Jason Chin's *Redwoods* tells the story of a boy who discovers a book about redwoods and finds himself in their midst as he turns the pages. An ordinary train ride becomes an extraordinary trip to the great ancient forests. A subway trip is transformed when a young boy happens upon a book about redwood forests. As he reads the information unfolds, and with each new bit of knowledge, he travels—all the way to California to climb into the Redwood canopy. Crammed with interesting and accurate information about these great natural wonders, Jason Chin's first book is innovative nonfiction set within a strong and beautiful picture storybook. Chin's approach makes *Redwoods* a must-have common core tool for teachers and librarians introducing scientific principals to young students.

International scholars from architecture, design, urban planning, and interior design here reappraise modern life in the context of practices of dwelling over the span of the postwar period. Reassessing culture and the economic and political effects on civilian life, this collection looks at what role material objects, interior spaces, and architecture played in quelling or fanning the anxieties of modernism's ordinary denizens.

The Book of Tea Catapult

NATIONAL BESTSELLER • The trendsetting designer known for her effortless style shares the secrets of the art of layering, with more than 250 gorgeous photographs of her signature interiors.

“Livability is my true north. The materials I use time and again all change with age and wear. Not only is that okay, it’s how you achieve more than a re-creation of what you’ve already seen, or what somebody else has done. You can do this, too—I promise.”—from the introduction
Designing a room with all the vibes comes down to how you layer your décor. The more you can mix the elements of your room—your pillows, objects, patterns, and lighting—the more finished it’ll feel: not too new, not too old, but just right. Known for her eclectic approach that stems from her California cool, Amber Lewis trains your eye in *Made for Living*, offering friendly advice on everything from nailing that perfect shade of paint to mismatching patterns with wild abandon to choosing a stone finish for new countertops. These pages will help you design a home that’s made to be lived in.

The New Outsiders celebrates outdoor creativity. Fresh ideas, adventurers and sustainable entrepreneurs inspire a new outdoor generation to live a life less ordinary under the open sky. There is something about the great outdoors that makes us want to go back each time we return home from a field trip. We crave the crisp fresh air. We desire the raw experience that only nature can grant us. Driven by the will to unplug from our daily routines we seek to reconnect with something that feels more authentic. *The New Outsiders* celebrates outdoor creativity and presents brands and ideas shaping the ethos of today's adventurers and entrepreneurs. They develop products, run companies, explore far-flung countries and pursue activities with sustainability and social responsibility in mind. *The New Outsiders* introduces some of the most outstanding of these free spirits and presents in-depth features on niche activities and must-visit locations. Co-edited by creative director and outdoor enthusiast Jeffrey Bowman this volume is a must have for everyone who wants to call the great outdoors their second home.

A brilliant, ambitious follow-up to *The Secret Lives of Buildings*, in which Hollis turns his focus from the great architectural constructions of the past to the now-vanished chambers they once contained. The rooms we live in are always more than just four walls. As we decorate these spaces and fill them with objects and friends, they shape our lives and become the backdrop to our sense of self. One day, the structures will be gone, but even then, traces of the stories and the memories they contained will persist. In this dazzling work of imaginative reconstruction, Edward Hollis takes us to the sites of great abodes now lost to history and piecing together the fragments that remain, re-creates their vanished chambers. From Rome's palatine to the old palace of Westminster and the petit Trianon at Versailles, from the sets of MGM studios in Hollywood to the pavilions of the Crystal Palace and the author's own grandmother's sitting room, *The Memory Palace* is a glittering treasure trove of luminous forgotten places and the alluring people who lived in them.

The study of human body measurements on a comparative basis is known as anthropometrics. Its applicability to the design process is seen in the physical fit, or interface, between the human body and the various components of interior space. *Human Dimension and Interior Space* is the first major anthropometrically based reference book of design standards for use by all those involved with the physical planning and detailing of interiors, including interior designers, architects, furniture designers, builders, industrial designers, and students of design. The use of anthropometric data, although no substitute for good design or sound professional judgment should be viewed as one of the many tools required in the design process. This comprehensive overview of anthropometrics consists of three parts. The first part deals with the theory and application of anthropometrics and includes a special section dealing with physically disabled and elderly people. It provides the designer with the fundamentals of anthropometrics and a basic understanding of how interior design standards are established. The second part contains easy-to-read, illustrated anthropometric tables, which provide the most current data available on human body size, organized by age and percentile groupings. Also included is data relative to the range of joint motion and body sizes of children. The third part contains hundreds of dimensioned drawings, illustrating in plan and section the proper anthropometrically based relationship between user and space. The types of spaces range from residential and commercial to recreational and institutional, and all dimensions include metric conversions. In the Epilogue, the authors challenge the interior design profession, the building industry, and the furniture manufacturer to seriously explore the problem of adjustability in design. They expose the fallacy of designing to accommodate the so-called average man, who, in fact, does not exist. Using government data, including studies prepared by Dr. Howard Stoudt, Dr. Albert Damon, and Dr. Ross McFarland, formerly of the Harvard School of Public Health, and Jean Roberts of the U.S. Public Health Service, Panero and Zelnik have devised a system of interior design reference standards, easily understood through a series of charts and situation drawings. With *Human Dimension and Interior Space*, these standards are now accessible to all designers of interior environments.

The celebrated design expert and creator of EyeSwoon shares an inspiring look at how creatives arrange and decorate their homes. Beautiful design isn't just pleasant to look at; it improves the quality of our lives. In *Live Beautiful*, EyeSwoon creator Athena Calderone taps into her international network of interior decorators, fashion designers, and tastemakers to reveal how carefully crafted interiors come together. She also opens the doors to two of her own residences. With each homeowner, Athena explores the spark of inspiration that started their design journey. She then breaks down the details of the rooms—like layered textures and patterns, collected pieces, and customized vignettes—and offers helpful tips on how to bring these elevated elements into your own space. Filled with gorgeous photography by Nicole Franzen, *Live Beautiful* is both a showpiece of exquisite design and a guide to creating a home that's thoughtfully put together.

A gorgeous guide to the simple pleasures of cottage living—antique hunting, gardening, and enjoying the seasons—from a beloved British design and fashion influencer. A happy home is

everything. No one knows this better than stylist and blogger Paula Sutton, who is behind the beloved Instagram account Hill House Vintage. Like many people, Paula gave years of her life to the busyness of the city until she traded catwalks for dog walks and couture for manure after leaving office life a decade ago. Beautifully illustrated with hundreds of photographs and drawings, this book gives you a full glimpse into life at Hill House. Inspired by Paula's love of all things vintage, and filled with simple, stylish, and thrifty tips and tricks for every area of the house, this book will bring the best of country life into your home, wherever you are. In a world that often moves too fast, Hill House Living is an invitation to take a moment to style, make or cook something nice for its own sake—and yours. Slow down, cozy up, and join the quest to making each day more intentionally joyful.

The designer and author of *Habitat* “shares how she imbues any space with warmth and energy” in this elevated yet accessible follow-up (*MarthaStewart.com*). *Down to Earth* picks up right where Lauren Liess's critically acclaimed *Habitat* left off. While *Habitat* walked readers through the decorating process step-by-step, Liess's latest title takes a step beyond the basics and invites readers to incorporate the main components of her familiar design aesthetic: nature, easy living, and approachability. With evocative photos and substantive design advice, *Down to Earth* focuses on creating a lifestyle that inspires creativity and functionality. Throughout the book, Liess shows readers how to incorporate six guiding principles in six unique homes: a new farmhouse, a classic American historical home, a lakeside contemporary house, a modern villa, a turn-of-the-century American Foursquare, and a cedar and glass house on a bluff. While each home has a different architectural style, fingerprints of Liess's down-to-earth style are evident throughout. “Full of the stunning images you would expect. They will spark your creativity and inspire your own designs. However, the real beauty comes from Lauren showing readers how to create ease in their own homes.” —Ariadne Shoppe “Her style embraces lived-in, vintage-inspired interiors . . . Her philosophy is that if your home is relaxed, then you're relaxed.” —One Kings Lane

“In the tradition of Parish Hadley alumni such as Bunny Williams and David Easton, renowned interior designer Brian J. McCarthy creates dynamic personalities within each home he designs. Known for his attention to detail and love of texture, he brings a refreshing, unique perspective to each of his projects, living and working by the motto that no two homes are ever alike. This beautiful volume explores nine of his favorite projects around the country, from the Hamptons to Southern California. Gorgeous, inspiring photographs, alongside McCarthy's personal, informative text, take the reader through his creative process, offering insight into his inspiration and the design decisions by which his plans become reality. Meticulously layering interior architecture, finishes, furniture, art, and decorating objects, McCarthy creates rooms that seem to have lived lives of their own”—*Amazon.com*, viewed April 21, 2014.

The antistyle bible for those who ignore makeover culture, *Living Normally* is an interiors book with a difference. Fifteen inhabitants of ordinary homes are given the chance to air their views on life at home today and to have the world come for a cuppa at their place. The results are a snapshot of Britain today and a refreshing reminder that a home should be a place to escape to; to feel happy in; and to live in. This affectionately photographed look at our everyday homes is a celebration of nice people, the modern family and our need to surround ourselves with memories and the curious ephemera of daily existence. Meet Evelyn, the lady who came from St Vincent and stayed because she loves the snow. Share some time with Ivy, whose house is full of memories of her children and her beloved Albert, the spoon-playing policeman whom she recently lost. Enjoy these and all the others in this charming evocation of simple existence.

The Book of Tea is a brief but classic essay on tea drinking, its history, restorative powers, and rich connection to Japanese culture. Okakura felt that "Teaism" was at the very center of Japanese life and helped shape everything from art, aesthetics, and an appreciation for the ephemeral to architecture, design, gardens, and painting. In tea could be found one source of what Okakura felt was Japan's and, by extension, Asia's unique power to influence the world. Containing both a history of tea in Japan and lucid, wide-ranging comments on the schools of tea, Zen, Taoism, flower arranging, and the tea ceremony and its tea-masters, this book is deservedly a timeless classic and will be of interest to anyone interested in the Japanese arts and ways. The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.

Illuminated manuscripts are an excellent source of information about the interiors inhabited by people in the Middle Ages and the Renaissance. Artists regularly depicted the castles and palaces of the ruling classes, as well as the houses of ordinary people—merchants, craftsmen and peasants.

This attractive new book is the first to study the subject in such depth, and it uncovers a wealth of little-known illuminations that help us to learn more about life at home, in workshops and elsewhere. The author presents manuscript miniatures as illustrations to an account of house interiors which includes their architectural features (such as windows, doors or fireplaces), furniture and other household objects. She concentrates on the social, cultural and stylistic aspects of Gothic domestic settings and presents them in the context of their Romanesque antecedents and Renaissance successors.
