(Guitar). Interviews with 50 of the world's greatest guitarists spanning the past 25 years and collected into one information-packed volume. Based on articles originally published in *Guitar Player* magazine, *Secrets from the Masters* features the most influential guitarists of our time from legends such as Chuck Berry, Carl Perkins and B.B. King to Joe Satriani, Eddie Van Halen and Eric Clapton, and all genres in-between. This book celebrates the guitarists who have forever altered the way we play and think about the guitar. Within these interviews you will find poetry and prophesy, the outrageous and the sublime, plus rare photos, challenging music, groovy gear, groundbreaking techniques and other glimpses into greatness.

*Modern Cake Decorator: Airbrushing on Cakes* John Wiley & Sons

Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

Go to [MoriahElizabeth.com](http://MoriahElizabeth.com) for more information.

*How to Draw Animals* Mendon Cottage Books

This is a complete "Intro to Airbrushing" course in a workbook form. A classroom in a book! There is only so much an airbrush can do - dots, lines, daggers, and shading. We introduce each skill in a logical and exciting way. In our book, each skill is cumulative, so grasping each technique is easier than tackling them out of order as you would if you were self taught and left to sift through a cluster of internet information that is not necessarily correct. Our method is successful, because we have taken the entire contents of an Intro to Airbrushing class, and made it into a workbook... yes a WORKBOOK! The skills are introduced in an interesting way, and each lesson has a corresponding workbook page that can be practiced over and over until you are proficient at each skill! There has never been anything like this before! With over 50 lessons, you will master each skill and work up to the four beautiful and challenging final projects. We cover all the basics that you need to know to get set up in airbrushing: types of airbrushes, compressors, paint, substrates, etc....even how to properly hold an airbrush and how to clean it. We are so thorough and innovative, we have earned the endorsement of Anest Iwata-Medea, Inc. AND Grex Airbrushes. A course like this costs hundreds of dollars just for tuition if you were to attend a workshop. With travel and lodging, you can spend thousands of dollars for just ONE course. With this book, you get the same content but are free to take it at your own pace. This is an excellent way to introduce airbrushing into your skill set and develop a life-long passion and income source.

**How to Master Airbrush Painting Techniques** GMC Publications

"The New Gold Standard in Automotive Step-By-Step Books Automotive Cheap Tricks & Special F/X II, the ultimate book of automotive custom painting has been released. Automotive Cheap Tricks & Special F/X II is a compilation of step-by-step instruction by Craig Fraser, one of the greatest forces behind the popularization of automotive custom painting. In fact, Special F/X II far exceeds its predecessor, F/X I, in superior design, nearly double the content (31 chapters, including 11 introductory sub-chapters and a comprehensive glossary), and size (212 pages). The subtitle, Learn How to Paint Cars, Trucks, Motorcycles, Musical Instruments, Surfboards, and R.C. Cars, really says it all, and lives up to its promise with some of the most cutting-edge work dissected for your reference and execution. This amazing visual smorgasbord tutors on how to achieve stunning graphics, special effects, murals, pinstriping, and more for beginners and pros. It's especially fascinating how perceptually difficult effects (bullet holes, fire, water droplets, old school flames, and tons more) and textures (alligator and dragon skin, chrome, cheetah fur, faux f/x, and many others) are so easily rendered with stencils, freehand shields, a variety of tapes, vinyl, and even a torch! It almost seems as if the author gave away too much, like a magician who would surprisingly reveal his secrets with impunity. Fraser was thoughtful enough to include enough editorial and instruction for newbies that includes a Back to Da' Basics chapter, and some great articles on self-promotion, the zen of custom painting, how to photograph your artwork (the importance of this cannot be overstated), the paint and equipment you'll need to get started, and the business of custom painting. In great, painstaking detail throughout, the book also addresses critically essential information on the proper sequences and steps to working with urethanes and clearcoats, among other things. The fact that improper

methods can lead to catastrophic results on, say, a \$100,000 vehicle makes this book even more important. Chapters include: Flamin' Out A Killer Skull (skull and flames on a motorcycle tank), Steampunk Guitar (mind-blowing; gorgeous), Formula Drift (classic graphics with stunning results), Dragon Drums, Da Kine Surf-Tiki (Craig proves that you, too, can paint a bitchin' surfboard), Rice Fink (sure to be a big favorite), RC Car (you better read this before you attempt one), Donkey Frog, and Homage A Giger (H.R., that is). Automotive Cheap Tricks & Special F/X II is beautifully printed in full color and on heavy paper stock, and it's obvious that the publisher spared no expense in producing it. At \$34.95 this volume is a steal. And it is, without question, the new gold standard for books on automotive custom painting and will remain so for years to come."

So have fun Airbrushing.

**The Guild Handbook of Scientific Illustration** Drawing Animals

Learn all you need to know about acrylic painting as you create 50 stunning mini paintings. Following an overview of painting fundamentals, illustrated step-by-step instructions accompanied by lessons on specific techniques lead your way. This unique book is a complete course in acrylic painting, built up from key techniques. As you progress through the sections of the book, the author demonstrates each technique with the creation of a mini painting, measuring 5-inches squared. So by the time you have worked right through to the end, you will have an amazing collection of 50 mini paintings—on board, paper, or canvas—that will be a testament to your skill and creativity. The subject matter for these squares varies from abstracts and simple color-mixing exercises, through to

figurative subjects: a flower, a sunset, a busy street scene—and many more. These can be mounted, exhibited, or simply collected in a portfolio, or given away as gifts for friends to cherish. If you are coming to acrylics for the first time, or keen to improve your skills and sometimes daunted by the thought of filling a large empty canvas or blank piece of board, this is your ideal guide. Instead, it will free you from creative hang-ups and replace them with an addictive desire to create that next 5-inch square!

Pottery and Porcelain Restoration is a practical guide for amateurs to the craft of the professional restorer. With over 360 photographs, it explains the simplest, safest and ethical techniques that are recommended today and - essentially - do not further damage your pieces. Written with clear practical detail, it explains the full process and gives unique insight into the delicate job of the ceramic restorer. This new book introduces the history of pottery and porcelain, and gives an account of the methods and ethics of ceramic restoration; it gives a complete list and details of materials and equipment, and particularly advises on the best choice of glues; it describes the full restoration process, from preparation and cleaning to gluing and modelling, and finally to painting and gilding and provides step-by-step instructions for gluing multiple breaks, filling chips and large missing areas, as well as making lids, teapot spouts, hands, leaves, fingers and handles. Restoration examples are illustrated such as making Beswick horse legs, replacing missing handles on a Chinese jug and painting a Clarice Cliff jug and, finally, vital tricks of the trade are shared throughout and useful tips to setting up a workshop are given.

For some cake decorating is a hobby, and for others, it is a career. The amateurs are those who find it fun and gratifying to bake the cakes and then decorate them for their family and friend, save money by doing it themselves. With expert training along with good decorating tips and ideas, anyone can master this art. With this art form you will be able to stretch your imagination. If you continue building your skills, you will experience the joy of making others happy with your expertise. The art of decorating cakes takes place when a man or woman has turned the kitchen into an art studio. When a cake is decorated in an artistic design it is pleasing to both the creator and the recipient. Creating a cake does not have to be a stressful experience, you just need to get creative. Don't be afraid to try new ideas and techniques. For the amateur, it is the simple cake decorating tips, which are the best ways to help you get started. Decorating can be as simple as using a stencil and dusting confectioner's sugar or cocoa powder on the top of a cake. Cakes can be iced with butter cream, royal fondant, or cooked icing. Adding to the icing cakes can be topped with flowers, spun sugar, or candy. Cakes can be created to look like a hot dog, pizza, or just about anything you have the imagination to create. If you want to be an amateur cake decorator, you will need to learn the basics and pick up as many of the tips you can. There are many tips and ideas widely available. You may decide to continue making and decorating cakes as a pastime or you may decide to look

into making a career out of decorating and baking cakes. The Wilton schools have several students who have a professional goal in mind. Wilton schools have classes designed for anyone who loves cake decorating. Wilton classes are taught at several local retailers throughout the United States and Canada. Here are some of the Wilton school tips and hints on icing a cake. Wilton schools prefer to use Duncan Hines cake mixes because the batter volume is the same every time you make it. Adding a teaspoon or two of Wilton Meringue Powder to the mix will make the cake rise higher. When preparing your pans, use a 2-inch wide paintbrush to paint on the shortening. If an area is still shiny, apply more shortening and dust with flour. Only fill your cake pans half full. Let your cake cool completely rest in an airtight container for a day or even overnight before you ice it. Cut the mounded portion of the cake off with a leveler or a serrated knife to make the cake level and fit together easier. Turn the cake over and brush the cake with a wide paintbrush to remove the crumbs. Use a lot of icing to ice the top of the cake. Never let your spatula touch the cake. You will have crumbs in your icing if you do. If you are having a difficult time in icing the sides of the cake, Wilton has a tip, number 789, which is made just for icing the sides of the cake. Let the cake rest for 15 minutes after you have iced it. Then smooth out the cake by using parchment paper. To do this, place the parchment paper on the cake and gently smooth out the icing. If you have a cake mix, which only makes one layer. Then turn it into a torte. Slice the cake horizontally. By adding a ring of icing from a decorating bag through a tip, you will be able to create a dam on the outside of the bottom half of the cake. For a filling use the pudding from a child's pudding cup, and spread it inside the ring. Top with the other half of the cake and ice as directed. You will need to choose a source of instruction. The culinary schools are colleges and will give you a degree making you more marketable if you choose to look for employment in this line of work. However, if you just want to be an expert there are many types of schools and classes you can take to achieve this. Some of the courses can be taken on location online or you can find web sites, which will give you instruction by video or walking you through it, step-by-step. A professional cake baker is a culinary expert who specializes in creating cakes. Most of these cakes are made for special events and weddings. There are a number of cake bakers who have their own bakeries. Cake bakers do some cake baking, whereas some pastry professional only specialize in cake decorating.
