A Compend of the Principles of Homoeopathy as Taught by Hahnemann, and Verified by a Century of Clinical Application Watkins Media Limited

Here is one of the most readable and enjoyable homoeopathic books ever written. The author has chosen over twenty medicinal plants and devoted a chapter to each. Whilst doctors may possess the ability to write out prescriptions for sick persons, they may not possess that other form of ability which enables them to write readable books. It is therefore all the more refreshing to find both these abilities combined in one individual. A Physician's Posy seems more in the nature of belles lettres than a treatise on healing the sick. In its pages the reader will encounter no pseudo-scientific jargon nor multi-syllabic words which no one can pronounce, let alone remember. Dr. Shepherd has written a fascinating history of her chosen plants and includes personal anecdotes that make her book a joy to read.

Dr Dorothy Shepherd offers a guide to the medicinal treatment of first aid. For years she followed obediently the recognised, well-trodden paths of antiseptic and aseptic wound treatment, with little or no medicinal aid, other than those already mentioned. She then had the opportunity to study and apply first-aid methods in surgical outpatients, private practice and a munition factory in the First World War and the later a minor ailment clinic. She gave up entirely the old methods and with the help of a devoted staff applied these comparatively new homoeopathic ideas which have proved successful.

A Physician's Posy B. Jain Publishers

Dr Dorothy Shepherd had wide experience both in Harley Street and in clinics in the poorer parts of London. Although she had leanings towards Homoeopathy during her student years, it was not until she visited the world-famous Dr J. T. Kent in the USA, and experienced great benefit from this therapy that she fully adopted this method of treatment in her practice. Having embarked upon a career as a Homoeopath she studied the subject deeply and the more she learned the more she became convinced that it is the finest method of dealing with every type of ailment. Being a true healer she believed that every sufferer should know of Homoeopathy and in order to make it more widely known she wrote Homoeopathy for the First Aider which gives simple instructions for the treatment of injuries and common ailments. This book was an immediate success and she then decided to record her experiences in dealing with more serious illness and this book, The Magic of the Minimum Dose followed.
