Transcending Boundaries:
Writing for a Dual
Audience of Children and
Adults is a collection of
essays on twentieth-
century authors who cross
the borders between adult
and children's literature
and appeal to both
audiences. This collection
of fourteen essays by
scholars from eight
countries constitutes the
first book devoted to the
art of crosswriting the
child and adult in
twentieth-century
international literature.
Sandra Beckett explores
the multifaceted nature of
crossover literature and
the diverse ways in which
writers cross the borders
to address a dual
readership of children and
adults. It considers
classics such as Alice's
Adventures in Wonderland

and Pinocchio, with
particular emphasis on
post-World War II
literature. The essays in
Transcending Boundaries
clearly suggest that
crossover literature is a
major, widespread trend
that appears to be sharply
on the rise.

unintellectualised yet

the quality of our daily

Sitting Still Like a Frog

Ardent Media

Absurd fairy tales, very sensibly told There once was a good little devil - did you read that right? Yes you did: not a wicked little devil but a good one, and boy, was he in a fix! Instead of doing bad things like forgetting his homework and playing tricks on his teachers, this little devil kept trying to be good. He did all his homework - and sometimes enjoyed it! He was never rude and he even encouraged sinners to say sorry. His parents were at their wits' end. So the little devil struck out on his own. On his quest to learn to be good, our little devil meets all kinds of people, from priests to police and from the Pope in Rome to Little Jesus himself. But will the angels let a little red devil with black horns into Heaven? In these thirteen tales, clever young people find nifty ways to overcome greedy kings, wicked witches, unlucky spells and even silly names. And there's a big dash of magic to help them on the way! In these tales, the giants, witches and mermaids of traditional fairy tales leap from the page, animated by a very modern spirit.

Blessed with a healthy disrespect for authority, the author took great pleasure in upsetting the natural order of the fantastic.

'Famille, je vous ai (encore et toujours à l'esprit?), je vous aime un peu, beaucoup, ou je vous hais énormément?' What are families like in contemporary France? And what begins to emerge when we consider them from the point of view of recent theoretical perspectives: (faulty) cohesion, (fake) coherence, (carefully planned or subversive)

deconstruction, loss (of love, confidence or credibility), or, even (utter) chaos and (alarming) confusion? Which media revamp old stereotypes, generate alternative reinterpretations, and imply more ambiguous answers? What images, scenes or frames stand out in contemporary representations of the family? Uneasy contradictions and ambiguities emerge in this bilingual collection of approaches and genre studies. The family plot seems to thicken as family ties appear to loosen. Has 'the family' been lost from sight, or is it being reinvented in our collective imaginary? This book proposes a new series of perspectives and questions on an old and 'familiar' topic, exploring the state and status of the family in contemporary literature, culture, critical and psychoanalytic theory and sociology.

The Prophet Editions Lansman

When the Pirates, a gang of young boys in the small town of Timpetill, become too rowdy, the adults decide to discipline them by leaving the town in the middle of the night.

Trouble at Timpetill

Vintage

In *Crossover Fiction*, Sandra L. Beckett explores the global trend of crossover literature and explains how it is transforming literary canons, concepts of readership, the status of authors, the publishing industry, and bookselling practices. This study will have significant relevance across disciplines, as scholars in literary studies, media and cultural studies, visual arts, education, psychology, and sociology examine the increasingly blurred borderlines between adults and young people in contemporary society, notably with regard to their consumption of popular

culture.

Poetic fantasy and fiction

Routledge

Enough! Why don't you play outside? An exasperated mother sends her boisterous children outside—but their games take them further than she could have imagined! Brother and sister soon leave their garden behind, venturing through breathtaking landscapes, crossing deserts, climbing mountains, sailing the seas, and exploring jungles. Along the way, they encounter animals from black bears and scorpions to barracudas and orangutans, and many that are endangered or nearly extinct. Blending storytelling, adventure, and information, *Play Outside!* highlights the beauty and fragility of the natural world and celebrates our human connection to it. Readers can search for more than 250 animal species hidden in the art, each one featured in an illustrated index that shows where in the world they can be found and highlights their level of vulnerability to extinction.

Winner of the National

Book Award and National Book Critics Circle Award "A charming book about enchantment, a profound book about fairy tales."—John Updike, *The New York Times Book Review* Bruno Bettelheim was one of the great child psychologists of the twentieth century and perhaps none of his books has been more influential than this revelatory study of fairy tales and their universal importance in understanding childhood development. Analyzing a wide range of traditional stories, from the tales of Sindbad to "The Three Little Pigs," "Hansel and Gretel," and "The Sleeping Beauty," Bettelheim shows how the fantastical, sometimes cruel, but always deeply significant narrative strands of the classic fairy tales can aid in our greatest human task, that of finding meaning for one's life.
