E. H. Gombrich’s *Little History of the World*, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages.

Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the *Little History* brings together the pellucid humanity of his narrative with the images that may well have been in his mind’s eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author’s intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface,

Loom Beaded Bracelets. Book of Patterns 1 Random House

Narrow bands of woven tape were important to Americans in the eighteenth and early nineteenth centuries, before the days of elastic and zippers.

This book documents the fascinating American history of handwoven tape and offers patterns and instructions to enable today’s weavers to make it. Many Early American households had a tape loom for making the tape needed by the family, and this book offers a discussion of the people who wove tape, the patterns woven, and the types of looms used, along with over 280 color images. The book also gives step-by-step instructions for setting up a tape loom with warp threads, and explains how to weave your own tape. You can weave tape for similar practical uses as our forebears, or to create one-of-a-kind gifts and decorations like key chains, holiday garlands, or lanyards.
