Scores of talented and dedicated people
serve the forensic science community,
performing vitally important work.
However, they are often constrained by
lack of adequate resources, sound policies,
and national support. It is clear that
change and advancements, both
systematic and scientific, are needed in a
number of forensic science disciplines to
ensure the reliability of work, establish
enforceable standards, and promote best
practices with consistent application.
Strengthening Forensic Science in the

United States: A Path Forward provides a
detailed plan for addressing these needs
and suggests the creation of a new
government entity, the National Institute
of Forensic Science, to establish and
enforce standards within the forensic
science community. The benefits of
improving and regulating the forensic
science disciplines are clear: assisting law
enforcement officials, enhancing
homeland security, and reducing the risk
of wrongful conviction and exoneration.
Strengthening Forensic Science in the
United States gives a full account of what
is needed to advance the forensic science

disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Stumbling into India on an accidental layover 1980, she got drawn into a seeker's journey, searching for truth and encountering the many remarkable men and women, gurus and teachers, who would act as guides for her decades in India. From Sai Baba to Sri Sri Ravi Shankar, from Anandamayi Ma to Amma, she records her close personal encounters and experiences. The journey will take us to secluded and unknown yogis in the Himalayas to the famous celebrity gurus, to colourful festivals and ascetic caves. But her real journey is the inner voyage to Yoga or union, a union with the Self. As we travel with and through her we get to reflect on love and death, rebirth and liberation, the necessity and the limitations of the guru, and through it our own. Finding both inspiration and

disillusionment, she returns again to her own Self and to the wisdom of India, a treasure for all of humanity.
