## **REILLY MANNING**

---

### **Epic Sea Battles** Andesite Press

Long ago, sailors told tales about terrible monsters that lurked in the sea. Many of their stories may have been based on amazing—but real—sea creatures. Giant squid catch their food with tentacles and fight huge sperm whales. Manatees breathe air and must eat 100 pounds of food every day. Fifty-foot long oarfish have silvery, snakelike bodies. What monsters

could they have inspired? Find out more about these real-life sea monsters and the scary stories sailors told about them! [Deep-Sea Plunderings](#) Independently Published

**A Battle in the Deep Sea** Bounty Books  
The meeting of Bismarck and HMS Hood in 1941 ended with the destruction of the two battleships and the loss of 3500 lives. The Bismarck had only been on the seas for six days, and within minutes of the battle had sunk the Hood, which went down in just three-and-a-half minutes. In retaliation the British sent every available ship and plane to destroy Bismarck. Only nine days after she first set sail she was destroyed.

ASJA Writing Awards Recipient

Outstanding Book 2002 General Nonfiction  
Erich Hoyt *Creatures of the Deep* Praise for the first edition: "More than a picture book ... Hoyt's elegant writing provides both the historical background for deep-sea exploration and an ecological perspective on life in the ocean's depths." -- American Scientist "A magnificent bestiary ... and a reminder of how little we actually know about the seas surrounding us." -- Popular Science Winner, Outstanding Nonfiction

Book of the Year -- American Society of Journalists and Authors, Inc., New York In this updated and expanded edition of *Creatures of the Deep*, award-winning nature and science writer Erich Hoyt gives readers a glimpse of the amazing variety of creatures found in the deepest parts of the ocean. Weaving together details from the latest scientific research about sharks, giant squid, dragonfish, huge tube worms, clams and tiny microbes of the deep-sea vents, Hoyt embarks on a magical journey roaming across the abyssal plains and descending into deep-sea trenches more than 20,000 feet down. Hoyt unravels the complex predator-prey relationships, from "killer" copepods to battles between giant squid and sperm whales, presenting compelling portraits of animals that are superbly adapted denizens of a dark high-pressure world. There are life forms, independent of sunlight and photosynthesis, which flourish around the hot, sulfurous deep-sea vents in the magnificent rift valley of the mid-ocean ridge, the world's longest mountain range. Surviving in conditions that appear to be close to the very soup of primordial Earth, these microbes have become the basis for

the latest research into Earth's origins. Fully illustrated with fantastic underwater imagery.

### **The Quest for the Giant Marlin**

McFarland

Take a deep breath Steve Backshall was nine years old the first time he saw a shark, while on holiday with his family in Malaysia. It was the beginning of a life-long fascination with these 'lords of the sea', and the oceanic life around them. His career as one of the world's most popular naturalists and explorers has taken him to countless underwater places, many never before seen by others. And he's also been witness to the startling decline in fortune of our oceans' wild inhabitants over the past fifty years. *Deep Blue* is a book a lifetime in the making: a remarkable blend of memoir, travel, and marine and environmental science that takes us on an unforgettable tour of the many worlds of aquatic life: from underwater deserts and rainforests to the evolution of ocean heroes like the sea turtle and the Great White, from the genesis of ocean life to the rapidly declining state of white polar seas and coral reefs. It's both a love letter to our precious oceans and rallying cry for

what we must do to save them.

**Deep-Sea Detectives** St. Martin's Press  
Sherlock Holmes and his cousin, Dr Henry Vernier, travel to Whitby, to investigate a curious case on behalf of a client. He has fallen in love, but a mysterious letter has warned him of the dangers of such a romance. The woman is said to be under a druidic curse, doomed to take the form of a gigantic snake. Locals speak of a green glow in the woods at night, and a white apparition amongst the trees. Is there sorcery at work, or is a human hand behind the terrors of Diana's Grove?

Battle Report Andesite Press

This third in a series of beautifully illustrated supplements focuses on play in specific environmental climes, Maelstrom contains rules for sea campaigns and covers land-based D&D campaigns and dungeon adventures.

The Stuff of Science Fiction iUniverse

Two giants of the sea battle for survival.

**On the Bottom; An Epic of Deep-Sea Diving** Firefly Books

The California Coast is being hit by prehistoric sea creatures of gigantic proportions. Desperate to save human lives, the government is left with only one

option: destroy the mega ton monstrosity dwelling on the ocean floor. Gargantuan! The world's last hope resides in a rogue group of naval aces led by tough guy Anchor Stevens. Plunging down into the darkest depths of the ocean in a super submarine, this daring team plans to infiltrate the hundred ton birthing machine and blow it to high hell. Can these super aces put this mean mother to rest and save humanity, or will Gargantuan and her deadly spawn reap global domination on humanity?

*Deep Sea Warriors* Dark Horse Comics (Single Issues)

Paul Barry's obsession with the ocean took a turn when his crew's vessel was lost in a deep sea descent mission with his crew inside. Fifty-five years later, with the recovery of the ship, Paul is about to discover the horrific mysteries of time and the abyss. From the pages of *Dark Horse Presents*. \* By acclaimed writers Jimmy Palmiotti and Justin Gray (*Creator-Owned Heroes, Jonah Hex*). \* From *Wonder Woman* artist Tony Akins!

**Symphonies Under the Stars**

Independently Published

Provides detailed maps of naval battles in

the Pacific during World War II.

**Deep Blue** Macmillan

The most mysterious and elusive of all sea creatures, the giant squid--at least sixty feet long and weighing nearly a ton--is also one of the largest. Yet for all its magnificent size and threatening undersea presence, Architeuthis has remained a mystery. Until now. In this marvelous and beautifully illustrated book, marine biologist, explorer, and artist Richard Ellis presents all that is known about the giant squid. Delving into myth, literature, popular culture, and science, he brings readers face to face with this remarkable creature. He also provides a thorough, compelling study of what is known and what is still to be discovered about this exotic animal that has never been studied alive. Interweaving his engrossing narrative with a wealth of fascinating illustrations and photographs, Ellis gives us the first comprehensive history of the only living creature that can truly be called a "sea monster."

**Gargantuan** University of Delaware Press  
Dive into the heart-stopping world of deep-sea fishing with "The Quest for the Giant Marlin," a tale of courage, camaraderie,

and the relentless pursuit of a dream. This riveting storybook brings to life the thrilling adventure of Captain Jim, Teddy, and Robbie as they embark on a quest to capture a legendary marlin off the shores of Kona, Hawaii. Set against the breathtaking backdrop of the Pacific Ocean, this narrative is a testament to the human spirit's resilience and the profound bond between man and nature. From the suspenseful weigh-in to the triumphant return, each chapter is a meticulously crafted account of the challenges faced and the triumphs achieved by the crew of the Ocean Conqueror. Highlights: Epic Sea Adventure: Join the crew on their high-stakes journey across the vast, open sea, challenging one of nature's most formidable creatures. Heartfelt Camaraderie: Discover the unbreakable bonds of friendship and teamwork that guide the crew through their harrowing quest. Stunning Visuals: Accompanied by realistic illustrations, each page vividly captures the essence of the adventure, from the serene beauty of Kona Harbor to the dramatic battle with the giant marlin. Inspirational Legacy: A story that transcends the confines of a fishing tale,

leaving readers inspired to chase their own dreams and conquer their personal oceans. Perfect for lovers of adventure, maritime lore, and tales of human triumph, "Legacy of the Ocean Conqueror" is more than a storybook-it's an invitation to embark on your own journey of discovery, where the sea's mysteries await and legends are born.

#### *Deep Black Sea* Random House

This indispensable supplement contains information on nearly 200 new monsters for any D&D game. It provides descriptions for a vast array of new creatures, with an emphasis on higher-level creatures to provide experienced gamers with tougher foes to overcome. (Gamebooks)

#### **The Further Adventures of Sherlock Holmes - The White Worm** Permuted Press+ORM

"Science fiction at its best, a realistic tale of exploration and danger, written by a man who knows the details of deep-sea exploration firsthand." —Ben Bova, Hugo Award-winning author With a crew of seven, the Challenger sea lab submerges three miles below the waves for a one-year mission to study the hidden world of the deep black sea. How is it that sea animals

can live and reproduce in water that should boil them on the thermal vents known as “black smokers?” Superheated water that is full of toxins and heavy metals and contains almost no oxygen should be void of life on planet Earth—and yet it is teeming with it. The answer to the puzzle lies in the bacteria. Researcher Ted Bell is a NASA scientist with his own agenda: getting humans to Mars. When he purposefully infects a member of the crew in an attempt to harness the power of the *Deinococcus radiodurans* bacteria, he quickly loses control and unleashes a terrifying new creature. His botched experiment quickly becomes a battle for survival—three miles below the surface. With the research vessel nearing catastrophic failure, and terrifying alien life forms running wild through the ship, the crew must figure out a way to battle something that is no longer human while trying desperately to reach the surface alive. “Crichton at his best is the main author who comes to mind as a comparable influence when reading *Deep Black Sea* . . . The informative and fascinating science that fills each page really elevates this book to a higher

grade.” —Horror Novel Reviews  
[Otherworldly and Eschatological Priesthood in the Dead Sea Scrolls](#) Severed Press

A Time-Life television book; consultants, W.G. Conway and others.

*National Geographic* BRILL

"This book is about the real experiences of a true rebel - a scientist, business executive, politician, citizen activist - who successfully challenged the powers-that-be in business and government to further justice and environmental health worldwide. It provides a good history of the environmental movement and illustrates how a scientist can flourish in business and government. It should be helpful and inspirational for students who are choosing a career and others who want to change careers."--BOOK

[Dangerous Sea Creatures](#) Open Road Media

While from the north, the mighty Medo-Persian army threatens the very existence of the great Neo-Babylonian Empire; within the city of Babylon, a secretive and

defiant resistance movement has set itself against the reckless overindulgent King, Belshazzar, and is collaborating with the Persians against him. Amidst the subterfuge and the stringent measures taken by the king to quell this rebellion, the princess and her lover Eli, a Hebrew, are struggling to make sense of a relationship marred by the huge social and religious gap which separates their two cultures and religions. They find themselves caught between the resistance and the invading Persians, and only manage to escape the chaos with the help of two dissonant palace officials and the leaders of the Hebrew community. Their escape, however is hampered by the injuries Eli has sustained at the hands of the palace guards and the princess is forced to leave Babylon without him. Later he sets out on the camel trail to find her, and after running the gauntlet between the desert and the Bedouin bandits, he eventually meets up with her on the camel trail to Jerusalem and their new adventure is about to begin.
