Siblings Molly Hart and Kelly Hart have teamed up to present this book of their photographs taken in Hawaii. They chose to focus on the elemental power that is so prevalent in the islands. These pages convey the excitement and beauty of that wonderful place. Born into a family that encouraged multiple creative expressions, Kelly and Molly both picked up photography at an early age, and it has been a continuous thread in their lives ever since. Molly has lived in Hawaii for many years and Kelly visited there for the first time early in 2017. They realized that the photographic records of their experiences would combine nicely into book format. Early on Molly was drawn to the extraordinary clarity and saturation of the tropical light. Abundant subjects of sea, land and botanicals provide daily photo opportunities. Her curiosity takes her deeper into an ordinary scene to find a more abstract expression that can take the viewer into a more aesthetic experience of the inherent beauty. Kelly began a professional career as a photographer when he was attending the University of California at Berkeley. He took pictures for the Drama Department archives and did publicity stills for the Berkeley Folk Music Festival. Several of his photos graced the covers folk music albums. He attended the San Francisco Art Institute for awhile, studying photography. Decades later he dug through his old negatives and slides from his days of living in the San Francisco Bay Area and published a book of these images titled "San Francisco's Psychedelic Sixties: A Photographic Trip with Kelly Hart," now available at Amazon.com.

If ever there were an expert in the history, beauty, and overall best places to visit in Hawaii, Craig E. Burgess would be that person. His first visit to the islands was in 1974, the first of forty-one in total! Providing a glimpse of Hawaiian culture, history, music, art, and daily lifestyles to the reader, *A Fleeting Glimpse of Paradise* was inspired by Craig's time spent with special residents of Hawaii who shared a special "Spirit of Aloha" during his forty-one visits to the islands. His hope is that during your visit, you spend time with local residents of the islands and "talk story" with them, rather than

simply going there for an "Aloha" shirt, flower lei, or some other souvenir. This beautiful collection of anecdotes, inspired poems, and special stories you can't get from travel books encourages readers to find ways to conserve the natural beauty of the islands-and to make the very best of their experience in this magical utopia. About the Author Craig E. Burgess graduated from Audubon High School in Audubon, New Jersey, as the valedictorian of the class of 1963. He entered Rutgers University as a pre-med student, then changed his major after his sophomore year, graduating with a double major in languages: Spanish and German. He received a teaching fellowship at the University of Pennsylvania and, in 1968, was hired as a Spanish instructor for the new Cherry Hill High School East, located only six miles from his home in Audubon. Craig completed his master's degree at Penn-in education-in 1971 and spent his entire twenty-six-year teaching career at CHSE, taking early retirement in 1994. While at East, he served as Language Department Chairperson for six years and as faculty advisor to the Spanish Honor Society, the school's Adopt-A-Grandparent program, and the International Literary Club-a group of students who received national recognition for its language magazine, *Passport*. Craig's writing "career" began in 1987-at the age of forty-two-after receiving national recognition for a poem he had composed on one of his forty-one visits to the Hawaiian Islands: a poem entitled "A Fleeting Glimpse of Paradise," the title selected for this collection of photographs and poems, a collection published after more than thirty years of experiences in the islands.

Hawai'i is famed for its natural beauty and scenic wonders. It has it all and photographer Douglas Peebles has shot it all in over seventy books "€"active fiery volcanoes, stunning waterfalls, amphitheater valleys, unforgettable summits and sunrises, pounding surf, amazing flora and animal life, colorful cultural traditions, and, of course, dreamlike beaches. This book is different. The appeal of the photographs is to our visual senses using the amazing colors of what we see everyday. The focus is on the textures and moods of what is around us in Hawai'i. We are often too preoccupied to take in Hawai'i's vibrant beauty and the array of colors that illuminate the background of our busy lives. Some of the imagery Peebles presents is easily recognizable; most can be seen on any of the islands. Enjoy this new way of looking at our island beauty.
