Cultivating kindness is
easy when you try.

Spread a little kindness
and watch empathy
ripple through the
community... spreading
happiness like
sunshine, connecting
diverse groups like a
footbridge and lifting
hope like a kite string.
How can YOU lift others
with kindness? This

compelling book illustrates simple, yet impactful ways, to spread kindness and brighten the lives of others. Through poetry, the inspiring words uplift young readers, planting seeds of empathy, kindness and community support. The best book for positively teaching kindness. *Kindness is a Kite* by Michelle Schaub carries the key message of kindness as well as how to teach similes and metaphors supported by the many advocates of positive parenting solutions. It'll sit comfortably on your shelf alongside other books that focus on the power of kindness. Like the work of Diane Alber (*Scribble Stones*) and Brandon Walden (*Trees*) This book comes with a free Reader's Guide for

children. The guide is available for free download from the publisher website. Lesson plans, activities and discussion questions to allow parents, teachers and caregivers to explore the topic further and deepen comprehension. [Viewpoints](#) Wilfrid Laurier Univ. Press "A heartfelt memoir about ADHD and learning to read"--Front cover. [The High School Journal](#) Simon and Schuster African American women have played a pivotal part in rock and roll—from laying its foundations and singing chart-topping hits to influencing some of the genre's most iconic acts. Despite this, black women's importance to

the music's history has been diminished by narratives of rock as a mostly white male enterprise. In *Black Diamond Queens*, Maureen Mahon draws on recordings, press coverage, archival materials, and interviews to document the history of African American women in rock and roll between the 1950s and the 1980s. Mahon details the musical contributions and cultural impact of Big Mama Thornton, LaVern Baker, Betty Davis, Tina Turner, Merry Clayton, Labelle, the Shirelles, and others, demonstrating how dominant views of gender, race, sexuality, and genre affected their careers. By uncovering this hidden history of black women in rock and roll, Mahon

reveals a powerful sonic legacy that continues to reverberate into the twenty-first century. *Education for Victory* Taylor & Francis

The achievement of students of color continues to be disproportionately low at all levels of education. More than ever, Geneva Gay's foundational book on culturally responsive teaching is essential reading in addressing the needs of today's

diverse student population. Combining insights from multicultural education theory and research with real-life classroom stories, Gay demonstrates that all students will perform better on multiple measures of achievement when teaching is filtered through their own cultural experiences. This bestselling text has been extensively revised to include expanded coverage of student ethnic groups: African and Latino Americans as well as Asian and Native Americans as well as new material on culturally diverse communication, addressing common myths about language diversity and the effects of "English Plus" instruction.

Adolescence, like childhood, is more than a biologically defined life stage: it is also a sociohistorical construction. The meaning and experience of adolescence are reformulated according to societal needs, evolving scientific precepts, and national aspirations relative to historic conditions. Although adolescence was by no means a "discovery" of the early twentieth century, it did assume an identifiably modern form during the years between the Great War and 1950. The Dominion of Youth: Adolescence and the Making of Modern Canada, 1920 to 1950 captures what it meant

for young Canadians to inhabit this liminal stage of life within the context of a young nation caught up in the self-formation and historic transformation that would make modern Canada. Because the young at this time were seen paradoxically as both the hope of the nation and the source of its possible degeneration, new policies and institutions were developed to deal with the “problem of youth.” This history considers how young Canadians made the transition to adulthood during a period that was “developmental”—both for youth and for a nation also working toward individuation. During the years considered here, those who occupied this

“dominion” of youth would see their experiences more clearly demarcated by generation and culture than ever before. With this book, Cynthia Comacchio offers the first detailed study of adolescence in early-twentieth-century Canada and demonstrates how young Canadians of the period became the nation’s first modern teenagers.

Examining nineteenth-century British hymns for children, Alisa Clapp-Itnyre argues that the unique qualities of children’s hymnody created a space for children’s empowerment. Unlike other literature of the era, hymn books were often compilations of

many writers' hymns, presenting the discerning child with a multitude of perspectives on religion and childhood. In addition, the agency afforded children as singers meant that they were actively engaged with the text, music, and pictures of their hymnals. Clapp-Itnyre charts the history of children's hymn-book publications from early to late nineteenth century, considering major denominational movements, the importance of musical tonality as it affected the popularity of hymns to both adults and children, and children's reformation of adult society provided by such genres as missionary and temperance hymns. While hymn

books appear to distinguish 'the child' from 'the adult', intricate issues of theology and poetry - typically kept within the domain of adulthood - were purposely conveyed to those of younger years and comprehension. Ultimately, Clapp-Itnyre shows how children's hymns complicate our understanding of the child-adult binary traditionally seen to be a hallmark of Victorian society. Intersecting with major aesthetic movements of the period, from the peaking of Victorian hymnody to the Golden Age of Illustration, children's hymn books require scholarly attention to deepen our understanding of the complex aesthetic network for children

and adults. Informed by extensive archival research, *British Hymn Books for Children, 1800-1900* brings this understudied genre of Victorian culture to critical light.

Ten years ago, Reading Power was launched in an elementary school in Vancouver. It has since evolved into a recognized approach to comprehension instruction being implemented across Canada, in the United

States, United Kingdom, Sweden, and China. This groundbreaking approach showed teachers how to help students think while they read — connect, question, visualize, infer, and transform. Since the publication of the first edition of Reading Power, Adrienne Gear has continued to reflect on and refine her ideas about metacognition, comprehension instruction, and the Reading Power strategies. This revised and expanded edition shares these new understandings, and offers teachers new ideas, new lessons, and, of course, new anchor books to support the Reading Power principles. An ideal resource for teachers familiar to

this strategic approach to teaching reading, or for those looking for new ways to connect thinking with reading.

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7

Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age

and bring incredible results, proving that it's never too early to teach someone how to live well.

A compassionate, shame-free guide for your darkest days “A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized.”—Kay Warren, cofounder of Saddleback Church
What happens when loving Jesus doesn't cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to “choose

joy” and “pray more.” So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you're left wondering if God has abandoned you. You just want a way out. But there's hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the

God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn't look like what you expect. *We Play School!* Cardinal Rule Press Dance Pedagogy is a comprehensive resource designed for dance students and teaching artists to develop skills and strategies in the multifaceted practice of teaching dance.
