Orbis Books

• A celebration of the journey of African-American women toward a new spirituality grounded in social awareness, black American tradition, metaphysics, and heightened creativity. • Features illuminating insights from Alice Walker, Toni Cade Bambara, Lucille Clifton, Dolores Kendrick, Sonia Sanchez, Michele Gibbs,

Geraldine McIntosh, Masani Alexis DeVeaux and Namonyah Soipan. • By a widely published scholar, poet, and activist who has been interviewed by the press, television, and National Public Radio's All Things Considered From the last part of the twentieth century through today, African-American women have experienced a revival of spirituality and creative force, fashioning a

uniquely African-American way to connect with the divine. In Soul Talk, Akasha Gloria Hull examines this multifaceted spirituality that has both fostered personal healing and functioned as a formidable weapon against racism and social injustice. Through fascinating and heartfelt conversations with some of today's most creative and powerful women-- women whose spirituality

encompasses, among others, traditional Christianity, Tibetan Buddhism, Native American teachings, meditation, the I Ching, and African-derived ancestral reverence--the author explores how this new spiritual consciousness is manifested, how it affects the women who practice it, and how its effects can be carried to others. Using a unique and readable blend of interviews,

storytelling, literary critique, and practical suggestions of ways readers can incorporate similar renewal into their daily lives, *Soul Talk* shows how personal and social change are possible through reconnection with the spirit. *Heart of Flesh*

What is the relationship between women and secularization? In the West, women are abandoning traditional religion. Yet

they continue to make up the majority of religious adherents. Accounting for this seeming paradox is the focus of this volume. If women undergird the foundations of religion but are leaving in large numbers, why are they leaving? Where are they going? What are they doing? And what's happening to those who remain? *Women and Religion in the West* addresses a neglected yet

crucial issue within the debate on religious belonging and departure: the role of women in and out of religion and spirituality. Beginning with an analysis of the relationship between gender and secularization, the book moves its focus to in-depth examination of women's experiences based on data from key recent qualitative work on women and religion. This volume

addresses not only women's place in and out of Christianity (the normal focus of secularization theories) but also alternative spiritualities and Islam, asking how questions of secularization differ between faith systems. This book offers students and scholars of religion, sociology, and women's studies, as well as interested general readers, an accessible work on the

religiosity of western women and contributes fresh analyses of the rapidly shifting terrain of contemporary religion and spirituality. **The Lives of the Heart**
Anchor
This book comes directly out of women's grassroots efforts to understand and transform their spiritual traditions. It is a comprehensive account of the discussions, arguments, perspectives and

approaches of contemporary women in Canada toward spirituality and the monotheistic religions. The author presents a concise history of each religion, discusses normative practices and focuses on the roles, rituals and rights of contemporary women as they accommodate to and deal with their respective religions. It deals with women's encounters with

spirituality within the framework of Judaism, Christianity and Islam and outside of this framework within the new religions of contemporary Goddess worship. *Female Stereotypes in Religious Traditions* Psychology of Women Written by an acclaimed scholar to enrich and complete the vision offered by traditional Western spirituality, *Women and Spirituality* demonstrates that women,

as women, have a valuable contribution to make to religion. This new edition is revised and updated in light of thirteen years of feminism, including new biblical role models and a new chapter on women's special relationship to time. Prodding readers to pay attention to their own experiences, Ochs challenges traditional religious concepts such as solitary struggle, otherworldline

ss, and the spiritual journey to a distant goal, and shows how women's spirituality focuses on relationships with others, commitment to this world, and engagement with the present. *Religion and Gender Wm.* B. Eerdmans Publishing As a path of meaning seeking, healing, and transformation , spirituality is becoming more prominent in our society. Historically, women have

been the custodians of their families' spiritual domain. This book advances the concept of Woman Soul, a gender-specific way of embracing spirituality. WomanSoul discusses the personal and professional impact of spirituality in the lives of women from a variety of ethnic, religious, and cultural backgrounds. It examines the psychological, multicultural, and personal expressions of

female spirituality. More specifically, the essays collected here look at the impact of women's spirituality on identity, healing, and transformation across the lifecourse. WomanSoul focuses on how females express spirituality from their diverse backgrounds and situated realities. It cuts across ethnic identities, culture, and a multitude of spiritual experiences,

such as Muslim, Jewish, Christian, Hindu, Buddhist, Sufi, Goddess, Native American, and Agnosticism. As women tend to experience sacredness in a gender-specific manner, they frequently place more emphasis on spirituality than on religiousness. Seen as a freeing force by most women, spirituality is most often perceived to be more gender-fair,

culturally liberating, and less restrictive than many religious denominations. Both informative and inspirational, WomanSoul is written by psychologists who understand the implications of spirituality on the lives of women and the people around them. *Voices from the Ancestors* Simon and Schuster Through original interviews and research, Llewellyn uses spirituality to

uncover new commonalities between the second and third feminist waves, and sacred and secular experiences. Her lively approach highlights the importance of reading cultures in feminist studies, connecting women's voices across generations, literary practices, and religions. *The Voice of Sarah* Springer Once the basis for all religion, the Goddess is resurfacing and being

reclaimed by women in their quest for inner development and wholeness. Here you will learn of the deceptions of history and the hidden secrets of our past. Also learn the techniques of ritual, group structure, individual work, healing, crystals, tarot and I Ching, the discovery and development of power from within, and much more.

Experiences of hearing the voice of God (or angels, demons, or other spiritual beings) have generally been understood either as religious experiences or else as a feature of mental illness. Some critics of traditional religious faith have dismissed the visions and voices attributed to biblical characters and saints as evidence of mental disorder. However, it is

now known that many ordinary people, with no other evidence of mental disorder, also hear voices and that these voices not infrequently include spiritual or religious content. Psychological and interdisciplinary research has shed a revealing light on these experiences in recent years, so that we now know much more about the phenomenon of "hearing voices" than

ever before. The present work considers biblical, historical, and scientific accounts of spiritual and mystical experiences of voice hearing in the Christian tradition in order to explore how some voices may be understood theologically as revelatory. It is proposed that in the incarnation, Christian faith finds both an understanding of what it is to be fully human (a theological

anthropology), and God's perfect self-disclosure (revelation). Within such an understanding, revelatory voices represent a key point of interpersonal encounter between human beings and God. **Women and Spirituality** Bloomsbury Publishing 2019 Illumination Book Awards, Bronze: Catholic 2019 International Book Awards, Winner: Religion: Christian Inspiration 2019 Best

Book Awards, Winner: Religion: Christian Inspirational 2018 Independent Press Awards, Winner: Spirituality, Contemporary Pope Francis has a simple, life-changing message for you: God's love can grace each of us with a lasting and sustaining hope, no matter how dark or confusing our situation. On Hope is Pope Francis at his most intimate and most inspiring. "Life is often a desert, it is

difficult to walk, but if we trust in God, it can become beautiful and wide as a highway. Never lose hope; continue to believe, always, in spite of everything. Hope opens new horizons, making us capable of dreaming what is not even imaginable." -- Pope Francis **A Woman's Book of Life** UPNE "More than a few people today scoff at the notion of "religious experience."

What the believer accepts as God acting in human lives, the skeptic attributes to delusion or hysteria - especially when the believer is a woman. Indeed the possibility of self-deception in the realm of religious experience is sufficiently great that even devotees tread softly around it. At what point does mindless enthusiasm come to an end and actual, transcendent reality begin?"

"Sidney Callahan, a psychologist, author and Christian ethicist, describes authentic religious experience as the work of "a creative God of love who gives totally and renounces coercion." Human beings are wired for relationship. They move instinctively toward a dynamic presence who abides within the world and in human affairs. In this Madeleva Lecture delivered at Saint Mary's

College in Indiana, Callahan affirms not only the reality but also the usefulness of private religious experiences, especially those of "women barred from hierarchical authority," which, she says, "can be a rich source of strength for the church." Beginning with the insights of William James and Rudolf Otto, and borrowing from contemporary theologians

Karl Rahner and John E. Thiel, Callahan describes the way religious "signals" emerge into society through the attentive reflection of individuals. And the world is better for it. "Women who hear voices and see visions and have prophetic and intimate religious experiences," she states, "have given witness to God's justice and equality while affirming God's maternal

love."--BOOK

Dance of the Spirit Harper Perennial
This book is an edited collection of essays by fourteen multicultural women (including a few Anglo women) who

are doing work that crosses the boundaries of ecological and social healing. The women are prominent academics, writers and leaders spanning Native American, Indigenous, Asian, African, Latina, Jewish and Multiracial backgrounds. The contributors express a myriad of ways that the relationship between the ecological and social have brought new understanding to their experiences

and work in the world. Moreover by working with these edges of awareness, they are identifying new forms of teaching, leading, healing and positive change. Ecological and Social Healing is rooted in these ideas and speaks to an "edge awareness or consciousness." In essence this speaks to the power of integrating multiple and often conflicting views and the transformations that result.

As women working across the boundaries of the ecological and social, we have powerful experiences that are creating new forms of healing. This book is rooted in academic theory as well as personal and professional experience, and highlights emerging models and insights. It will appeal to those working, teaching and learning in the fields of social justice, environmental issues, women's

studies, spirituality, transformative /environmenta l/sustainability leadership, and interdisciplinary/intersection ality studies. *Enlightenment Through Motherhood* Routledge Criticizes the patriarchal world view, outlines the historical realities that have produced a culture that glorifies violence and domination, and argues for a worldview that recognizes the full humanity of women.

Women and Spirituality Berghahn Books Taking a critical look at feminism and exploring its explicit and implicit spiritual dimensions, this revised and updated new edition of *Women and Spirituality* engages in a reflective dialogue with contemporary women's voices. It asks to what extent patriarchal oppression and androcentric thinking are inherent not only in Christianity

<p>but in all religious beliefs, practices and institutions. This is the only book which provides a comprehensive survey of current discussions in feminist theology and spirituality and offers a wide-ranging account of women and</p>	<p>world religions and raising thought-provoking questions about the spiritual dimensions of human life. <i>Living In The Lap of Goddess</i> Jessica Kingsley Publishers Jane Hirshfield, the award-winning author of THE</p>	<p>OCTOBER PALACE and editor of WOMEN IN PRAISE OF THE SACRED, presents a scintillating new volume of poems to be published to coincide with the hardcover release of NINE GATES, the author's primer on the reading and writing of poetry.</p>
