[A Poison War Novel](#) | Dramatists Play Service, Inc.

Sam Shepard was born in 1943 in Fort Sheridan, Illinois. He spent his childhood moving from one air base to another due to the fact that his father was in the military, thus experiencing the rigidity and rootlessness of military life first-hand. However, Sam did not like following rules as he was a free spirit who loved movies and music. Rather than going to college, he joined a travelling theatre company and soon discovered the magic of the theatre. Therefore, he moved to New York, where it all began. Today, he is a successful screenwriter, actor and director, but above all, he is one of the greatest contemporary American playwrights. To date, he has written over fifty plays, many of which have won awards and have been performed in theatres across the United States of America as well as Europe. In the thesis I am focused on the last three of his family plays, which Shepard wrote in the first half of the 1980s, perhaps in an attempt to get a better insight into his own problematic family dynamics and thus find his own identity. These plays contain many autobiographical elements as Shepard drew inspiration from his own personal life. True West tells the story of two very different brothers. It is an Old West tale of the good versus the bad and deals with the duality present in all of us. In the next play, Fool for Love, Shepard explores the masculine and feminine side present in all of us through the final confrontation between two lovers who turn out to be half-brother and sister. A Lie of the Mind, the last of his family plays, is a synthesis of the previous two. In it, we are presented with two families who come from completely different environments, joined by the marriage of the two protagonists and torn apart by male violence inflicted upon women. In this play, Shepard deals with male machismo and its devastating effect on women and consequently the family itself. The three major topics present in all these plays are generation gap, shown by the differences and similarities between the parents and the children; family antagonism, visible in the rivalry and animosity between the different members of the family; and rootlessness of characters, made evident by the clear (dis)connection of the characters to the land or more importantly, family. Shepard's characters are all victims of a past they cannot escape. The men almost religiously follow in the footsteps of their fathers. The latter are either drunken hermits who abandoned their families to live in the desert or reclusive hunters preying on deer from a shack in the woods. Their sons, not having appropriate role models, continue the vicious circle of neglect and abuse of the women, thus trying to assert themselves as real man in the way they were taught by their fathers. They are all weak and consequently succumb to the curse of heredity, as they do not know any better. All this machismo leads to female victimisation. The mothers are broken, numb and have given up on love. They were disillusioned by their men, who abandoned them physically or emotionally. They inevitably pass this bitterness and anger on to their daughters, who in turn continue their path by choosing abusive, philandering men who either leave them or beat them so severely that they end up in hospital. Nevertheless, at the end, the women are stronger. Unlike the men, who seem to blindly follow the path predetermined by their fathers, the women at least attempt to break the vicious circle they are caught in and free themselves of the shackles of the past. They either find a better version of their previous mate or simply pack up their bags and leave in search of their roots, their own happiness. The men as well as the women are lost, rootless, in constant search of their own identity, which they try to find in their own shattered families without success. This can be clearly seen in the rivalry amongst siblings as well as the children and their parents. They are completely disconnected from each other. Therefore, they move from place to place like nomads, wandering around aimlessly in the hope of a better tomorrow. As the author himself and the rest of us, they are just trying to get "through the night to get to the day" (Roudan , 31).

A Director's Approach to Sam Shepard's "A Lie of the Mind" RH Childrens Books
 Pulitzer Prize winner Sam Shepard's latest play is an uproarious, brilliantly provocative farce that brings the gifts of a quintessentially American playwright to bear on the current American dilemma. Frank and Emma are a quiet, respectable couple who raise cows on their Wisconsin farm. Soon after they agree to put up Frank's old friend Haynes, who is on the lam from a secret government project involving plutonium, they're visited by Welch, an unctuous government bureaucrat from hell. His aggressive patriotism puts Frank, Emma, and Haynes on the defensive, transforming a heartland American household into a scene of torture and promoting a radioactive brand of conformity with a dangerously long half life.

This perceptive study analyzes Sam Shepard's thirty published playscripts from "Chicago and Rock Garden" to "A Lie of the Mind" and "States of Shock" - not as realistic dramas, but as fantastic satires. Using criteria for the fantastic in literature developed by Tzvetan Todorov and Eric S. Rabkin - with corroborating commentary from Northrup Frye and Cedric Whitman - this study will prove valuable to literary scholars, as well as actors and directors.

Autumn, 1975: The Rolling Thunder Revue - a rag-tag variety show, a travelling gypsy circus - swept across the Northeast US. Bob Dylan helmed the chaotic caravan, gathering a host of stars in his wake: Joan Baez, Roger McGuinn, Ramblin' Jack Elliott, T-Bone Burnett, Joni Mitchell and others. The Pulitzer-Prize winning playwright Sam Shepard was invited to write a Fellini-esque film out of the chaos. Throughout the many moods and moments of his travels he kept an impressionistic logbook of life on the road, replete with poetry, sketches and intimate accounts: This is that logbook. Updated with a myriad of candid photographs - many never before published - a foreword by T-Bone Burnett and a poetical preface from Sam Shepard, The Rolling Thunder Logbook perfectly captures the camaraderie, isolation, head games and pill-popping mayhem of the tour, providing a window

into Dylan's singular talent, enigmatic charisma, and vision of America. "The Rolling Thunder Revue was more fun than the law allows. By a long shot. It was a bus full of musicians and singers and painters hurtling through the dead of night, making a movie, writing songs, and playing some of the most incendiary, intense, and inspired rock 'n' roll, before or since." T-Bone Burnett

Sam Shepard's outlandish, nightmarish, yet lyrical plays -- The Tooth of Crime, Buried Child, True West, Fool for Love, A Lie of the Mind, and dozens of others -- have garnered him a Pulitzer Prize and a lasting reputation as one of America's greatest living playwrights. His charismatic performances in movies like Days of Heaven, The Right Stuff, Country, and Thunderheart -- as well as his screenplay for Paris, Texas -- have made him an indelible presence in American film. Rock'n'roller, rancher, and rodeo prizewinner, he has toured with Bob Dylan, hung out with the Rolling Stones, had an affair with Patti Smith, and married Jessica Lange. Yet throughout he has remained an enigmatic figure. In this acclaimed biography, now fully updated, Don Shewey explores the life and works of this American visionary, illuminating Shepard's unique success in straddling the divide between serious artist and pop-culture hero. Set within the netherworld of thoroughbred racing, this hair-raisingly funny new play by the Pulitzer Prize-winning author of True West explores the classical themes of memory, loyalty, and restitution. Simpatico launches readers into regions where high society meets the low life, and where, as one of the main characters observes, "someone is cutting someone else's throat."

One of the plays that first announced Sam Shepard as an original voice in American theater, Tooth of Crime is his thrillingly innovative rock drama, published here in a revised edition that is as fresh and provocative as the original was more than thirty years ago. An aging rock star in a world in which entertainment and street warfare go hand in hand, Hoss must defend himself against Crow, a newcomer who battles him for fame. Combining musical styles and intense dialogue in an unconventional musical-fantasy, Tooth of Crime riffs brilliantly on rising stars and fading legends, and rock lived and died for.

In eighteen stories unlike any in our contemporary literature, Sam Shepard explores the vast and rugged American West with the same parched intensity that has made him "the great playwright of his generation" (The New York Times). A boy watches a "remedy man" tame a wild stallion, a contest that mirrors his own struggle with his father. A woman driving her mother's ashes across the country has a strangely transcendent run-in with an injured hawk. Two aging widowers, in Stetsons and bolo ties, together make a daily pilgrimage to the local Denny's, only to be divided by the attentions of their favorite waitress. Peering unblinkingly into the chasms that separate fathers and sons, husbands and wives, friends and strangers, these powerful tales bear the unmistakable signature of an American master.

Shepard's novel "opens with a man in his house at dawn, surrounded by aspens, coyotes cackling in the distance as he quietly navigates the distance between present and past. More and more, memory is overtaking him: in his mind he sees himself in a movie-set trailer, his young face staring back at him in a mirror surrounded by light bulbs. In his dreams and in visions he sees his late father--sometimes in miniature, sometimes flying planes, sometimes at war. By turns, he sees the bygone America of his childhood: the farmland and the feedlots, the rail yards and the diners--and, most hauntingly, his father's young girlfriend, with whom he also became involved, setting into motion a tragedy that has stayed with him"--

As an actor, screenwriter, director, short story writer, and, most significantly, a playwright, Sam Shepard has long been an important figure on the American cultural landscape. A Body Across the Map focuses on the character conflict central to Shepard's most significant plays; that between fathers and sons. Beginning with The Rock Garden and concluding with A Lie of the Mind, this analysis shows how Shepard's worldview has evolved over a 20-year span. A long-standing pessimist who saw Oedipal revenge as a necessity, and genetic determination as inescapable, Shepard ultimately disavows these dark worldviews in favor of one where gentleness, spiritual generosity, cooperation, and the acceptance of long-denied truths prevail over rage, self-interest, and biological predestination.

As it was in Anna Karenina, Madame Bovary, and Othello, so it is in life. Most forms of private vice and public evil are kindled and sustained by lies. Acts of adultery and other personal betrayals, financial fraud, government corruption—even murder and genocide—generally require an additional moral defect: a willingness to lie. In Lying, best-selling author and neuroscientist Sam Harris argues that we can radically simplify our lives and improve society by merely telling the truth in situations where others often lie. He focuses on "white" lies—those lies we tell for the purpose of sparing people discomfort—for these are the lies that most often tempt us. And they tend to be the only lies that good people tell while imagining that they are being good in the process.
