current of Literature Taylor & Francis

Things New and Strange chronicles a research quest undertaken by G. Wayne Clough, the first secretary of the Smithsonian Institution born in the South. Soon after retiring from the Smithsonian, Clough decided to see what the Smithsonian collections could tell him about South Georgia, where he had spent most of his childhood in the 1940s and 1950s. The investigations that followed, which began as something of a quixotic scavenger hunt, expanded as Clough discovered that the collections had many more objects and documents from South Georgia than he had imagined. These objects illustrate important aspects of southern culture and history and also inspire reflections about how South Georgia has changed over time. Clough's discoveries—animal, plant, fossil, and rock specimens, along with cultural artifacts and works of art—not only serve as a springboard for reflections about the region and its history, they also bring Clough's own memories of his boyhood in Douglas, Georgia, back to life. Clough interweaves memories of his own experiences, such as hair-raising escapes from poisonous snakes and selling boiled peanuts for a nickel a bag at the annual auction of the tobacco crop, with anecdotes from family lore, which launches an exploration of his forebears and their place in South Georgia history. In following his engaging and personal narrative, we learn how nonspecialists can use museum archives and how family, community, and natural history are intertwined.

HANDBOOK OF AMERICAN INDIANS Taylor & Francis

The Human Journey offers a truly concise yet satisfyingly full history of the world from ancient times to the present. Its themes include not only the great questions of the humanities—nature versus nurture, the history and meaning of human variation, the sources of wealth, and causes of revolution—but also the major transformations in human history: agriculture, cities, iron, writing,

universal religions, global trade, industrialization, popular government, justice, and equality. Beginning with our most important questions and searching all of our past for answers, this is world history in a grand humanistic tradition.

The Naturalists' Leisure Hour and Monthly Bulletin Macmillan + ORM

Now in its Twenty-Second Edition, Hook, Spanier, and Grove's American Foreign Policy Since World War II has long set the standard in guiding students through the complexities of American foreign policy. The text introduces students to the American "style" of foreign policy, imbued with a distinct sense of national exceptionalism. By giving students the historical context they need, this book allows them to truly grasp the functions and dysfunctions of the nation's foreign policy agenda with historical insight into modern policy context.

Athenaeum and Literary Chronicle University of Georgia Press

A new edition of the classic travelogue exploring the Balkan Peninsula's political, social, religious, and economic past. From the assassination that triggered World War I to the ethnic warfare in Serbia, Bosnia, and Croatia, the Balkans have been the crucible of the twentieth century, the place where terrorism and genocide first became tools of policy. Chosen as one of the Best Books of the Year by the New York Times, and greeted with critical acclaim as "the most insightful and timely work on the Balkans to date" (Boston Globe), Kaplan's prescient, enthralling, and often chilling political travelogue is already a modern classic. This new edition of *Balkan Ghosts* includes six opinion pieces written by Robert Kaplan about the Balkans between 1996 and 2000, beginning just after the implementation of the Dayton Peace Accords and ending after the conclusion of the Kosovo war, with the removal of Slobodan Milosevic from power. Praise for *Balkan Ghosts* "The product of over a decade of travel and research, this is one of precious few works that allows a Western reader a look into the tortured soul of the Balkan peoples. . . . A superior narrative. . . . Kaplan is a master of this genre." —Library Journal "A memorable portrait of an increasingly important region." —Kirkus Review

The Catalogue of the Public Library of Victoria Yale University Press

In this funny chapter book from the bestselling middle grade adventure series, time travel to ancient civilizations with a beloved mouse journalist. Imagine my surprise when I, Geronimo Stilton, was offered the chance to travel back in time again! Professor Paws von Volt entrusted me to lead my family on a secret journey in his new time machine. This voyage took us to ancient Rome, to the great Maya Empire, and to the Palace of Versailles during the age of the Sun King! Along the way I competed in a scary chariot race, saved some mouselings from a hungry jaguar, and was forced to organize a huge party for the king who had everything. What a wild trip through history! Praise for Geronimo Stilton's books: "Lightning pace and full-color design will hook kids in a flash." —Publishers Weekly

Exit Into History Mondo Pub

'A book that takes you on an intimate journey through Eastern Europe at a time when the dust was still settling from the collapse of the Berlin Wall. Eva Hoffman travels from the Baltic to the Black Sea, building a compelling portrait of a region uncertain about its future.' Independent Shortly after the epochal events of 1989 Eva Hoffman spent several months in her native Poland and four other countries: the then-Czechoslovakia, Hungary, Romania and Bulgaria. She visited capital cities,

wayside villages and provincial towns; stopped at shipyards, museums, and the coffee-houses of the intelligentsia; and talked to a great variety of people about the tumult they had lived through. Exit into History was the result: a portrait of the mosaic of the new Eastern Europe, a reconstruction of the turbulent post-war decades, and a meditation on the uses and misuses of historical memory.

Things New and Strange Yale University Press

Journey back in time with Geronimo in this fabumouse special edition! I, Geronimo Stilton, never expected to set paw inside a time machine. But when Professor Paws von Volt invited me to travel with him, I had to accept! My family came along to help us discover how the dinosaurs became extinct, how the Great Pyramid of Giza was built, and what life was like at King Arthur's court. Along the way I was chased by a Tyrannosaurus rex, almost eaten by a crocodile in the Nile, and asked to save a maiden from an evil knight's castle. Holey cheese! It was an adventure through history!

... Handbook of American Indians North of Mexico: N-Z CQ Press

Questioning popular belief, a historian and re-examines what exactly led to the British Empire's loss of the American Revolution. The loss of America was an unexpected defeat for the powerful British Empire. Common wisdom has held that incompetent military commanders and political leaders in Britain must have been to blame, but were they? This intriguing book makes a different argument. Weaving together the personal stories of ten prominent men who directed the British dimension of the war, historian Andrew O'Shaughnessy dispels the incompetence myth and uncovers the real reasons that rebellious colonials were able to achieve their surprising victory. In interlinked biographical chapters, the author follows the course of the war from the perspectives of King George III, Prime Minister Lord North, military leaders including General Burgoyne, the Earl of Sandwich, and others who, for the most part, led ably and even brilliantly. Victories were frequent, and in fact the British conquered every American city at some stage of the Revolutionary War. Yet roiling political complexities at home, combined with the fervency of the fighting Americans, proved fatal to the British war effort. The book concludes with a penetrating assessment of the years after Yorktown, when the British achieved victories against the French and Spanish, thereby keeping intact what remained of the British Empire. "A remarkable book about an important but curiously underappreciated subject: the British side of the American Revolution. With meticulous scholarship and an eloquent writing style, O'Shaughnessy gives us a fresh and compelling view of a critical aspect of the struggle that changed the world."—Jon Meacham, author of *Thomas Jefferson: The Art of Power*

American Foreign Policy Since World War II Scholastic Inc.

'He writes history like nobody else. He thinks like nobody else ... He sees the world as a whole, with its limitless fund of stories' Bryan Appleyard, *Sunday Times* Where have the people in any particular place actually come from? What are the historical complexities in any particular place? This evocative historical journey around the world shows us. 'Human history is a tale not just of constant change but equally of perpetual locomotion', writes Norman Davies. Throughout the ages, men and women have endlessly sought the greener side of the hill. Their migrations, collisions, conquests and interactions have given rise to the spectacular profusion of cultures, races, languages and politics that now proliferates on every continent. This incessant restlessness inspired Davies's own. After decades of writing about European history, and like Tennyson's ageing Ulysses longing for one last

adventure, he embarked upon an extended journey that took him right round the world to a score of hitherto unfamiliar countries. His aims were to test his powers of observation and to revel in the exotic, but equally to encounter history in a new way. *Beneath Another Sky* is partly a historian's travelogue, partly a highly engaging exploration of events and personalities that have fashioned today's world - and entirely sui generis. Davies's circumnavigation takes him to Baku, the Emirates, India, Malaysia, Mauritius, Tasmania, Tahiti, Texas, Madeira and many places in between. At every stop, he not only describes the current scene but also excavates the layers of accumulated experience that underpin the present. He tramps round ancient temples and weird museums, summarises the complexity of Indian castes, Austronesian languages and Pacific explorations, delves into the fate of indigenous peoples and of a missing Malaysian airliner, reflects on cultural conflict in Cornwall, uncovers the Nazi origins of Frankfurt airport and lectures on imperialism in a desert oasis. 'Everything has its history', he writes, 'including the history of finding one's way or of getting lost.' The personality of the author comes across strongly - wry, romantic, occasionally grumpy, but with an endless curiosity and appetite for knowledge. As always, Norman Davies watches the historical horizon as well as what is close at hand, and brilliantly complicates our view of the past.

The Lucubrations of Isaac Bickerstaff, Esq U of Minnesota Press

Elda Willitts recounts for the Ellis Island Oral History Project her childhood journey to America from Italy in 1916.

Beneath Another Sky

Part I. Diary of a Six Weeks' Tour in 1698 in Holland and Flanders. Part II. The Story of the Mary Galley, 1704-1710 This is a new print-on-demand hardback edition of the volume first published in 1927. Owing to technical constraints it has not been possible to reproduce "Map 4: Charts of the Essex and Kentish Coasts about the Estuary of the Thames, drawn by Thomas Bowrey to illustrate his voyages in his yacht, the Duck, 1690-1701" which appeared in the first edition of the work.

Back in Time

Drawing on a wealth of previously unexamined material, this staggering account sheds new light on the Allies' responsibility for a landmark agreement that had dire consequences. On returning from Germany on September 30, 1938, after signing an agreement with Hitler on the carve-up of Czechoslovakia, Neville Chamberlain addressed the British crowds: "My good friends...I believe it is peace for our time. We thank you from the bottom of our hearts. Go home and get a nice quiet sleep." Winston Churchill rejoined: "You have chosen dishonor and you will have war." P. E. Caquet's history of the events leading to the Munich Agreement and its aftermath is told for the first time from the point of view of the peoples of Czechoslovakia. Basing his work on previously unexamined sources, including press, memoirs, private journals, army plans, cabinet records, and radio, Caquet presents one of the most shameful episodes in modern European history. Among his most explosive revelations is the strength of the French and Czechoslovak forces before Munich; Germany's dominance turns out to have been an illusion. The case for appeasement never existed. The result is a nail-biting story of diplomatic intrigue, perhaps the nearest thing to a morality play that history ever furnishes. The Czechoslovak authorities were Cassandras in their own country, the only ones who could see Hitler's threat for what it was, and appeasement as the disaster it proved to be. In

Caquet's devastating account, their doomed struggle against extinction and the complacency of

their notional allies finally gets the memorial it deserves.
