A searing memoir of
reckoning and healing by
acclaimed journalist
Stephanie Foo,
investigating the little-
understood science
behind complex PTSD and
how it has shaped her life
“Achingly exquisite . . .
providing real hope for
those who long to
heal.”—Lori Gottlieb, New
York Times bestselling

author of *Maybe You Should Talk to Someone* ONE OF THE BEST BOOKS OF THE YEAR: The Washington Post, Cosmopolitan, NPR, Mashable, She Reads, Publishers Weekly By age thirty, Stephanie Foo was successful on paper: She had her dream job as an award-winning radio producer at *This American Life* and a loving boyfriend. But behind her office door, she was having panic attacks and sobbing at her desk every morning. After years of questioning what was

wrong with herself, she was diagnosed with complex PTSD—a condition that occurs when trauma happens continuously, over the course of years. Both of Foo’s parents abandoned her when she was a teenager, after years of physical and verbal abuse and neglect. She thought she’d moved on, but her new diagnosis illuminated the way her past continued to threaten her health, relationships, and career. She found limited resources to help her, so Foo set out to heal

herself, and to map her experiences onto the scarce literature about C-PTSD. In this deeply personal and thoroughly researched account, Foo interviews scientists and psychologists and tries a variety of innovative therapies. She returns to her hometown of San Jose, California, to investigate the effects of immigrant trauma on the community, and she uncovers family secrets in the country of her birth, Malaysia, to learn how trauma can be inherited through generations.

Ultimately, she discovers that you don't move on from trauma—but you can learn to move with it. Powerful, enlightening, and hopeful, *What My Bones Know* is a brave narrative that reckons with the hold of the past over the present, the mind over the body—and examines one woman's ability to reclaim agency from her trauma.

Sophie's World

Wednesday Books

A page-turning novel that is also an exploration of the great philosophical concepts of Western

thought, Jostein Gaarder's *Sophie's World* has fired the imagination of readers all over the world, with more than twenty million copies in print. One day fourteen-year-old Sophie Amundsen comes home from school to find in her mailbox two notes, with one question on each: "Who are you?" and "Where does the world come from?" From that irresistible beginning, Sophie becomes obsessed with questions that take her far beyond what she knows of her Norwegian village. Through those

letters, she enrolls in a kind of correspondence course, covering Socrates to Sartre, with a mysterious philosopher, while receiving letters addressed to another girl. Who is Hilde? And why does her mail keep turning up? To unravel this riddle, Sophie must use the philosophy she is learning—but the truth turns out to be far more complicated than she could have imagined.

Remember Me University of Chicago Press

The eagerly anticipated final volume of the award-winning, definitive biography of Franz Kafka
How did Kafka become Kafka? This eagerly anticipated third and final volume of Reiner Stach's definitive biography of the writer answers that

question with more facts and insight than ever before, describing the complex personal, political, and cultural circumstances that shaped the young Franz Kafka (1883–1924). It tells the story of the years from his birth in Prague to the beginning of his professional and literary career in 1910, taking the reader up to just before the breakthrough that resulted in his first masterpieces, including "The Metamorphosis." Brimming with vivid and often startling details,

Stach's narrative invites readers deep inside this neglected period of Kafka's life. The book's richly atmospheric portrait of his German Jewish merchant family and his education, psychological development, and sexual maturation draws on numerous sources, some still unpublished, including family letters, schoolmates' memoirs, and early diaries of his close friend Max Brod. The biography also provides a colorful panorama of Kafka's wider world, especially the convoluted

politics and culture of Prague. Before World War I, Kafka lived in a society at the threshold of modernity but torn by conflict, and Stach provides poignant details of how the adolescent Kafka witnessed violent outbreaks of anti-Semitism and nationalism. The reader also learns how he developed a passionate interest in new technologies, particularly movies and airplanes, and why another interest—his predilection for the back-to-nature movement—stemmed

from his “nervous” surroundings rather than personal eccentricity. The crowning volume to a masterly biography, this is an unmatched account of how a boy who grew up in an old Central European monarchy became a writer who helped create modern literature. [City of Villains Book 1 \(Volume 1\)](#) Penguin NATIONAL BESTSELLER • From the Pulitzer Prize-winning author of *The Goldfinch* comes an utterly riveting novel set in Mississippi of childhood, innocence, and evil. •

“Destined to become a special kind of classic.” —The New York Times Book Review The setting is Alexandria, Mississippi, where one Mother’s Day a little boy named Robin Cleve Dufresnes was found hanging from a tree in his parents’ yard. Twelve years later Robin’s murder is still unsolved and his family remains devastated. So it is that Robin’s sister Harriet—unnervingly bright, insufferably determined, and unduly influenced by the fiction of Kipling and Robert

Louis Stevenson--sets out to unmask his killer. Aided only by her worshipful friend Hely, Harriet crosses her town's rigid lines of race and caste and burrows deep into her family's history of loss. Filled with hairpin turns of plot and "a bustling, ridiculous humanity worthy of Dickens" (The New York Times Book Review), *The Little Friend* is a work of myriad enchantments by a writer of prodigious talent.

Risk Work Penguin
From the USA TODAY bestselling author of Sweet Thing and Nowhere But Here comes a love story about a Craigslist "missed connection" post that gives two people a second chance at love fifteen years after they were separated in New York City. To the Green-eyed Lovebird: We met

fifteen years ago, almost to the day, when I moved my stuff into the NYU dorm room next to yours at Senior House. You called us fast friends. I like to think it was more. We lived on nothing but the excitement of finding ourselves through music (you were obsessed with Jeff Buckley), photography (I couldn't stop taking pictures of you), hanging out in Washington Square Park, and all the weird things we did to make money. I learned more about myself that year than any other. Yet,

somehow, it all fell apart. We lost touch the summer after graduation when I went to South America to work for National Geographic. When I came back, you were gone. A part of me still wonders if I pushed you too hard after the wedding... I didn't see you again until a month ago. It was a Wednesday. You were rocking back on your heels, balancing on that thick yellow line that runs along the subway platform, waiting for the F train. I didn't know it was you until it was too late,

and then you were gone. Again. You said my name; I saw it on your lips. I tried to will the train to stop, just so I could say hello. After seeing you, all of the youthful feelings and memories came flooding back to me, and now I've spent the better part of a month wondering what your life is like. I might be totally out of my mind, but would you like to get a drink with me and catch up on the last decade and a half? M

"Eazy-E, Dr. Dre, Ice

Cube, MC Ren, and DJ Yella caused a seismic shift in hip-hop when they decided to form N.W.A in 1986. Suddenly rap became gangsta and relevant on the West Coast. With their hard-core image, bombastic sound, and lyrics that were by turns poetic, lascivious, socially conscious, and downright in-your-face, N.W.A spoke the truth about life on the streets of Compton, California--at the time a hotbed of poverty, drugs, gangs, and unemployment. Their

hood tales offered a sharp contrast to the cozy, comfortable images of thriving middle-class life emanating from television screens across America. For the group, making music was not about being nice or projecting a false reality. It was all about expressing themselves. Through firsthand interviews and exhaustive research, Los Angeles Times music reporter Gerrick D. Kennedy transports readers back in time and offers a front-row seat to N.W.A's early days and

the drama and controversy that followed the incendiary group as they rose to become multiplatinum artists. Kennedy leaves nothing off the table in his pursuit of the full story behind the group's most pivotal moments, including Ice Cube's decision to go solo after their debut studio album became a smash hit, the forming of Ruthless Records, the group's confrontation with the FBI over their inflammatory lyrics, incidents of physical assault, Dr. Dre's decision

to launch Death Row Records with Suge Knight, N.W.A's impact on the 1992 LA riots, Eazy-E's battle with AIDS, and much more. A riveting and illuminating work of music journalism, [this book] captures a defining moment in rap music, when N.W.A made it altogether social, freaky, enterprising, and gangsta. They forced us all to take notice. For that reason alone, their story must be told."--Dust jacket flap.

The Musician Simon and Schuster
How artists in the US

starting in the 1960s came to use guerrilla tactics in performance and conceptual art, maneuvering policing, racism, and surveillance. As US news covered anticolonialist resistance abroad and urban rebellions at home, and as politicians mobilized the perceived threat of “guerrilla warfare” to justify increased police presence nationwide, artists across the country began adopting guerrilla tactics in performance and conceptual art. Risk Work tells the story of

how artists’ experimentation with physical and psychological interference from the late 1960s through the late 1980s reveals the complex and enduring relationship between contemporary art, state power, and policing. Focusing on instances of arrest or potential arrest in art by Chris Burden, Adrian Piper, Jean Toche, Tehching Hsieh, Pope.L, the Guerrilla Girls, Asco, and PESTS, Faye Raquel Gleisser analyzes the gendered, sexualized, and

racial politics of risk-taking that are overlooked in prevailing, white-centered narratives of American art. Drawing on art history and sociology as well as performance, prison, and Black studies, Gleisser argues that artists’ anticipation of state-sanctioned violence invokes the concept of “punitive literacy,” a collectively formed understanding of how to protect oneself and others in a carceral society. **What If Everybody Did That?** Simon and Schuster
