The Oral History Project is a publication whose time has come. At a time when fill-in-the-blank exercises, short answer assessments, and left-brain thinking is the vogue, The Oral History Project says, "Wait a minute, what about long thinking and right-brain activity?" Can there be anything more valuable than that . . . ' - Donald H. Graves You've heard "Buy

local" and "Think global, act local." Now here's a stirring take on the idea for classroom teachers: Learn local. With the Oral History Project you can help your students do just that, interviewing members of the surrounding community and creating a final project that combines crucial reading, writing, speaking, questioning, and listening skills into a powerful, literacy-based learning experience. The Oral History Project is a complete guide to a proven, effective oral history project that will motivate and engage your students, connect them to their community, and

teach them valuable, lifelong skills. Your kids will sharpen their language arts abilities and uncover new competencies as they: select an interviewee and compose questions that generate great stories build background knowledge on their subject's life through traditional and Web-based research methods find primary sources and artifacts to build connections between interviewer and interviewee conduct the interview write a feature article that documents and shares the subject's oral history write a personal memoir from the person's point of view assemble all the parts into a cohesive oral and visual presentation create an original piece of research. In addition, The Oral History Project includes a CD that can be used by individual teachers or staff developers to

become familiar with the essential components of the project. It demonstrates how this multidimensional learning experience works in the classroom and also contains sample projects from the authors' home state and communities. Immerse your students in the curriculum and the community in an exciting new way. Read The Oral History Project and find out why the time has come to "Learn local."

Most of us know bits and pieces of our history but would like to be more sure of how it all fits together. The trick is to find a history that is so absorbing you will want to read it from beginning to end. With this book, Desmond Morton, one of Canada's most noted and highly

respected historians, shows how the choices we can make at the dawn of the 21st century have been shaped by history. Morton is keenly aware of the links connecting our present, our past, and our future, and in one compact and engrossing volume he pulls off the remarkable feat of bringing it all together – from the First Nations before the arrival of the Europeans to the failure of the Charlottetown accord and Jean Chretien’s third term as prime minister. His acute observations on the Diefenbaker era, the effects of the post-war influx of immigrants, the flag debate, the baby boom, the Trudeau years and the constitutional crisis, the Quebec referendum, and the rise of the Canadian Alliance all provide an invaluable background to understanding

the way Canada works today.

Sir John Seeley once wrote that the British Empire was acquired in "a fit of absence of mind." Whatever the truth of this comment, it is certainly arguable that the Empire was dismantled in such a fit. This collection deals with a neglected subject in post-Confederation Canadian history -- the implications to Canada and Canadians of British decolonization and the end of empire. *Canada and the End of Empire* looks at Canadian diplomatic relations with the United Kingdom and the United States, the Suez crisis, the changing economic relationship with Great Britain in the 1950s and 1960s, the role of educational

and cultural institutions in maintaining the British connection, the royal tour of 1959, the decision to adopt a new flag in 1964, the efforts to find a formula for repatriating the constitution, the Canadianization of the Royal Canadian Navy, and the attitude of First Nations to the changed nature of the Anglo-Canadian relationship. Historians in Commonwealth countries tend to view the end of British rule from a nationalist perspective. *Canada and the End of Empire* challenges this view and demonstrates the centrality of imperial history in Canadian historiography. An important addition to the growing canon of empire studies and imperial history, this book will be of interest to historians of the Commonwealth, and to scholars and students interested in the

relationship between colonialism and nationalism.

A City in the Making Prentice Hall History of the Canadian Peoples has been one of the most-respected Canadian history texts for many years. The sixth edition builds on established strengths - superior author reputations, social history focus, four-colour design, and student-friendly, vivid writing style - with the addition of some attractive new features. Maps have been re-drawn and augmented; there are more colour illustrations throughout; and many new highlight boxes point out and explain aspects of historiography.

Without the Canadian mediation between the two world blocs in 1947, UN

resolution 181(II) to partition Palestine would likely have failed to secure the two thirds majority necessary for adoption by the General Assembly. In fact, the Canadians were among the main initiators of the partition plan and the establishment of a Jewish state. Tauber demonstrates that this Canadian involvement was not an official government policy, but rather a private initiative of some high-ranking Canadian foreign service officials who believed partition to be the only practicable solution for the Palestine question. Thus, due to humanitarian concerns, these officials followed an independent policy against the express will of their prime minister. The results would forever change the history of the Middle East. Tauber explores this little known aspect

of Canadian foreign policy. Canada's under secretary of state for external affairs, Lester Pearson, assisted by other foreign service officials, decided on his own accord which policy to follow in this instance. Based upon many original Canadian, British, American, UN, and Israeli documents, this study shows that Pearson's motivation was not the desire to make Canada a middle power involved in international affairs, as some scholars of Canadian international affairs have previously argued. Instead, the impact of the Holocaust drove these officials to break ranks with their superiors at home to support the establishment of a Jewish state in Palestine.

In this collection of essays marking the centenary of Pearson's birth, eighteen leading academics, journalists, public servants, and politicians recreate and reassess Pearson's premiership from 1963 to 1968. Robert Bothwell (Toronto) introduces Pearson the man and Denis Stairs (Dalhousie) presents his political ideas. Governor General award-winning

author and journalist Christina McCall and J.L. Granatstein (Canadian Institute of International Affairs) compare Pearson and his nemesis, John Diefenbaker. Stephen Azzi (House of Commons) and Greg Donaghy (Department of Foreign Affairs) write respectively about the prime minister's relations with Walter Gordon and Paul Martin Sr. Tom Kent (Queen's) and Penny Bryden (Mount Allison) discuss the Pearson welfare state, while Claude Ryan, editor of *Le Devoir* in the 1960s, and Michael Behiels (Ottawa) debate national unity. Patrick Brennan (Calgary) looks at the media. Monique Bégin (Ottawa), Andrew Cohen (Globe and Mail), Blair Neatby (Carleton), and former public servants Ross Campbell, Al Johnson, Geoffrey Pearson, and Gordon Robertson gauge the scope

of Pearson's legacy. The collection also includes an introduction by the editor and a foreword by Prime Minister Jean Chrétien.

How does the United States view Canada? As a country too unimportant to deserve any defined policy, or one that is to be used simply to complement the U.S. mission in the world? This book investigates the gap between Canadian perceptions of American policy toward Canada and actual U.S. policy. Mahant and Mount examine details of White

House policy from 1945 to the 1980s to assess the extent to which the United States could be said to have had a Canada policy. They use a large number of cases dealing with political and economic issues to illustrate their arguments, concluding that for the most part Canada has been unimportant in Washington. In so doing, they challenge the popular nationalist view that Canada has been treated as peripheral and dependent, and the impression that Canadian advice has been respected and taken into account by Washington. An examination of the nature of middle power diplomacy in the post-Cold War era. As the rigid hierarchy of the bipolar

era wanes, the potential ability of middle powers to open segmented niches opens up. This volume indicates the form and scope of this niche-building diplomatic activity from a bottom up perspective to provide an alternative to the dominant apex-dominated image in international relations.

Written by J.L. Granatstein, one of the country's leading political and military historians, Canada's Army traces the full three-hundred-year history of the Canadian military. This thoroughly revised third edition brings Granatstein's work up to date with fresh material and new scholarship on the evolving role of the military in Canadian society. It includes new coverage of the War in

Afghanistan; NATO deployments to Poland, Latvia, and Iraq; aid to the civil power deployments; and the role of the army reserve. Masterfully written and passionately argued, Canada's Army offers a rich analysis of the political context for the battles and events that shape our understanding of the Canadian military.

Human rights, equality, and social justice are at the forefront of public concern and political debate in Canada. Global events—especially the "war on terrorism"—have fostered further interest in the abuse of human rights, especially when sanctioned or perpetuated by democratic governments. This groundbreaking contributed volume seeks to shed light on this topic by uniting original essays that examine the history of human rights in Canada. Contributors explore a variety of themes integral to the post-confederation period, including immigration and ethnicity, gender, sexuality, class, disability, state formation, and provincial-federal relations. Three key issues emerge throughout: incidents of discrimination in

both government and society, the efforts of human rights and civil liberties activists to create a more open and tolerant society, and the implementation of state legislation designed to protect or enhance civil rights.

In 1957, Lester Pearson won the Nobel Peace Prize for creating the United Nations Emergency Force during the Suez crisis. The award launched Canada's enthusiasm and reputation for peacekeeping. Pearson's *Peacekeepers* explores the reality behind the rhetoric by offering a detailed account of the UNEF's decade-long effort to keep peace along the Egyptian-Israeli border. While the operation was a tremendous

achievement, the UNEF also encountered formidable challenges and problems. This nuanced account of Canada's participation in the UNEF challenges perceived notions of Canadian identity and history and will help Canadians to accurately evaluate international peacekeeping efforts today.

The Toronto Neighbourhoods bundle presents a collection of titles that provide fascinating insight into the history and development of Canada's largest and most diverse city. Beginning with histories of Canada's longest street and the early days of what was once called York (*The Yonge Street Story, 1793-1860*; *A City in the Making*; *Opportunity Road*), the titles in the

bundle go on to examine the development of particular unique neighbourhoods that help give the city its character (Willowdale, Leaside). Finally, Mark Osbaldeston's acclaimed, award-winning *Unbuilt Toronto* and *Unbuilt Toronto 2* go beyond history and into the arena of speculation as the author details ambitious and possibly city-changing plans that never came to fruition. For lovers of Toronto, this collection is a bonanza of insights and facts. Includes *A City in the Making*, *Leaside Opportunity Road*, *Unbuilt Toronto*, *Unbuilt Toronto 2*, *Willowdale The Yonge Street Story, 1793-1860*

Canada : A History offers a flowing story with its infusion of people, including marginalized groups, into its rich narrative. Canada is unique in its presentation of Canadian history by making the story of the majority of the people equally important to the story of its leaders, and by demonstrating the ways in which each affected the other. Offering a balanced coverage of economic, political, social, and cultural history, as well as regional versus national history, this text provides a distinctively comprehensive view of Canada and her history.

Personal Policy Making

Dundurn
An evocative account of fourteen European kingdoms-their rise, maturity,

and eventual disappearance. There is something profoundly romantic about lost civilizations. Europe's past is littered with states and kingdoms, large and small, that are scarcely remembered today, and while their names may be unfamiliar-Aragon, Etruria, the Kingdom of the Two Burgundies-their stories should change our mental map of the past. We come across forgotten characters and famous ones-King Arthur and Macbeth, Napoleon and Queen Victoria, right up to Stalin and Gorbachev-and discover how faulty memory can be, and how much we can glean from these lost empires. Davies peers through the cracks in the mainstream accounts of modern-day states to dazzle us with extraordinary stories of barely remembered pasts, and

of the traces they left behind. This is Norman Davies at his best: sweeping narrative history packed with unexpected insights. Vanished Kingdoms

will appeal to all fans of unconventional and thought-provoking history, from readers of Niall Ferguson to Jared Diamond.
