Home to Ellis Island, New Jersey has been the first stop for many immigrant groups for well over a century. Yet in this highly diverse state, some of the most anti-immigrant policies in the nation are being tested. American suburbs are home to increasing numbers of first and second-generation immigrants who may actually be bypassing the city to settle directly into the neighborhoods that their predecessors have already begun to plant roots in—a trajectory that leads to nativist ordinances and other forms of xenophobia. In *Lady Liberty's Shadow* examines popular white perceptions of danger represented by immigrants and their children, as well the specter that lurks at the edges of suburbs in the shape of black and Latino urban underclasses and the ever more nebulous hazard of (presumed-Islamic) terrorism that threatening to undermine “life as we know it.” Robyn Magalit Rodriguez explores the impact of anti-immigrant municipal ordinances on a range of immigrant groups living in varied suburban communities, from undocumented Latinos in predominantly white suburbs to long-established Asian immigrants in “majority-minority” suburbs. The “American Dream” that suburban life is supposed to represent is shown to rest on a racialized, segregated social order meant to be enjoyed only by whites. Although it is a case study of New Jersey, *Lady Liberty's Shadow* offers crucial insights that can shed fresh light on the national immigration debate. “Madeleine’s inquisitive mind and candid voice are enough to keep us reading.” —The New York Times Book Review New York Times bestselling author Lene Kaaberbøl returns with her beloved protagonist Madeleine Karno—an ambitious young woman who shatters the confines of nineteenth century France. On June 2nd, 1894, in the wake of President Marie Francois Sadi Carnot’s assassination, France descends into chaos and riots in the streets of Varbourg. Many lives are lost in the mayhem, but when one lady of the night is found murdered with brutal incisions and no sign of a struggle, it is clear something is amiss. Madeleine Karno must ask herself the terrifying question: Do they have their very own Jack the Ripper in France? Madeleine is no stranger to cases such as this. Though she is a woman in forensic pathology (a career considered unseemly even for men), her recent work with a string of mysterious deaths and becoming the first female student admitted to the University of Varbroug has earned her some semblance of respect. But there’s only so much her physiology courses can do to help her uncover the mysteries of a mad scientist’s brutal murders. Madeleine must do whatever it takes—investigate the darkest corners of the city and even work undercover—to track down a murderer at large. But if there’s one thing the press has right about “Mademoiselle Death,” it’s this: it takes a woman to find a killer of women.
