Coyote is a dreamer and a drama queen, brazen and brave, faithful yet fiercely independent. She beats her own drum and sews her own crop tops. A gifted equestrian, she's half dog, half coyote, and all power. With the help of her trusty steed, Red, there's not much that's too big for her to bite off, chew up, and spit out right into your face, if you deserve it. But when Coyote and Red find themselves on the run from a trio of vengeful bad dogs, get clobbered by arrows, and are tragically separated, our protagonist is left fighting for her life and longing for her displaced best friend. Taken in by a wolf clan, Coyote may be wounded, but it's not long before she's back on the open road to track down Red and tackle the dogs who wronged her. An homage to and a lampoon of Westerns like Butch Cassidy and the Sundance Kid, Lisa Hanawalt's *Coyote Doggirl* is a self-aware, playful subversion of tropes. As our fallible hero attempts to understand the culture of the wolves, we see a journey in understanding and misunderstanding, adopting and co-opting. Uncomfortable at times but nonetheless rewarding and empowering, the story of these flawed, anthropomorphized characters is nothing if not relentlessly hilarious and heartbreakingly human. Told in Hanawalt's technicolor absurdist style, *Coyote Doggirl* is not just a send-up of the Western genre but a deeply personal story told by an enormously talented cartoonist.

The new book by the author of *The Grog Log*, *Intoxica* and *Taboo Table*. Beach Bum Berry, as he is better known, is America's leading authority on tropical drinks and polynesian pop culture. In this all new book, Berry not only offers up tantalizing new drink recipes, but tells stories about some of the most famous figures of their time. The Bum applies the same dogged research to the untold stories of the people behind the drinks. Stories culled from over 100 interviews with those who actually created the mid-century Tiki scene -- people as colorful as the drinks they invented, or served, or simply drank. People like: Leon Lontoc, the Don The Beachcomber's waiter who served Frank Sinatra and Marlon Brando by night, and acted in their movies by day; Henry Riddle, the Malibu Seacomber bartender who fed items about his famous customers to infamous gossip columnist Louella Parsons, till the day Howard Hughes found him out; and Duke Kamanamoku, whose manager turned him from Olympic champion into reluctant restaurateur.

"This edgy fantasy doesn't just blur boundaries of genre, of gender, of past and present, life and death--it explodes them." --Cinda Williams Chima, New York Times bestselling author of the *Seven Realms* series and the *Shattered Realms* series. Without the dead, she'd be no one. Odessa is one of Karthia's master necromancers, catering to the kingdom's ruling Dead. Whenever a noble dies, it's Odessa's job to raise them by retrieving their soul from a dreamy and dangerous shadow world called the Deadlands. But there is a cost to being raised: the Dead must remain shrouded. If even a hint of flesh is exposed, a grotesque transformation begins, turning the Dead into terrifying, bloodthirsty Shades. A dramatic uptick in Shade attacks raises suspicions and fears around the kingdom. Soon, a crushing loss of one of her closest companions leaves Odessa shattered, and reveals a disturbing conspiracy in Karthia: Someone is intentionally creating Shades by tearing shrouds from the Dead--and training them to attack. Odessa is forced to contemplate a terrifying question: What if her magic is the weapon that brings the kingdom to its knees? Fighting alongside her fellow mages--and a powerful girl as enthralling as she is infuriating--Odessa must untangle the gruesome plot to destroy Karthia before the Shades take everything she loves. Perfect for fans of *Three Dark Crowns* and *Red Queen*, *Reign of the Fallen* is a gutsy, unpredictable read with a surprising and breathtaking LGBT romance at its core.

A NEW YORK TIMES EDITORS' CHOICE NAMED A BEST BOOK OF THE YEAR BY TIME , NPR, INSTYLE, AND GOOD HOUSEKEEPING "A sensational new book [that] tries to figure out whether it's possible to live an ethical life in a capitalist society. . . . The results are enthralling." —Associated Press A timely and arresting new look at affluence by the New York Times bestselling author, "one of the leading lights of the modern American essay." —Financial Times "My adult life can be divided into two distinct parts," Eula Biss writes, "the time before I owned a washing machine and the time after." Having just purchased her first home, the poet and essayist now embarks on a provocative exploration of the value system she has bought into. Through a series of engaging exchanges—in libraries and laundromats, over barstools and backyard fences—she examines our assumptions about class and property and the ways we internalize the demands of capitalism. Described by the New York Times as a writer who "advances from all sides, like a chess player," Biss offers an uncommonly immersive and deeply revealing new portrait of work and luxury, of accumulation and consumption, of the value of time and how we spend it. Ranging from IKEA to Beyoncé to Pokemon, Biss asks, of both herself and her class, "In what have we invested?"

Edible insects have always been a part of human diets, but in some societies there remains a degree of disdain and disgust for their consumption. Although the majority of consumed insects are gathered in forest habitats, mass-rearing systems are being developed in many countries. Insects offer a significant opportunity to merge traditional knowledge and modern science to improve human food security worldwide. This publication describes the contribution of insects to food security and examines future prospects for raising insects at a commercial scale to improve food and feed production, diversify diets, and support livelihoods in both developing and developed countries. It shows the many traditional and potential new uses of insects for direct human consumption and the opportunities for and constraints to farming them for food and feed. It examines the body of research on issues such as insect nutrition and food safety, the use of insects as animal feed, and the processing and preservation of insects and their products. It highlights the

need to develop a regulatory framework to govern the use of insects for food security. And it presents case studies and examples from around the world. Edible insects are a promising alternative to the conventional production of meat, either for direct human consumption or for indirect use as feedstock. To fully realise this potential, much work needs to be done by a wide range of stakeholders. This publication will boost awareness of the many valuable roles that insects play in sustaining nature and human life, and it will stimulate debate on the expansion of the use of insects as food and feed.

In this amusing and brilliantly conceived book, Michael Sims introduces you to your body. Moving from head to toe, Sims blends cultural history with evolutionary theory to produce a wonderfully original narrative in which he analyzes the visible parts of the body. In this fascinating brew of science and storytelling, readers encounter not only accessible explanations of the mechanics of their anatomy, but also the layers of mythology, religious lore, history, Darwinian theory, and popular culture that have helped to shape our understanding of any given body part. A titillating and unique book, *Adam's Navel* is learned and entertaining, a marvelous lens through which to study the form we all inhabit—but may not really understand.

Reign of the Fallen Farrar, Straus and Giroux

Four novellas from Stephen King bound together by the changing of seasons, each taking on the theme of a journey with strikingly different tones and characters. This gripping collection begins with "Rita Hayworth and the Shawshank Redemption," in which an unjustly imprisoned convict seeks a strange and startling revenge--the basis for the Best Picture Academy Award-nominee *The Shawshank Redemption*. Next is "Apt Pupil," the inspiration for the film of the same name about top high school student Todd Bowden and his obsession with the dark and deadly past of an older man in town. In "The Body," four rambunctious young boys plunge through the facade of a small town and come face-to-face with life, death, and intimations of their own mortality. This novella became the movie *Stand By Me*. Finally, a disgraced woman is determined to triumph over death in "The Breathing Method."--Provided by publisher.

Anthropology is the study of all humans in all times in all places. But it is so much more than that. "Anthropology requires strength, valor, and courage," Nancy Scheper-Hughes noted. "Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. . . . It teaches students not to be afraid of getting one's hands dirty, to get down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a "heroic" profession." What is the payoff for this heroic journey? You will find ideas that can carry you across rivers of

doubt and over mountains of fear to find the the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the "first draft edition" from 2017 and includes 7 new chapters.

In almost all critical writings on the horror film, woman is conceptualised only as victim. In *The Monstrous-Feminine* Barbara Creed challenges this patriarchal view by arguing that the prototype of all definitions of the monstrous is the female reproductive body. This edition of *The Grog Log* is NOT SPIRAL BOUND. Tiki bar mixology is a lost art--but the *Grog Log* rescues it. A twenty-page introduction traces the history of Polynesian Pop, then teaches you everything you need to know about how to make the *Grog Log*'s eighty tropical drink recipies. Many of these recipies have never before been published anywhere--including vintage "lost" recipies by Don the Beachcomber, Trader Vic, and long-gone Polynesian restaurants from the island of Manhattan to the islands of Hawaii. Profusely illustrated with vintage tiki menu graphics from the '50 and '60s, with cover art by famed Exotica artist Bosko. Review SIPS - Trader Vic Drank Here By WILLIAM GRIMES As John Glenn was orbiting the earth for the first time, his fellow Americans were deep into the long-lived craze known as tiki. This gaudy life-style package -- a blend of Polynesian kitsch, fake island food and lethal rum drinks -- began in the late 1930's and early 40's with Los Angeles restaurants like Don the Beachcomber and Trader Vic's, and gradually spread to the suburban patio before fizzling out in the early 1970's. It's back, of course. Jeff Berry and Annene Kaye, serious students of tiki, have compiled a serious tiki cocktail book, "*Beachbum Berry's Grog Log*." In 96 spiral-bound pages adorned with tiki illustrations, the authors have ranged far and wide to gather classic Polynesian fakes, like the Fog Cutter from Trader Vic's, the Missionary's Downfall from Don the Beachcomber and the Sidewinder's Fang from the Lanai Restaurant in San Mateo, Calif. They have even managed to unearth Manhattan tiki cocktails, like the Hawaiian Room, served at the old Hotel Lexington in the 1940's, and the Headhunter, served at the Hawaii Kai in the 1960's.

The authors have also come up with their own tiki-inspired originals, like Hell in the Pacific (151-proof Demerara rum, lime juice, maraschino liqueur and grenadine), and the Waikikian (light Puerto Rican Rum, dark Jamaican rum, lemon juice, curacao and orgeat syrup). It's no longer possible to eat Tonga Tabu Native Drum Steak, which was a featured menu item at the now-defunct Islander in Beverly Hills ("from the ovens of the ancient goddess of Bora Bora, Pele, Mistress of Flame"), but you can shake up a Shark's Tooth or a Shrunken Skull. As Mr. Berry and Ms. Kaye see it, they are giving the country the perfect drink book for the age of malaise. "If we're going to feel like zombies," they write in their preface, "we may as well be drinking them." END -- Publisher Comments About the Author Jeff Berry is a learned fan of tropical drinks and is perhaps the foremost authority on the subject. He is also a screenwriter and filmmaker.

Having and Being Had Simon and Schuster

In a crucial shift within posthumanistic media studies, Bernhard Siegert dissolves the concept of media into a network of operations that reproduce, displace, process, and reflect the distinctions fundamental for a given culture. *Cultural Techniques* aims to forget our traditional understanding of media so as to redefine the concept through something more fundamental than the empiricist study of a medium's individual or collective uses or of its cultural semantics or aesthetics. Rather, Siegert seeks to relocate media and culture on a level where the distinctions between object and performance, matter and form, human and nonhuman, sign and channel, the symbolic and the real are still in the process of becoming. The result is to turn ontology into a domain of all that is meant in German by the word Kultur. Cultural techniques comprise not only self-referential symbolic practices like reading, writing, counting, or image-making. The analysis of artifacts as cultural techniques emphasizes their ontological status as "in-betweens," shifting from firstorder to second-order techniques, from the technical to the artistic, from object to sign, from the natural to the cultural, from the operational to the representational. *Cultural Techniques* ranges from seafaring, drafting, and eating to the production of the sign-signal distinction in old and new media, to the reproduction of anthropological difference, to the study of trompe-l'oeils, grids, registers, and doors. Throughout, Siegert addresses fundamental questions of how ontological distinctions can be replaced by chains of operations that process those alleged ontological distinctions within the ontic. Grounding posthumanist theory both historically and technically, this book opens up a crucial dialogue between new German media theory and American postcybernetic discourses.

Radical Chic and Mau-Mauing the Flak Catchers is classic Tom Wolfe, a funny, irreverent, and "delicious" (The Wall Street Journal) dissection of class and status by the master of New Journalism. The phrase 'radical chic' was coined by Tom Wolfe in 1970 when Leonard Bernstein gave a party for the Black Panthers at his duplex apartment on Park Avenue. That incongruous scene is re-created here in high fidelity as is another meeting ground between militant minorities and the liberal white establishment. *Radical Chic* provocatively explores the relationship between Black rage and White guilt. *Mau-Mauing the Flak Catchers*, set in San Francisco at the Office of Economic Opportunity,

details the corruption and dysfunction of the anti-poverty programs run at that time. Wolfe uncovers how much of the program's money failed to reach its intended recipients. Instead, hustlers gamed the system, causing the OEO efforts to fail the impoverished communities.
